RULES AND REGULATIONS

20. Multiple Services

A. Permanent Single Family Dwellings.

Under no circumstances shall more than one permanent single family residential dwelling be provided service through a single meter.

B. Commercial Trailer Park.

(1) Definition. A commercial trailer park shall be defined as two (2) or more units occupying a common parcel of land and producing revenue of two (2) or more units designated as a trailer park by the Kentucky Department Health for reasons of health and public welfare.

(2) Minimum Bill. Rates set forth herein are based on the capacity of the trailer park whether filled or not. For purposes of determining the park capacity, the park owner shall submit a plat of development to the District. Payment for water purchased shall be 50% of the regular residential minimum times the number of trailer spaces available (includes 50% of residential minimum gallonage times number of spaces available). Balance of usage billed at regular residential rate schedule.

(3) Meter Size. The utility shall determine the size of meter necessary to provide adequate services and the meter installation shall be paid for by the customer at the prescribed rate in effect. The following schedule of meter sizes and maximum number of trailer spaces shall be adopted as the basis for selection by the Water District under normal conditions:

SECTION 9(1)
BY: Jordan C. Neal
FOR THE PUBLIC SERVICE COMMISSION

Any additional charge for increasing the meter size at some future date shall be paid by the owner at the actual cost to the utility less any salvage value for the meter remove.

Anyone desiring service under the commercial trailer park regulation shall not serve a residential home or homes without paying a full minimum bill for such residential home.

C. Multi-Family Dwellings

(1) Definition. A multi-family dwelling shall be defined as a permanent structure housing two or more families and producing revenue. Included in this definition are duplex, triplex, and apartment buildings.

(2) Minimum Bill. Rates set forth herein are based on the unit capacity of the structure whether filled or not. Payment for water purchased shall be based upon the total consumption registered by the meter per month divided by the number of dwelling units available and each shall be billed at the regular residential rate structure for its prorated share as if each unit were an individual customer.

RULES AND REGULATIONS

20. (Continued)

D. Other Combinations

Multiple service for a permanent single family residential dwelling in combination with trailer homes, and trailer homes not otherwise classified as a commercial trailer park may be served from a single meter. In such cases, the total consumption registered by the meter per month will be divided by the number of dwelling units being served and each shall be billed at the regular residential rates for his pro-rate share as if he were an individual customer.

21. Extension of Main.

A. Normal Extension.

An extension of fifty feet or less along an existing road shall be made by the West McCracken Water District to its existing distribution main without charge for a prospective customer who shall apply for and contract to use service for one year or more and provide a guarantee for such service.

B. Other Extensions.

(1) When an extension of the West McCracken Water District's main to serve an applicant or group of applicants amounts to more than fifty feet per applicant, the District may require the total cost of the excessive footage over fifty feet per customer to be deposited with the District by the applicant or the applicants, based on the average estimated cost per foot of the total extension. Cost of the total extension shall be established from accurate records of construction cost by the District, including materials, labor, supervision, engineering, testing, disinfection, water and such other cost incurred by the District and made available to the applicant or applicants receiving service.
