RULES AND REGULATIONS

D. Deposits.

1. Deposits to secure payment. The utility may require a minimum cash deposit or other guaranty to secure payment of bills.
2. Equal Deposits. An equal deposit amount for each class of customers will be established based on the average annual bill of customers in that class. Deposit amounts will not exceed two-twelfths (2/12) of the average annual bill of customers in each class where bills are rendered monthly. Deposit amounts are listed in the Rates and Charges section of this tariff.
3. Recalculation of deposits. If the utility retains the deposit for more than eighteen (18) months, it will notify customers, at the customer's request; the deposit will be recalculated every eighteen- (18) months based on actual usage of the customer. The notice of deposit recalculation will be included either on the customer's application for service or on the receipt of deposit, or may be included annually with or on customer bills or via public posting in a newspaper in general circulation. The notice of deposit recalculation will state that if the deposit on account differs by more than ten (10) dollars for residential customers, or by more than ten (10) percent for nonresidential customers, from the deposit calculated on actual usage, then the utility will refund any over-collection and may collect any underpayment. Refunds will be made either by check or by credit to the customer's bill, except that the utility will not refund any excess deposit if the customer's bill is delinquent at the time of recalculation.
4. Waiver of Deposits. Deposits are required for all customers.
5. Additional deposit requirement. If a deposit has been waived or returned and the customer fails to maintain a satisfactory payment record, the utility may require that a deposit be made. The utility may require a deposit in addition to the initial deposit if the customer's classification of service changes or if there is a substantial change in usage.

RULES AND REGULATIONS

6. Receipt of deposit. The utility will issue a receipt to every customer that pays a deposit. The receipt will show the name of the customer, location of the service or customer account number, date, and amount of deposit. If the notice of recalculation described in this section is not included in the utility's application for service or mailed with customer bills, the receipt of deposit will contain the notification. If deposit amounts change, the utility will issue a new receipt of deposit to the customer.
7. Deposits as a condition of service. Service may be refused or discontinued if payment of requested deposits is not made.
8. Interest on deposits. Interest will accrue on all deposits at the rate prescribed by law beginning on the date of the deposit. Interest accrued will be refunded to the customer or credited to the customer's bill on an annual basis, except that the utility will not be required to refund or credit interest on deposits if the customer's bill is delinquent on the anniversary of the deposit date. Upon termination of service, the deposit, any principal amounts, and interest earned and owing will be credited to the final bill with any remainder refunded to the customer.
