RULES & REGS

FIRE DEPARTMENTS:

Any city, county, urban-county, charter county, fire protection district, or volunteer fire protection district ("User") may withdraw water from the utility's water distribution system for the purpose of fighting fires or training firefighters at no charge on the condition that it maintains estimates of the amount of water used for fire protection and training during the calendar month and reports the amount of this water usage to the utility no later than the 15th day of the following calendar month.

Any city, county, urban-county, charter county, fire protection district, or volunteer fire protection district with withdraws water from the utility's water distribution system for fire protection or training purposes and fails to submit the required report on water usage in a timely manner shall be assessed the cost of this water.

A non-reporting user's usage shall be presumed to 0.3 percent of the utility's total water sales for the calendar month. A non-reporting user may present evidence of its actual usage to rebut the presumed usage. The utility shall consider this evidence and may adjust the presumed usage amount accordingly.

The non-reporting user shall be billed for this usage at the lowest usage block rate regardless of customer classification that the utility charges.

A non-reporting user shall also be assessed a penalty of \$ 25.00 for each failure to submit a report in a timely manner.

RULES AND REGULATIONS

The following are the rules and regulations of the Bronston Water Association, Inc. The schedule of rates prescribed herein will be uniformly charged to all customers of the utility. No employee or individual commissioner of the utility is permitted to make an exception to these rates, rules, or regulations. These rules and regulations are subject to change by the utility at any time, subject to the approval of the Public Service Commission.

A. Service Information.

1. Upon request the utility will give its customers or prospective customers such information as is reasonably possible in order that they may secure safe, efficient, and continuous service. The utility will inform its customers of any change made or proposed in the character of its service that might affect the efficiency, safety, or continuity of operation.
2. The utility will obtain the approval of the Public Service Commission prior to making any substantial change in the character of the service furnished that would affect the efficiency, adjustment, speed, or operation of the equipment or appliances of any customer. The application will show the nature of the change to be made, the number of customers affected, and the manner in which they will be affected.
3. The utility will inform each applicant for service of each type, class, and character of service available at his/her location.
4. Upon request the utility will provide the following information to any applicant/customer:
 - a) Characteristics of Water. A written description of chemical constituents and bacteriological standards of the treated water as required by the Natural Resources Cabinet.
 - b) Rates. A schedule of rates for water service applicable to the service to be rendered to the customer.
 - c) Reading Meters. Information about the method of reading meters.
 - d) Bill Analysis. A statement of the past readings of a customer's meter for a period of two (2) years.

RULES AND REGULATIONS

B. Special Rules or Requirements.

1. The utility cannot establish any special rule or requirement without first obtaining the approval of the Public Service Commission.
2. A customer that has complied with Public Service Commission rules and regulations cannot be denied service for failure to comply with the utility's rules that have not been approved by the Public Service Commission.
3. Each prospective customer desiring water service will be required to sign the utility's Water Service Contract before service is supplied by the utility.
4. No customer is allowed to resell water except under the terms of a special contract executed by the utility and approved by the Public Service Commission.

C. Billings, Meter Readings, and Related Information.

1. Information on bills. Each bill issued by the utility will clearly show the following, if applicable: class of service; present and last preceding meter readings; date of the present reading; number of units consumed; meter constant, if any; net amount for service rendered; all taxes; any adjustments; and the gross amount of the bill. The date after which a late payment penalty applies to the gross amount will also be indicated. Estimated or calculated bills will be distinctly marked as such. The rate schedule under which the bill is computed will be furnished under one (1) of the following methods:
 - a) By printing it on the bill.
 - b) By publishing it in a newspaper of general circulation once each year.
 - c) By mailing it to each customer once each year.
 - d) By providing a place on each bill where a customer may request a copy of the applicable rates. The utility will mail the customer a copy by return first class mail.

RULES AND REGULATIONS

2. Bill format. A copy of the utility's billing form will be included in the utility's tariff.
3. Meter readings. Registration of each meter shall read in the same units as used for billing unless a conversion factor is shown on the billing form.
4. Frequency of meter reading. Unless prevented by reasons beyond the utility's control, meter readings will be taken every month. Records will be kept by the utility to insure that this information is available to the Public Service Commission staff and any customer requesting this information. If, due to reasons beyond its control, the utility is unable to read a meter in accordance with this subsection, the utility will record the date and time the attempt was made, if applicable, and the reason the utility was unable to read the meter.
5. Related Information
 - a. Bills and notices related to the utility's business will be mailed to the customer at the address listed on the Water Service Contract unless a change of address has been filed with the utility in writing. The utility will not otherwise be responsible for delivery of any bill or notice nor will the customer be excused from the payment of any bill or any performance required in the notice.
 - b. Water service will be billed monthly.
 - c. Bills are payable and due on the date of issuance.
 - d. Payment must be received before the close of business of the due date printed on the bill; otherwise, the delinquent bill will be assessed the late payment penalty approved and on-file with the Public Service Commission.
 - e. The late payment penalty will be assessed on the delinquent amount of the bill, less taxes and any prior penalty amounts. Pursuant to 807 KAR 5:006 Section 8 (3)(h), a penalty may be assessed only once on any bill for rendered services.

(Name of Utility)

RULES AND REGULATIONS

- f) With the exception of existing connections, the existence of a special contract, or unusual circumstances requiring approval of the utility, a single meter can serve no more than one residential or commercial unit on and after the effective date of this tariff.
- g) For existing connections, special contracts, or other utility approved situations, where two or more units are being served by one meter, the following rules will apply:
- 1) One bill per meter will be sent to the customer that signed the Water Service Contract.
 - 2) The bill will consist of a charge in the amount of the utility's minimum bill multiplied by the number of units the meter serves. The amount of water included with a minimum bill will be multiplied by the number of units and deducted from the total amount of consumption. The remaining consumption will be evenly distributed among each unit, added to each unit's minimum bill, with the charges calculated in accordance with the currently approved rate schedule.
 - 3) The customer that signed the Water Service Contract will be fully and solely responsible for the charges associated with the connection including payment for all water passing through the meter, regardless of which unit is responsible for the water consumption

D. Deposits.

1. Deposits to secure payment. The utility may require a minimum cash deposit or other guaranty to secure payment of bills.
2. Equal Deposits. An equal deposit amount for each class of customers will be established based on the average annual bill of customers in that class. Deposit amounts will not exceed two-twelfths (2/12) of the average annual bill of customers in each class where bills are rendered monthly. Deposit amounts are listed in the Rates and Charges section of this tariff.

