RATES AND CHARGES

NONRECURRING CHARGES

Credit or Debit Card Fees

All customers may pay bills with cash, check or credit/debit cards. If, on the bill due date, an attempt to pay with a credit card or debit card is made and the card is declined for any reason, payment is still due in full on that date and will be considered late after that date. All late charges and penalties will be applied. If a customer is paying on the disconnect date and the card is denied, the same rules apply in addition to being disconnected.

When a customer makes a payment by credit card, the utility will assess a fee equal to that charged to the utility by the credit or debit card processing company to process the transaction. This fee is generally calculated using a formula applied to the balance of the amount charged to the debit or credit account, but may be a flat fee per transaction. Prior to processing the transaction, the customer will be informed of the fee amount and, upon request by the customer, the formula employed to arrive at the fee amount.

ACH and Bank Draft Fees

All customers may pay their bills by ACH or Bank Draft. The charge for using this method of payment will be the actual cost charged to the utility.

RULES AND REGULATIONS

The following are the rules and regulations of the Green River Valley Water District. The schedule of rates prescribed herein will be uniformly charged to all customers of the utility. No one will receive or be entitled to free service by the utility. No employee or individual commissioner of the utility is permitted to make an exception to these rates, rules, or regulations. These rules and regulations are subject to change by the utility at any time, subject to the approval of the Public Service Commission.

A. Not Applicable.

B. Special Rules or Requirements.

1. The utility cannot establish any special rule or requirement without first obtaining the approval of the Public Service Commission.
2. A customer that has complied with Public Service Commission rules and regulations cannot be denied service for failure to comply with the utility's rules that have not been approved by the Public Service Commission.
3. Each prospective customer desiring water service will be required to sign the utility's Water Service Contract before service is supplied by the utility.
4. No customer is allowed to resell water except under the terms of a special contract executed by the utility and approved by the Public Service Commission.

RULES AND REGULATIONS

C. Billings, Meter Readings, and Related Information.

1. Related Information.

- a) Payment must be received, not postmarked, before the close of business on the due date printed on the bill; otherwise, the delinquent bill will be assessed the late payment penalty approved and on-file with the Public Service Commission.

2. Multiple Users on One Meter.

- a) On all new connections a separate meter must be installed for each residence, apartment unit, mobile home, business and each family unit residing in a duplex or other multi-unit premise.
- b) For existing customers, where two or more residences, apartment units, mobile homes, businesses, or family units residing in a duplex or other multi-unit premise are served by a single water meter, the water bill for each occupant, tenant, business, or family unit will be computed as follows:
1. The customer whose name the meter is in will be billed for the actual water registered by that meter;
 2. All other customers shall pay the minimum bill.

Rules and Regulations

DEPOSITS:

1. The utility will require a minimum cash deposit or other guarantee to secure payment of bills.
2. Service may be refused or discontinued if payment of requested deposits is not made.
3. An equal deposit amount for each class of customers will be established based on the average annual bill of customers in that class. Deposit amounts will not exceed two-twelfths (2/12) of the average annual bill of customers in each class where bills are rendered monthly. Deposit amounts are listed in the Rates and Charges section of this tariff.
4. Interest will accrue on all deposits at the rate prescribed by law beginning on the date of the deposit. Interest accrued will be refunded to the customer or credited to the customer's bill on an annual basis. In situations where a customer leaves the system with less than one year's service, since beginning service or since the customer's last interest payment date, interest will be refunded or credited to the customer on a prorated basis.
5. Deposits will be refunded to customers after 12 months if the customer has established a satisfactory payment history or upon termination of service.

