

**SECTION XX – FIRE HYDRANT USE PERMITS  
FOR PRIVATE OR PUBLIC FIRE HYDRANTS**

Temporary water service may be made available from fire hydrants in the District’s service area upon proper application and approval by the District. Fire hydrant permits are available at the District’s offices and are approved based on available water, location of fire hydrants, and size of meter required.

Fire hydrant permits are normally issued by the District for only the following reasons (limited to duration of the need, but in no case longer than 30 days, as stated at issuance of permit):

- 1. Filling swimming pools.
- 2. Instances which are non-recurring in a given area, such as:
  - a. sewer flushing
  - b. mud jacking of streets
  - c. paving projects
  - d. demolition dust control
  - e. street cleaning
  - f. street cutting
- 3. Street sweepers which use designated hydrants.
- 4. Other purposes as deemed necessary by the District.

All fire hydrant permit connections shall be properly metered and shall have proper backflow protection. Metering devices and backflow prevention devices shall be furnished by the District and obtained at the issuance of permit.

No Fire Hydrant Permit shall be issued for a period of more than 30 days without renewal.

No Fire Hydrant Permit shall be issued for construction purposes where a permanent service will be required at a future date.

Contractors performing road projects for which the time of construction is longer than 90 calendar days, who desire water service for any reason shall determine a central location, approved by the District, and shall cause to be constructed a service connection to meet their needs as per the Rates, Rules and Regulations of the District.

**DEPOSITS, FEES and CHARGES:**

Hydrant Usage Deposit – A refundable deposit shall be placed with the District, from which any charges shall be deducted for damages and unbilled water, and the balance returned to the holder of the permit.

Deposit Charges are as follows:

- 1 to 5 days = \$250.00
- 5 to 30 days = \$1,000.00

**SECTION XX – FIRE HYDRANT USE PERMITS  
FOR PRIVATE OR PUBLIC FIRE HYDRANTS – Cont’d**

Each Fire Hydrant Permit will require a daily fee. The daily fee is as follows:

- 1" meter assembly with 5/8" outlet = \$15.00 per business day
- 3" meter assembly with 2 1/2" outlet = \$30.00 per business day

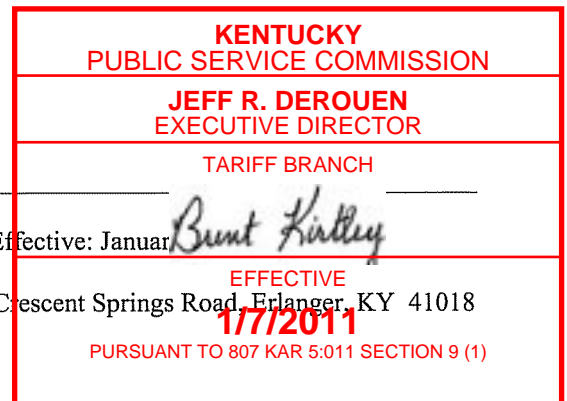

The deposit for cities, counties, agencies, and other groups approved by the District shall be waived. Water consumption shall be billed at the normal rates of the District. The holder of a Fire Hydrant Permit shall be responsible for any damage (including freezing), loss, or theft of the meter assembly and for any damage to the fire hydrant, and will be charged for repairs at the District’s Invoice Billing Policy. If there is any leakage between the fire hydrant and the connection to the permit holder’s hose connection, the fire hydrant shall be immediately shut off and the District notified.

**CHARGES FOR ESTIMATED USAGE WHEN NOT HAVING A PERMIT OR NOT USING METERING DEVICES:**

No person, firm, or corporation shall use or make a connection to use water from a fire hydrant or other available source of water unless a properly authorized Fire Hydrant Permit is issued by the District. Any connections, hoses, wrenches, or appurtenances attached to a fire hydrant without a permit issued by the District shall be immediately confiscated by any employee of the District and the proper legal authority will be notified for the theft of service. In addition, where no permit was issued and there is no way to determine actual water usage, an estimated amount equal to the cost of the water flowed for four (4) hours @ 250gpm plus any damages to distribution system will be charged.

**PERMANENT INSTALLATION OF METER & BACKFLOW PREVENTER:**

Cities, county agencies, and other groups approved by the District requesting permits for instances which are non-recurring in a given area, may install a meter (purchased from the District), an approved backflow prevention device or method, and appurtenances for permanent mounting on their equipment. The installation must be approved by the District. A Fire Hydrant Permit shall still be required for a specific hydrant(s). The meter must be delivered to District’s office on or before the day of Fire Hydrant Permit expiration. At this time, the meter shall be read and billed to the permit holder. If permitted, the meter shall be re-issued for an additional time period. On a yearly basis, the meter must be tested by the Meter Service Department and the approved backflow preventer shall be tested by a Certified Backflow Technician acceptable to the District.