3. Recalculation of deposits. If the utility retains the deposit for more than eighteen (18) months, it will notify customers in writing that, at the customer's request; the deposit will be recalculated every eighteen- (18) months based on actual usage of the customer. The notice of deposit recalculation will be included either on the customer's application for service or on the receipt of deposit, or may be included annually with or on customer bills. The notice of deposit recalculation will state that if the deposit on account differs by more than ten (10) dollars for residential customers, or by more than ten (10) percent for nonresidential customers, from the deposit calculated on actual usage, then the utility will refund any over-collection and may collect any underpayment. Refunds will be made either by check or by credit to the customer's bill, except that the utility will not refund any excess deposit if the customer's bill is delinquent at the time of recalculation.
4. Additional deposit requirement. If a deposit has been waived or returned and the customer fails to maintain a satisfactory payment record, the utility may require that a deposit be made. The utility may require a deposit in addition to the initial deposit if the customer's classification of service changes or if there is a substantial change in usage.
5. Receipt of deposit. The utility will issue a receipt to every customer that pays a deposit. The receipt will show the name of the customer, location of the service or customer account number, date, and amount of deposit. If the notice of recalculation described in this section is not included in the utility's application for service or mailed with customer bills, the receipt of deposit will contain the notification. If deposit amounts change, the utility will issue a new receipt of deposit to the customer.
6. Deposits as a condition of service. Service may be refused or discontinued if payment of requested deposits is not made.
7. Interest on deposits. Interest will accrue on all deposits at the rate prescribed by law beginning on the date of the deposit. Interest accrued will be refunded to the customer or credited to the customer's bill on an annual basis, except that the utility will not be required

to refund or credit interest on deposits if the customer's bill is delinquent on the anniversary of the deposit date. Upon termination of service, the deposit, any principal amounts, and interest earned and owing will be credited to the final bill with any remainder refunded to the customer.

E. Special Non-recurring Charges:

1. The utility will collect for special nonrecurring charges to recover customer-specific costs incurred which would otherwise result in monetary loss to the utility or increased rates to other customers to whom no benefits accrue from the service provided or action taken. The utility may establish or change any special nonrecurring charge by applying for Public Service Commission approval of such charge in accordance with the provisions of 807 KAR 5:011, Section 10.
2. Special nonrecurring charges will be applied uniformly throughout the area served by the utility. Such charges will relate directly to the service performed or action taken and only yield enough revenue to pay the expenses incurred in rendering the service.
3. The utility will assess a charge for the following non-recurring services:
 - a) Connection/Tum-on Charge: Will be assessed for new service tum-ons, seasonal tum-ons, temporary service, or transfer of service. The charge will not be made for initial installation of service where a meter connection/tap-on charge is applicable.
 - b) Reserved for Future Use (T)
 - c) Late Payment Penalty: Will be assessed on the delinquent amount of the bill, less taxes.
 - d) Meter Relocation Charge: Will be assessed when a customer or other authorized person requests that a meter be relocated, changed, or modified. Those requesting a change must reimburse the utility for the actual costs incurred, including but not limited to appropriate legal, administrative,

engineering, overhead, or other related costs.

RULES AND REGULATIONS

F. Customer Complaints to the Utility. Upon complaint to the utility by a customer at the utility's office, by telephone, or in writing, the utility will make a prompt and complete investigation and advise the complainant of its findings. The utility's operator/manager will make a decision within ten (10) days, which the complainant will then have ten (10) days to appeal to the utility's board of commissioners. The customer will receive a final decision from the utility no later than thirty (30) days following the date that the complaint was made. If the complainant is not satisfied with the utility's decision, the utility will provide written notice to the complainant of his/her right to appeal the utility's decision by filing a complaint with the Public Service Commission. The utility will also provide the customer with the address and telephone number of the Public Service Commission. The utility will keep a record of all written complaints. This record will show the name and address of the complainant, the date and nature of the complaint, and the adjustment or disposition of the complaint. Records will be maintained for two (2) years from the date of resolution of the complaint.

G. Bill Adjustments:

1. Fast or slow reading meters:

- a) If upon periodic test, requested test, or complaint test, a meter in service is found to be more than two (2) percent fast, additional tests will be made to determine the average error of the meter. The tests will be made in accordance with Public Service Commission rules and regulations applicable to the type of meter involved.
- b) If test results on a customer's meter show an average error greater than two (2) percent fast or slow, or if a customer has been incorrectly billed for any other reason, except in an instance where a utility has filed a verified complaint with the appropriate law enforcement agency alleging fraud or theft by a customer, the utility will immediately determine the period during which the error has existed, and will recompute and adjust the customer's bill to either provide a

refund to the customer or collect an additional amount of revenue from the underbilled customer. Any adjustment to the customer's account will be in accordance with the rules and regulations of the Public Service Commission pursuant to 807 KAR 5:066 Section 9(c).

- c) The utility will readjust the account based upon the period during which the error is known to have existed. If the period during which the error existed cannot be determined with reasonable precision, the time period will be estimated using such data as elapsed time since the last meter test, if applicable, and historical usage data for the customer. If that data is not available, the average usage of similar customer loads will be used for comparison purposes in calculating the time period. If the customer and the utility are unable to agree on an estimate of the time period during which the error existed, the Public Service Commission will determine the issue. In all instances of customer overbilling, the customer's account will be credited or the overbilled amount refunded at the discretion of the customer within thirty (30) days after final meter test results. A utility will not require customer repayment of any underbilling to be made over a period shorter than a period coextensive with the underbilling.
2. Meter read failure. When a meter has ceased to register, or a meter reading cannot be obtained, the quantity of water to be billed will be based upon an average of twelve-months' consumption. If said meter readings are not available for an entire twelve-month period, the water bill will be estimated by the utility, subject to an upward or downward adjustment once a twelve-month average of actual meter readings can be calculated.

- 3. Monitoring usage. The utility will monitor a customer's usage at least annually in such a way to draw the utility's attention to unusual deviations in a customer's usage. If a customer's usage is unduly high (100% above average) and the deviation is not otherwise explained, the utility will test the customer's meter to determine whether the meter shows an average error greater than two (2) percent fast or slow.
- 4. Usage investigation. If the utility's procedure for monitoring usage indicates that an investigation of a customer's usage is necessary, the utility will notify the customer in writing either during or immediately after the investigation of the reasons for the investigation, and of the findings of the investigation. If knowledge of a serious situation requires more expeditious notice, the utility will notify the customer by the most expedient means available.
- 5. Customer notification. If a meter is tested and it is found necessary to make a refund or back bill a customer, the customer will be notified in substantially the following form:

On _____, 19____, the meter bearing identification No. ____ installed in your building located at _____ (Street and Number) in _____ (city) was tested at _____ (on premises or elsewhere) and found to register _____ (percent fast or slow). The meter was tested on _____ (Periodic, Request, Complaint) test.