RULES AND REGULATIONS

E. Special Non-recurring Charges:

1. The utility will collect for special nonrecurring charges to recover customer-specific costs incurred which would otherwise result in monetary loss to the utility or increased rates to other customers to whom no benefits accrue from the service provided or action taken. The utility may establish or change any special nonrecurring charge by applying for Public Service Commission approval of such charge in accordance with the provisions of 807 KAR 5:011, Section 10.
2. Special nonrecurring charges will be applied uniformly throughout the area served by the utility. Such charges will relate directly to the service performed or action taken and only yield enough revenue to pay the expenses incurred in rendering the service.
3. The utility will assess a charge for the following non-recurring services:
 - a) Connection/Turn-on Charge: Will be assessed for new service turn-ons, seasonal turn-ons, temporary service, or transfer of service. The charge will not be made for initial installation of service where a meter connection/tap-on charge is applicable.
 - b) Late Payment Penalty: Will be assessed on the delinquent amount of the bill, less taxes.
 - c) Meter Relocation Charge: Will be assessed when a customer or other authorized person requests that a meter be relocated, changed, or modified. Those requesting a change must reimburse the utility for the actual costs incurred, including but not limited to appropriate legal, administrative, engineering, overhead, or other related costs.

RULES AND REGULATIONS

- d) Meter Re-read Charge: Will be assessed when a customer requests the utility to re-read the customer's meter and the re-read proves that the original meter reading was correct.
- e) Meter Test Charge: Will be assessed when a customer requests the utility perform a test on the customer's meter to check for accuracy, and the test shows the customer's meter is not more than two percent (2%) fast.
- f) Reconnection Charge: Will be assessed to reconnect service that has been terminated for non-payment of service or for violation of Utility or Public Service Commission rules and regulations, and will include the cost of the service trip for both the disconnection and the reconnection.
- g) Returned Check Charge: Will be assessed when a customer's check is returned, either due to insufficient funds or other reason due to customer fault.
- h) Service Call/Investigation Charge: Will be assessed when a customer requests the onsite presence of utility personnel to investigate a service problem and the problem is a result of the customer's own plumbing facilities, beyond the utility's delivery point, or not caused by failure of utility facilities. Any maintenance and repair of facilities beyond the utility's delivery point is the responsibility of the customer.
- i) Service Line Inspection Charge: Will be assessed to inspect a customer's service line from the point of delivery at the meter service to the point of usage. The service line inspection charge will be waived if confirmation is received from the Kentucky State Plumbing Inspector that a state plumbing permit has been obtained and the State Plumbing Inspector will inspect the service line.

RULES AND REGULATIONS

F. Not Applicable.

G. Bill Adjustments. Whenever a meter in service is found upon periodic request or complaint to test more than two percent (2%) fast, additional tests shall be made at once to determine the average error of the meter. Said tests shall be made in accordance with the Public Service Commission's Regulations applicable to the type of meter involved. Adjustments on the Customer's bill will then be made in accordance with the applicable rules and regulations of the Public Service Commission of Kentucky.

H. Not Applicable.

I. Not Applicable.

J. Not Applicable.

K. Refusal or Termination of Service.

1. The utility may refuse service to a customer under the following conditions:

- a) For noncompliance with utility or Public Service Commission rules and regulations. The utility cannot refuse service to any customer for noncompliance without first having made a reasonable effort to obtain customer compliance. After such effort by the utility, service may be refused only after the customer has been given a written notice of refusal stating the reasons for refusal of service.
- b) For dangerous conditions. If a dangerous condition exists which could subject any person to imminent harm or result in substantial damage to the property of the utility or others is found to exist on the customer's premises, then service will be refused. The utility will notify the customer in writing and, if possible, orally for the reasons

RULES AND REGULATIONS

for refusal of service. Such notice will be recorded by the utility and will include the corrective action to be taken by the customer before service can be provided.

- c) For refusal of access. When a customer refuses or neglects to provide reasonable access to the premises for installation, operation, meter reading, maintenance or removal of utility property, the utility may refuse service. The utility will notify the customer in writing and, if possible, orally for the reasons for refusal of service. Such notice will be recorded by the utility and will include the corrective action to be taken by the customer before service can be provided.
- d) For outstanding indebtedness. The utility will not furnish new service to any customer who is indebted to the utility until that customer has repaid the indebtedness.
- e) For noncompliance with state, local, or other codes. The utility may refuse service to a customer if the customer does not comply with state, municipal or other codes, rules, and/or administrative regulations applying to such service. The utility will notify the customer in writing and, if possible, orally for the reasons for refusal of service. Such notice will be recorded by the utility and will include the corrective action to be taken by the customer before service can be provided.

