CLASSIFICATION OF SERVICE

RATE
PER UNIT

B. Meter Rates to Multi-Unit Premises.

Water bills to all multi-unit premises, including deplexes, apartment buildings, trailer parks, mobile home parks, and premises containing both a permanent dwelling and a mobile home or trailer, having a single master meter, shall be computed by dividing the number of gallons of water registered by such master meter in each month by the number of units on such premises, and the bill for each unit shall be computed from the schedule set out in A, on original Sheet No. 12 hereof. The amount of the unit bill so computed shall then be multiplied by the number of units on the premises on the day the meter is read, to establish the total monthly bill for such premises. The minimum monthly bill to each multi-unit premise shall be \$8.25 multiplied by the number of units on the premise on the day the meter is read.