Based upon this we herewith _____ (charge or credit) with the sum of \$____, which amount has been noted on your regular bill. If you desire a cash refund, rather than a credit to your account, of any amount overbilled, you must notify this office in writing within seven (7) days of the date of this notice.

H. Status of Customer Accounts during Billing Disputes. With respect to any billing dispute, customer accounts shall be considered to be current while the dispute is pending as long as the customer continues to make undisputed payments and stays current on subsequent bills.

RULES AND REGULATIONS

I. Customer's Request for Termination of Service.

1. Any customer desiring service terminated or changed from one address to another shall give the utility three (3) working days' notice in person, in writing, or by telephone, provided such notice does not violate contractual obligations. The customer will not be responsible for charges for service beyond the three- (3) day notice period if the customer provides proper notification and reasonable access to the meter during the notice period. If the customer notifies the utility of his/her request for termination by telephone, the burden of proof is on the customer to prove that service termination was requested if a dispute arises.
2. Upon request that service be reconnected at any premises subsequent to the initial installation or connection to its service lines, the utility will charge the applicant a reconnect fee as set out in this tariff and approved by the Public Service Commission

J. Customer Relations.

1. Display of customer rights. The utility will prominently display in the office in which payment is received a copy of Customer's Rights. If a customer indicates to any utility personnel that he is experiencing difficulty in paying a current utility bill, that employee will refer the customer to the designated representative for explanation of the customer's rights.
2. Partial payment plans. The utility shall negotiate and accept reasonable partial payment plans at the request of residential customers who have received a termination notice for failure to pay, except that a utility is not required to negotiate a partial payment plan with a customer who is delinquent under a previous partial payment plan. Partial payment plans must be mutually agreed upon. Plans which extend for a period longer than thirty (30) days will be in writing and will advise customers that service may be terminated without additional notice if the customer fails to meet the obligations of the plan.

RULES AND REGULATIONS

3. Utility inspections of service conditions prior to providing service. The utility will inspect the condition of the meter and service connections before providing service to a new customer so that prior or fraudulent use of the facilities will not be attributed to the new customer. The new customer will be afforded the opportunity to be present at such inspections. The utility will not be required to render service to any customer until any defects in the customer-owned portion of the service facilities have been corrected.
4. Prompt connection of service. The utility will reconnect existing service within twenty-four (24) hours, and will install and connect new service within seventy-two (72) hours, when the cause for refusal or discontinuance of service has been corrected and the rules and regulations of the utility and Public Service Commission have been met.
5. Advance termination notice. When advance termination notice is required, the termination notice will be mailed or otherwise delivered to the last known address of the customer. The termination notice will be in writing, distinguishable and separate from any bill. The termination notice will plainly state the reason for termination, that the termination date will not be affected by receipt of any subsequent bill, and that the customer has the right to dispute the reasons for termination.

K. Refusal or Termination of Service.

1. The utility may refuse service to a customer under the following conditions:
 - a) For noncompliance with utility or Public Service Commission rules and regulations. The utility cannot refuse service to any customer for noncompliance without first having made a reasonable effort to obtain customer compliance. After such effort by the utility, service may be refused only after the customer has been given a written notice of refusal stating the reasons for refusal of service.

- b) For dangerous conditions. If a dangerous condition exists which could subject any person to imminent harm or result in substantial damage to the property of the utility or others is found to exist on the customer's premises, then service will be refused. The utility will notify the customer in writing and, if possible, orally for the reasons for refusal of service. Such notice will be recorded by the utility and will include the corrective action to be taken by the customer before service can be provided.
- c) For refusal of access. When a customer refuses or neglects to provide reasonable access to the premises for installation, operation, meter reading, maintenance or removal of utility property, the utility may refuse service. The utility will notify the customer in writing and, if possible, orally for the reasons for refusal of service. Such notice will be recorded by the utility and will include the corrective action to be taken by the customer before service can be provided.
- d) For outstanding indebtedness. The utility will not furnish new service to any customer who is indebted to the utility until that customer has repaid the indebtedness.
- e) For noncompliance with state, local, or other codes. The utility may refuse service to a customer if the customer does not comply with state, municipal or other codes, rules, and/or administrative regulations applying to such service. The utility will notify the customer in writing and, if possible, orally for the reasons for refusal of service. Such notice will be recorded by the utility and will include the corrective action to be taken by the customer before service can be provided.

2. Utility Initiated Termination of Service.

- a) The termination notice requirements stated herein will not apply if termination notice requirements to a particular customer or customers are otherwise dictated by the terms of a special contract between the utility and customer which has been approved by the Public Service Commission.

- 4) For nonpayment of bills. The utility may terminate service for nonpayment of charges incurred for utility services. The utility may terminate service only after five (5) days' written notice of termination is provided, and after twenty (20) days have elapsed since the mailing date of the original unpaid bill.
- d) The utility may terminate service to a customer if the following conditions exist without an advance termination notice. Within twenty-four (24) hours after such termination, the utility shall send written notification to the customer of the reason(s) for termination upon which the utility relies, and of the customer's right to challenge the termination by filing a formal complaint with the Public Service Commission. The utility will not restore service until the customer agrees to comply with all rules and regulations of the utility and Public Service Commission.
- 1) For illegal use or theft of service. The utility may terminate service to a customer without advance notice if it has evidence that a customer has obtained unauthorized service by illegal use or theft. This right of termination is separate from and in addition to any other legal remedies that the utility may pursue for illegal use or theft of service.
- 2) For dangerous conditions. If a dangerous condition relating to the utility's service which could subject any person to imminent harm or result in substantial damage to the property of the utility or others is found to exist on the customer's premises, then service will be terminated immediately. Upon termination the utility will leave notification at the customer's dwelling and, if possible, orally contact the customer to inform him/her of the reasons for the termination. Such notice will be recorded by the utility and will include the corrective action to be taken by the customer or utility before service can be restored.

- 3) Unapproved Extensions and/or Additions. Any extension or additions to an existing service connection that have not been approved by the utility will be considered theft of service, and will constitute grounds for termination of service. This right of termination is separate from and in addition to any other legal remedies that the utility may pursue for illegal use or theft of service.
- 4) Misrepresentation. Any misrepresentation in the application or contract as to the property or fixtures to be supplied or additional use to be made of water will constitute grounds for termination of service, and the customer shall be liable for any damage to any of the utility's facilities or equipment.
- 5) Failure to Report Changes. Failure to notify the utility of additions to the property or fixtures to be supplied or additional use to be made of water will constitute grounds for termination of service.
- 6) Resale of Water. Under no circumstances will a customer be allowed to resell or give away water except under the terms of a special contract executed by the utility and approved by the Public Service Commission. Failure to comply with this rule will constitute grounds for termination of service.
- 7) Waste or Misuse. Waste or misuse of water due to improper or imperfect service pipes and/or failure to keep said pipes in suitable state of repair will constitute grounds for termination of service.
- 8) Tampering with meter, meter seal, service, valves, or other system facilities, or permitting such tampering by others will constitute grounds for termination of service.
- 9) Connections, cross-connections, or permitting the same, of any separate water supply to premises that receive water from the utility will constitute grounds for termination of service.

e) The utility will not terminate service to a customer if the following conditions exist:

- 1) If payment for services is made. Service will not be terminated to a customer that was sent a termination notice if the customer delivers full payment to the utility prior to the actual termination of service.
- 2) If a partial payment agreement is in effect. Service will not be terminated for nonpayment if the customer and the utility have entered into a partial payment plan and the customer is meeting the requirements of the plan.
- 3) If a medical certificate is presented. Service will not be terminated for thirty (30) days beyond the termination date if a physician, registered nurse or public health officer certifies in writing that termination of service will aggravate a debilitating illness or infirmity on the affected premises. The utility may refuse to grant consecutive extensions for medical certificates past the original thirty (30) days unless the certificate is accompanied by an agreed partial payment plan. The utility will not require a new deposit from a customer to avoid termination of service for a thirty (30) day period who presents to the utility a medical certificate certified in writing by a physician, registered nurse or public health officer.

RULES AND REGULATIONS

L. Meter Testing.

1. Water meters will be tested before being installed for use by any customer. The water meter will be in good working order and adjusted as close to the optimum operating tolerance as possible, in accordance with 807 KAR 5:022, Section 8(3)(a), 807 KAR 5:041, Section 17(1)(a)-(c) and 807 KAR 5:066, Section 15(2)(a)-(b).
2. The utility may have all or part of its meter testing performed by another utility or agency approved by the Public Service Commission. The utility will notify the Public Service Commission of the make, type, and serial number of standards used for testing.
3. The utility cannot place in service any basic measurement standard unless the Public Service Commission has approved the calibration. The Public Service Commission will be notified promptly of the adoption or deletion of any basic standards requiring approval of the calibration.
4. Meter testers must be certified by the Public Service Commission. Certified meter testers will perform tests as necessary to determine the accuracy of the utility's meters and to adjust the utility's meters to the degree of accuracy required by the rules and regulations of the Public Service Commission.

M. Meter Test Records.

1. A complete record of all meter tests and adjustments and data sufficient to allow checking of test calculations will be recorded by the meter tester. Such record will include: information to identify the unit and its location; date of tests; reason for such tests; readings before and after test; statement of "as found" and "as left" accuracies sufficiently complete to permit checking of calculations employed; notations showing that all required checks have been made; statement of repairs made, if any; identifying number of the meter; type and capacity of the meter; and the meter constant. The complete record of tests of each meter will be continuous for at least two (2) periodic test periods and will in no case be less than two (2) years.

2. The utility will keep numerically arranged and properly classified records for each meter owned, used and inventoried by the utility. The identification number, date of purchase, name of manufacturer, serial number, type, rating, and name and address of each customer on whose premises the meter has been in service with date of installation and removal will be included in the records. These records will also contain condensed information concerning all tests and adjustments including dates and general results of such adjustments. The records will reflect the date of the last test and indicate the proper date for the next periodic test required by the applicable Public Service Commission rule and/or regulation.
3. Upon completion of adjustment and test of any meter pursuant to Public Service Commission rules and regulations, the utility will affix to the meter a suitable seal in such a manner that adjustments or registration of the meter cannot be altered without breaking the seal.

N. Customer Requested Meter Tests.

1. The utility will make a test of any meter upon written request of any customer if the request is not made more frequently than once every twelve- (12) months. The customer shall be given the opportunity to be present at the requested test. If the test shows that the meter was not more than two (2) percent fast, the utility will make a reasonable charge for the test, the amount being approved by the Public Service Commission and set out in the utility's tariff.
2. After having first obtained a test from the utility, any customer of the utility may request a meter test by the Public Service Commission upon written application. Such request shall not be made more frequently on one (1) meter than once every twelve- (12) months.

O. Access to Property.

1. The utility shall at all reasonable hours have access to meters, service connections, and other property owned by it and located on customer's premises for purposes of installation, maintenance, meter reading, operation, replacement or removal of its property at the time service is terminated. customer's premises will wear a distinguishing uniform or other insignia identifying him/her as an employee of the utility, or show a badge or other identification which will identify him/her as an employee.

- 2. Obtaining easements and right-of-ways necessary to extend service will be the responsibility of the utility.
- 3. All customers must grant, convey, or cause to be granted or conveyed to the utility a perpetual easement and right-of-way across any property owned or controlled by the customer wherever necessary for the utility's facilities in order to provide service.
- 4. The utility cannot require a prospective customer to obtain easements or rights-of-way on property not owned by the prospective customer as a condition for providing service. However, the cost of obtaining easements or rights-of-way will be included in the total per foot cost of an extension, and will be apportioned among the utility and customer in accordance with the applicable extension administrative regulation.

P. Location of Records. All records required by Public Service Commission rules and regulations will be kept in the office of the utility and will be made available to representatives, agents or staff of the Public Service Commission upon reasonable notice at all reasonable hours.

Q. Safety Program. The utility will adopt and execute a safety program, appropriate to the size and type of its operations. At a minimum, the safety program will:

- 1. Establish a safety manual with written guidelines for safe working practices and procedures to be followed by utility employees.
- 2. Instruct employees in safe methods of performing their work.
- 3. Instruct employees who, in the course of their work, are subject to the hazard of electrical shock, asphyxiation or drowning, in accepted methods of artificial respiration.

R. System Inspections.

1. The utility will adopt inspection procedures to assure safe and adequate operation of its facilities and compliance with Public Service Commission rules and regulations. These procedures will be filed with the Public Service Commission for review.
2. Upon receipt of a report of a potentially hazardous condition at any utility facility made by a qualified employee, public official, or customer, the utility will inspect all portions of the system which are the subjects of the report.
3. Appropriate records will be kept by the utility to identify the inspection made, deficiencies found and action taken to correct the deficiencies.
4. Inspections. The utility will make systematic inspections of its system in the manner set out below to insure that the Public Service Commission's safety requirements are being met. These inspections will be made as often as necessary but not less frequently than is set forth below for various classes of facilities and types of inspection.
 - a) The utility will annually inspect all structures pertaining to source of supply for their safety and physical and structural integrity, including dams, intakes, and traveling screens. The utility will semiannually inspect supply wells, their motors and structures, including electric power wiring and controls for proper and safe operation.
 - b) The utility will annually inspect all structures pertaining to purification for their safety, physical and structural integrity and for leaks, including sedimentation basins, filters, and clear wells; chemical feed equipment; pumping equipment and water storage facilities, including electric power wiring and controls; hydrants, mains, and valves.
 - c) The utility will monthly inspect construction equipment and vehicles for defects, wear, operational hazards, lubrication, and safety features.

S. Reporting of Accidents, Property Damage, or Loss of Service.

1. Within two (2) hours following discovery the utility will notify the Public Service Commission by telephone or electronic mail of any utility related accident which results in:
 - a) Death; or shock or burn requiring medical treatment at a hospital or similar medical facility, or any accident requiring inpatient overnight hospitalization;
 - b) Actual or potential property damage of \$25,000 or more; or
 - c) Loss of service for four (4) or more hours to ten (10) percent or 500 or more of the utility's customers, whichever is less.
2. A summary written report will be submitted by the utility to the Public Service Commission within seven (7) calendar days of the utility related accident.

T. Continuity of Service.

1. Emergency interruptions. The utility will make all reasonable efforts to prevent interruptions of service and when such interruptions occur will endeavor to reestablish service with the shortest possible delay consistent with the safety of its consumers and the general public. If an emergency interruption of service affects service to any public fire protection device, the utility will immediately notify the fire chief or other public official responsible for fire protection.
2. Scheduled interruptions. If the utility finds it necessary to schedule an interruption of its service, it will notify all customers to be affected by the interruption, stating the time and anticipated duration of the interruption. Whenever possible, scheduled interruptions will be made at hours of least inconvenience to customers. If public fire protection is provided by mains affected by the interruptions, the utility will notify the fire chief or other officials responsible for fire protection of the interruption, stating the time and anticipated duration.

_____ SHEET NO. _____

RULES AND REGULATIONS

The fire chief or other official responsible for fire protection will be notified immediately upon restoration of service.

- Record of interruptions. The utility will keep a complete record of all interruptions on its entire system. This record will show the cause of interruption, date, time, duration, remedy and steps taken to prevent recurrence.

U. Pressures.

- Standard pressure. The utility will maintain a standard pressure in its distribution system at locations to be designated as the point or points of "standard pressure." The selection of such points will be confined to locations fairly representative of average conditions. In selecting points for fixed standard pressure, the utility may divide its distribution system into districts if division is necessary due to differences of elevation or loss of pressure because of friction, or both, and may either adopt a standard pressure for each division or establish a single standard pressure for its distribution system as a whole. In no case will the constant difference between the highest and lowest pressures in a district for which a standard has been adopted exceed fifty (50) percent of such standard. The utility may, in extenuating circumstances, furnish service that does not comply with the foregoing specifications if the customer is fully advised of the conditions under which average service may be expected. The Public Service Commission, upon investigation, may require improvements when it appears right and proper that such upgrades should be made. In no event, however, will the pressure at the customer's service pipe under normal conditions fall below thirty- (30) psig nor will the static pressure exceed 150 psig.
- Pressure surveys. At least once a year the utility will make a survey of pressures in its distribution system of sufficient magnitude to indicate the quality of service being rendered at representative points in its system. Pressure charts for these surveys will show the date and time of beginning and end of the test and the location at which the test was made. Records of

these pressure surveys will be maintained at the utility's office and will be made available to the Public Service Commission upon request.

V. Service Lines & Connections.

1. The utility will furnish and install at its own expense for the purpose of connecting its distribution system to the customer's premises that portion of the service connection from its main to and including the meter and meter box. The utility will recoup this expense from the customer in accordance with KRS 278.0152.
2. In areas where the distribution system follows well-defined streets and roads, the customer's point of service will be located at that point on or near the street right-of-way or property line most accessible to the utility from its distribution system. In areas where the distribution system does not follow streets and roads, the point of service will be located as near the customer's property line as practicable. Prior to installation of the meter the utility will consult with the customer as to the most practical location.
3. Depth of service line. All service lines must be laid at a sufficient depth (a minimum of 24 inches) to prevent freezing during the coldest weather normally experienced except where services are not intended for use during freezing weather and are actually drained during such periods.
4. A plumbing permit from the appropriate regulatory agency is required before the utility can set the meter.
5. The applicant/customer must furnish and lay the necessary pipe to make the connection from the point of service to the point of usage and be financially responsible for all costs associated with the installation and maintenance of his/her service line plumbing, including a shut-off valve and one-way check valve, installed on his/her property beginning at the outlet side of the water meter. The service line must be kept in good repair and in accordance with utility and Public Service Commission rules and regulations.

RULES AND REGULATIONS

6. The installation and maintenance of the water service line must be in accordance with the rules and regulations of the Kentucky Department of Health.
7. A cross-connection of the utility's system with any other source is strictly prohibited.
8. A well that has or is being used on the premises must be inspected by utility personnel to verify disconnection and separation.
9. All service lines on the customer's side of the meter must consist of copper or PVC pipe with a rating of no less than 200 psi, and should not be less than 3/4 inches.
10. Absolutely no galvanized pipe or fittings can be used in the installation.
11. The utility will not set a meter on a customer's service line at a point that does not deliver 30 psig at the meter.
12. If the applicant/customer's point of usage is at a higher elevation than the meter, the customer should consult with a reputable engineering firm to properly size the service line from the meter to the point of usage.
13. Should an applicant/customer desire a higher pressure due to location or other need, provisions must be made by the applicant for an individual pressure booster system. The manner of connection, location cross-connection protection and type is subject to approval by the utility. The utility reserves the right to require discontinuance and disconnection should the private booster system have a detrimental effect on the utility's system.
14. Piping on the premises of the applicant/customer must be installed so that connections are conveniently located with respect to the utility's lines and mains. A place must be provided for metering that is unobstructed and accessible at all times.
15. The utility may require the applicant/customer may, at his/her own expense, to install a back-flow preventor and/or pressure regulator.

RULES AND REGULATIONS

- 16. All meters will be installed, renewed, and maintained at the expense of the utility, and the utility reserves the right to approve the size and type of meter used.
 - 17. All taps and connections to the mains of the utility must be made by and/or under the direction and supervision of utility personnel and will incur a meter connection/tap-on charge, an amount that has been approved by the Public Service Commission for such service. Payment of this fee is for the privilege of connecting to the water system and the payment of the fee does not constitute the purchase of a water meter.
 - 18. Should an applicant requesting a 5/8" x 3/4" meter require service on the opposite side of the road from the water main, the utility will provide the service at no additional cost to the customer other than the standard meter connection/tap-on charge. All larger size meters will be charged the actual cost of installing the meter, including, when applicable, the additional costs for crossing the road.
 - 19. Any customer having boilers and/or pressure vessels that receive water from the utility must have a check valve on the water supply line and a vacuum valve on the steam line in order to prevent a collapse were the water supply from the utility be interrupted or discontinued.
- W. Leak Adjustments. A customer may make a request for a bill adjustment in the event of a leak under the following conditions:
- 1. The customer must request a leak adjustment in writing to the utility.
 - 2. The customer's bill will be based on two components. The first step will be to calculate the customer's average monthly usage over a twelve-month period. The second step will be to deduct the customers average monthly usage (as calculated in the above) from the total amount of water that passed through the meter. The usage calculated in step one will be billed at the utility's regular rates, while the remaining usage will be charged at the per thousand gallon leak adjustment rate, as set forth in the rates and charges portion of the utility's approved tariff. All water passing through the meter must be accounted and paid for

Z. Legal Disclaimers.

1. The utility shall in no event be held responsible for any claims made against it for reasons of system failure or interruption of service. No persons shall be entitled to damages nor for any portion of a payment refunded for any system failure or interruption of service which in the opinion of the utility is deemed necessary.
2. No person shall maliciously, willfully, or negligently break, damage, destroy, uncover, deface, or tamper with any structure appurtenance or equipment which is a part of the utility's water system. Any person violating this provision will be subject to immediate arrest and/or discontinuance of water service and shall pay the cost of repairing or replacing the utility's facilities.
3. If any loss or damage to the property of the utility or any accident or other injury to persons or property is caused by or results from the negligence or wrongful action of a customer, members of his/her household, his/her agent or employee, the cost of necessary repairs or replacements shall be paid by the customer of the utility and any liability otherwise resulting shall be that of the customer.
4. For purposes of fire protection, including any customer's fire protection system, the utility cannot guarantee a water supply at any particular flow rate or pressure. The fire flow may vary depending upon other water demands on the system, various water facility limitations, or other circumstances. The customer will indemnify and hold harmless the utility and its employees from and against all claims, damages, losses, and expenses incurred as a result of insufficient water supply or deficient system facilities.

~~AA. Fire Departments. For the purpose of off-setting fifty percent or more of its operation expenses, any fire department not receiving public funds from the Commonwealth of Kentucky, or any political subdivision thereof, may withdraw water from the utility's facilities at no charge, for the extinguishing of fires or the training of firemen. A fire department making such withdrawals shall provide an estimate of its withdrawals to the utility at the end of each month.~~

AB. Fire Hydrants: Non Applicable

AC. Fire Sprinkler Systems. Unless specifically exempted within the utility's approved tariff, all connections to the utility's system must be metered; one exception being fire sprinkler systems, subject to utility inspection and approval. A monthly charge will be assessed for each fire sprinkler system. The charge will be approved by the Public Service Commission and included in the rates and charges portion of the utility's approved tariff.

AD. Requirements for New Water Connections.

1. The water line must be buried in a ditch that is at a minimum of 24 inches in depth.
2. The water line must be a minimum of 200 psi
3. A shut-off valve must be installed.
4. A one-way check valve must be installed.
5. A pressure regulator may be required as prescribed by the utility.
6. There shall be absolutely no galvanized pipe or fittings used in the installation.
7. The water line must be visually inspected by the utility.
8. If a well is being used, it must be disconnected and the utility must inspect to verify separation.

AE. Water Main Extensions.

1. Normal extension. An extension of fifty (50) feet or less shall be made by a utility to its existing distribution main without charge for a prospective customer who shall apply for and contract to use service for one (1) year or more.

2. Other extensions.

a) When an extension of the utility's main to serve an applicant or group of applicants amounts to more than fifty (50) feet per applicant, the utility may require the total cost of the excessive footage over fifty (50) feet per applicant/customer to be deposited with the utility by the applicant or the applicants, based on the average estimated cost per foot of the total extension.

b) When an extension of the utility's main to serve an applicant or group of applicants amounts to more than fifty (50) feet per applicant, the utility will require the applicant(s) to sign an agreement between the utility and the property owner (applicant/customer) that specifically define the responsibilities of each party with regards to the extension.

c) Each customer who paid for service under such extension will be reimbursed under the following plan:

For a period of five (5) years after construction of the extension, each additional customer whose service line is directly connected to the extension installed, and not to extensions or laterals therefrom, will be required to contribute to the cost of the extension based on a recomputation of both the utility's portion of the total cost and the amount contributed by the customers. The utility will refund to those customers that have previously contributed to the cost of the extension that amount necessary to reduce their contribution to the currently calculated amount for each customer connected to the extension. All customers directly connected to

the extension for a five- (5) year period after it is placed in service must contribute equally to the cost of construction of the extension. In addition, each customer must pay the approved tap-on fee applicable at the time of his/her application for the meter connection. The tap-on fee will not be considered part of the refundable cost of the extension and may be changed during the refund period. After the five- (5) year refund period expires, any additional customer will be connected to the extension for the amount of the approved tap-on fee only. After the five (5) year refund period expires, the utility will be required to make refunds for an additional five (5) year period in accordance with subparagraph 1 of 807 KAR 5:066 Section 11 (2)(b).

3. An applicant desiring an extension to proposed real estate subdivision may be required to pay the entire cost of the extension. Each year, for a refund period of ten (10) years, the utility will refund to the applicant who paid for the extension a sum equal to the cost of fifty (50) feet of the extension installed for each new customer connected during the year whose service line is directly connected to the extension installed by the developer, and not to extensions or laterals therefrom. Total amount refunded will not exceed the amount paid to the utility. No refund will be made after the refund period ends.
4. Nothing contained herein shall be construed to prohibit the utility from making extensions under different arrangements if such arrangements have received the prior approval of the Public Service Commission.
5. Upon complaint to and investigation by the Public Service Commission a utility may be required to construct extensions greater than fifty (50) feet upon a finding by the Public Service Commission that such extension is reasonable and that an extension of fifty (50) feet or less is unreasonable under the circumstances.

RULES & REGS

CREDIT /DEBIT CARDS:

All customers may pay their bill by credit or debit card. This method of payment may be made in person at the utility office or by telephone.

If on the bill due date an attempt to pay the credit card or debit card is made and the card is declined for any reason, payment is still due in full on that date and will be considered late after that date. All late charges and penalties will be applied. If a customer is paying on our disconnect day and the card is denied, the same rules as above apply, in addition to service being disconnected.

When a customer makes a payment by credit card, the utility will assess a fee equal to that charged to the utility by the credit or debit card processing company to process the transaction. This fee is generally calculated using a formula applied to the balance of the amount charged to the credit or debit account but may be a flat fee per transaction. Prior to processing the transaction, the customer will be informed of the fee amount and, upon request by the customer, the formula employed to arrive at this fee amount.

CROSS CONNECTION PREVENTION PROGRAM

WHEREAS, the Kentucky Natural Resources and Environmental Protection Cabinet have enacted administrative regulations, which require every public water system to determine if or where cross connections exist and to eliminate them; and

WHEREAS, the Board Members of Bronston Water Association, hereafter called "Water Association", realize that they have a responsibility to protect the public health by providing a safe source of drinking water, and that cross connections could affect the health and economic growth of the community;

NOW, THEREFORE, be is resolved by the Board Members of Bronston Water Association:

SECTION 1. PURPOSE AND AUTHORITY.

- (A) It is the purpose of this resolution to establish a program to assure that the public water supply is protected from any auxiliary water supply which may cause contamination due to backflow or cross connections. The Board recognizes that contamination of the public water supply presents an imminent health hazard to the residential and non-residential users of the public water system; the threat of significant economic loss due to disrupted water service; the threat of significant economic loss due to disrupted water service to such residential and nonresidential water users and the potential liability to Water Association.
- (B) It is the further purpose of this resolution to meet the requirements of 401 KAR 8:020 as enacted by the Kentucky Natural Resources and Environmental Protection Cabinet.

SECTION 2. Definitions. As used in this resolution, unless the context clearly requires a different meaning:

RATES AND CHARGES

(A) "Auxiliary Water Supply" means any water supply on or available to the premises other than the Water Association's public water supply. These auxiliary waters may include water from any natural source such as a well, spring, river, stream or body of water or any water or other substance of unknown or questionable quality that may present a health or system hazard to the potable public water supply.

(B) "Backflow" means the reversal of the normal flow of water caused by either back pressure or back siphonage.

(C) "Backflow Prevention Assembly" means an assembly or means designed to prevent backflow. A listing of acceptable backflow prevention assemblies and degree of hazard is available in the Kentucky State Plumbing Law, Regulations and Code.

(D) "Contamination" means an impairment of the quality of the potable water supply by any waste product, fluid, substance, compound or other material to a degree which creates an actual or potential hazard to the public health through poisoning or through the spread of disease.

(E) "Cross Connection" means any physical connection or arrangement of piping or fixtures between two otherwise separate piping systems one of which contains potable water and the other nonpotable water or substance of questionable quality, through which, or because of which, backflow may occur into the potable water system.

(F) "Thermal Expansion Tank" means a device installed on the cold water supply line near a water heater to compensate for the expansion of water within a water system when such water is heated.

SECTION 3. Requirements. The Water Association shall provide protection to the public water system against backflow by implementing the following requirements.

(A) "Residential" - Buildings used for habitation for occupancy shall be considered as residential buildings. No new water service connection to any premises shall be installed or allowed to be installed by the Water Association unless such service connection is protected by a backflow prevention assembly. Residential service connections shall be considered as low hazard applications and all such connections shall have at a minimum a dual check valve backflow preventer installed between the water meter and the residence. The Water Association may require additional or alternate

backflow prevention assemblies if the degree of hazard constitutes a higher level of protection for the public water system.

(B) "Non-Residential" – No new water service connection to any non-residential facility shall be installed or allowed to be installed by the Water Association unless such water service connection is protected by a backflow prevention assembly. The type of protection device required shall be determined at the time of installation of the service connection and shall be commensurate with the degree of hazard at the point of such service connection. At a minimum the service connection shall be installed with a dual check valve backflow preventer. In the event activities to occur within a non-residential facility change and creates a higher degree of hazard, then the backflow prevention assembly shall be replaced with an assembly which provides acceptable protection.

(C) "Inspections" – The customer's water system shall be open for inspection at all reasonable times to authorized representatives of the Water Association to determine whether cross connections or other structural or sanitary hazards, including violation of the resolution, exist. When such a condition becomes known, the Water Association may deny or immediately discontinue service to the premises by providing a physical break in the service line until the customer has corrected the condition in conformance with the State and local statues relating to plumbing, water supplies and the regulations adopted pursuant thereto. Water service to any premises shall be discontinued if it is found that a backflow prevention assembly required by this ordinance has been removed, bypassed, or if any unprotected cross connection exists on the premises. Service will not be restored until such conditions or defects are corrected.

(D) "Existing Service Connections" – All existing water service connections which do not have backflow prevention assemblies or existing water service connections which have less than the minimum required backflow prevention assemblies, shall, except for the inspection requirements, be excluded from the requirements of this resolution so long as the Water Association is assured that the public water system is satisfactorily protected. However, if the Water Association determines that a hazard to health exists, then a backflow prevention assembly meeting the requirements of this resolution may be installed on such existing service connection. Backflow prevention assemblies shall not be installed on existing service connections until after the property owner of such residential or commercial property has been informed of the actual an potential hazards that may be created as a

result of such backflow assembly installation. Notices provided to such property owners shall include the following language as adopted in 815 KAR 20:120 Section 2. item (6): When cross connection control devices are property installed, they create a closed water system. A properly sized thermal expansion tank shall be installed in the cold water supply located as near the water heater as possible.

SECTION 4. Severability. If any provision of this resolution is deemed by a court of competent jurisdiction to be unenforceable or unconstitutional or in conflict with applicable laws of the Commonwealth, the remaining provisions of this resolution shall continue in full force and effect.

HOW TO READ YOUR WATER METER

GALLONS _____

GALLONS

EXAMPLE

This reads-51,730
The painted (0) zero
the end is stationary
it does not move,
is included in the
reading.

Leak Detector

This triangle tells you
if you have a leak.

**HOW TO TELL IF YOU HAVE
A LEAK**

Make sure all your water is
turned off in your house.
Then go to your meter and check if
this TRIANGLE is moving. If it is moving then you have a leak somewhere
between the meter and your house.

BRONSTON WATER ASSOCIATION, INC.

Bronston, Kentucky 42518

Welcome to the Bronston Water Association. We're glad to have you as a customer.
Below you will find some information we hope will be helpful to you as a new
customer of our water system.

RATES: \$8.76 for the first 1500 gallons

Office Hours: 10:00 a.m. till 5:00 p.m. Monday, Thursday, Friday
2:00 p.m. till 8:00 p.m. Tuesday, Wednesday

Office Located on 165 Tucker Road, Bronston, KY 42518

SUGGESTIONS FOR SERVICE LINE FROM THE METER TO YOUR RESIDENCE OR BUSINESS

1. Service line shall be at least 24" depth. First 6" of backfill shall be
minus of rock.
2. 3/4" service line shall be at least 200 PSI.
3. Cut off valve shall be installed for your use in case of emergency. This
cut off shall be located behind the meter on the customer's side.
4. A check valve or an approved backflow prevention device shall be installed
to prevent backflow. This will prevent water heater element from burning
out in case of a leak or shut off on the District's line.
5. Copper or brass fittings shall be used when connecting to the meter or valve.

PURSUANT TO 807 KAR 5:011,
SECTION 9 (1)

BY: Chapman Hallee
PUBLIC SERVICE COMMISSION MANAGER

BRONSTON WATER ASSOCIATION, INC.

Bronston, Kentucky 42518

NAME: _____
ACCOUNT NUMBER: _____
ADDRESS: _____

1. Date repairs were made: _____
2. Who made the repairs: _____
3. List of materials: _____
4. Exact location of the leak: _____

_____ feet from the meter box.
_____ feet from the house.

5. Attach copy of statements or receipts of material used.

I understand that adjustments are figured by the difference between my average water bill and the bill that reflects the leak. The adjustment is then based on what my average water usage would have been and any water metered above that amount that leaked, will be charged to me at 1.85 per thousand which is the lowest rate approved by the Public Service Commission for Bronston Water. I further understand that even though an adjustment is to be considered, I am still responsible for the till and that if I should be disconnected for non-payment, the entire amount plus \$50.00 reconnect fee must be paid before service will be restored and any adjustment made will be credited to my account.

I also understand that only one leak adjustment will be permitted each 12 (twelve) months. If plastic pipe is used for any repair of underground water service lines, it must be no less than 160 PSI, either CTS or IPS pipe. The use of radiator clamps, king nipples, or the equivalent cannot be accepted. Use only regular plastic pipe clamps and these should be doubled.

I realize that no adjustment will be made until this form (completed in its entirety, signed and dated) and my statements are returned to Bronston Water Association. The district reserves the right to inspect your water system for verification.

I hereby verify that I have read the information given above and that all statements are true and correct, and that the excess usage in my plumbing system has now been corrected.

CUSTOMER BILL OF RIGHTS

As a customer of a regulated public utility in Kentucky, you are guaranteed the following rights subject to Kentucky Revised Statutes and the provisions of the Kentucky Public Service Commission Administrative Regulations:

1. You have the right to service, provided you (or a member of your household whose debt was accumulated at your address) are not indebted to the utility.
2. You have the right to inspect and review the utility's rates and tariffed operating procedures during the utility's normal office hours.
3. You have the right to be present at any routine utility inspection of your service conditions.
4. You must be provided a separate, distinct disconnect notice alerting you to a possible disconnection of your service if payment is not received.
5. You have the right to dispute the reasons for any announced termination of your service.
6. You have the right to negotiate a partial payment plan when your service is threatened by disconnection for non-payment.
7. You have the right to maintain your utility service for up to thirty days (30) upon presentation of a medical certificate issued by a health official.
8. You have the right to prompt (within 24 hours) restoration of your service when the cause for discontinuance of the service has been corrected.
9. You have the right to contact the Public Service Commission regarding any dispute that you have been unable to resolve with your utility. Call Toll Free 1/800/772-4636

WATER USER CONTRACT

This Water User Contract made and entered into by and between _____ of _____
Telephone: _____ (Check one: (1) _____ I own the property and will be
residing there, or (2) _____ I own the property but will be leasing it to another),
know to and referred to as Customers, and **BRONSTON WATER ASSOCIATION, INC.**,
P.O. Box 243, Bronston, KY, hereinafter known and referred to as Water Association.

WITNESSETH; The undersigned Customer does hereby agree to purchase water from the Association and to pay all initial installation and connection fees, together with all standard monthly water charges which may be fixed by the Board of Commissioners of the Bronston Water and/or Utility Regulatory Commission for the Commonwealth of Kentucky. The Customer agrees to pay each consecutive monthly payment, at all appropriate rates, for water service, when due, and to further comply with, and be bound by, the provisions of the policy and/or amendments of the Water Association together with such rules and regulations as may, from time to time, be adopted by the Water Association.

The Customer agrees to permit the Water Association to lay, maintain, repair, remove, and disconnect a service line and meter, and read such meter at a point on Customer's property to be designated by the Water Association for each meter, with the right of ingress and egress for these purposes over Customer's property, and further to grant a Water Line Easement to the Water Association for the construction and operation of said water line.

The Customer will install and maintain a shut off valve and pressure regulator valve at his own expense, which service line will begin at the water meter and extent to the dwelling or other portions of Customer's property. The Customer assumes responsibility for any damage to metering equipment in making such connection to the meter or water main.

The Customer agrees that the water meter may be located at any point along the Customer's property, at the closest point to the existing water line, or at some other point which is deemed to be most cost effective to the Water Association.

The Customer agrees that a single meter can serve no more than one residence or commercial unit unless approved by the Water Association.

The Water Association agrees to provide to the Customer, potable water at reasonable pressure and volume, provided, however, the Customer acknowledges that there is no obligation to provide such water service, unless a water main has been constructed and installed, adjacent to, or in proximity with, the property of the Customer and further no such service shall be required to be provided until the Contract is executed by the duly authorized officer of the Water District.

The Water Association acknowledges receipt of \$20.00 to be applied to the initial installation fee, which total fee will be established by the Board of Commissioners of the Water Association, Inc.

If Customer is the owner, but plans to rent the property, then Customer's signature hereto further acknowledges that Customer shall remain primarily obligated to pay for all charges and fees incurred with regard to the installation of the meter, provision of water, and any other fees or charges incidental to the connection, provision, disconnection, or any other goods or services or bills or fees for the **BRONSTON WATER ASSOCIATION, INC.** Notwithstanding the foregoing, an owner who leases or rents the property to another may have the rentor/lessee billed for any/all charges provided that the lessor/landlord identifies by name, address, social security number, and telephone number the lessee/tenant, and provides documentation to the **BRONSTON WATER ASSOCIATION** that the lessee/tenant has agreed to pay such charges and fees. Nevertheless, it is understood and agreed hereto that in the event the lessee/tenant does not pay the charges and fees incurred to the **BRONSTON WATER ASSOCIATION**, then, in that event, the Customer shall be liable for all unpaid fees and charges in regard to Customer's property, without prejudice to Customer's right to payment from Customer's tenant or lessee.

For new connections, it is understood and agreed that the USER will pay for service beginning on the date the meter setting is in place, regardless of whether the USER meter has been installed, whether the USER is connected to the system, or whether the USER is utilizing any water from the system. The amount charged will depend upon any usage, but at no time be less than the minimum bill for the USER's appropriate customer classification.