2. Utility Initiated Termination of Service.

- a) The utility may terminate service to a customer if the following conditions exist without an advance termination notice. Within twenty-four (24) hours after such termination, the utility shall send written notification to the customer of the reason(s) for termination upon which the utility relies, and of the customer's right to challenge the termination by filing a formal complaint with the Public Service Commission. The utility will not restore service until the customer agrees to comply with all rules and regulations of the utility and Public Service Commission.

SHEET NO. _____

RULES AND REGULATIONS

- 1) For illegal use or theft of service. The utility may terminate service to a customer without advance notice if it has evidence that a customer has obtained unauthorized service by illegal use or theft. This right of termination is separate from and in addition to any other legal remedies that the utility may pursue for illegal use or theft of service.
- 2) For dangerous conditions. If a dangerous condition relating to the utility's service which could subject any person to imminent harm or result in substantial damage to the property of the utility or others is found to exist on the customer's premises, then service will be terminated immediately. Upon termination the utility will leave notification at the customer's dwelling and, if possible, orally contact the customer to inform him/her of the reasons for the termination. Such notice will be recorded by the utility and will include the corrective action to be taken by the customer or utility before service can be restored.
- 3) Misrepresentation. Any misrepresentation in the application or contract as to the property or fixtures to be supplied or additional use to be made of water will constitute grounds for termination of service, and the customer shall be liable for any damage to any of the utility's facilities or equipment.
- 4) Failure to Report Changes. Failure to notify the utility of additions to the property or fixtures to be supplied or additional use to be made of water will constitute grounds for termination of service.
- 5) Resale of Water. Under no circumstances will a customer be allowed to resell or give away water except under the terms of a special contract executed by the utility and approved by the Public Service Commission. Failure to comply with this rule will constitute grounds for termination of service.

- 6) Waste or Misuse. Waste or misuse of water due to improper or imperfect service pipes and/or failure to keep said pipes in suitable state of repair will constitute grounds for termination of service.
- 7) Tampering with meter, meter seal, service, valves, or other system facilities, or permitting such tampering by others will constitute grounds for termination of service.
- 8) Connections, cross-connections, or permitting the same, of any separate water supply to premises that receive water from the utility will constitute grounds for termination of service.

L. Not Applicable.

M. Not Applicable.

N. Customer Requested Meter Tests.

1. The utility will make a test of any meter upon written request of any customer if the request is not made more frequently than once every twelve- (12) months. The customer shall be given the opportunity to be present at the requested test. If the test shows that the meter was not more than two (2) percent fast, the utility will make a reasonable charge for the test, the amount being approved by the Public Service Commission and set out in the utility's tariff.

U. Pressures

1. Any applicant for water service that meets all conditions of service set forth in the District's filed rate schedules shall be permitted to connect to the District's water distribution system so long as the District is able to provide water service at a pressure of at least 30 psig at the point of connection of the customer's service line and the District's facilities ("the customer's meter").
2. If the District is unable to provide water service to an applicant for service at a pressure of at least 30 psig at the customer's meter but can do so if an individual pump is installed on the customer's side of the point of connection, the District shall at its own expense install such a pump and shall be responsible for the pump's maintenance and repair. If an installed pump fails and such failure is not the result of the customer's negligence or willful misconduct, the District shall at its own expense replace the failed pump and shall be responsible for the replacement pump's maintenance and repair.
3. If the District is unable to continue providing water service to an existing customer at a pressure of at least 30 psig at the meter but can do so if an individual pump is installed on the customer's side of the point of connection, it shall at its own expense install such a pump and shall be responsible for the pump's maintenance and repair. If an installed pump fails and such failure is not the result of the customer's negligence or willful misconduct, the District shall at its own expense replace the failed pump and shall be responsible for the replacement pump's maintenance and repair

- 4. If the District is unable to provide to an applicant for service water service at a pressure of at least 30 psig at the customer’s meter with the installation of an individual pump, its General Manager and Consulting Engineer shall determine whether the requested extension of service to the applicant is reasonable and report their findings to the District’s Board of Commissioners. These findings shall include a description of the actions necessary to increase water pressure at the customer’s meter and the cost to undertake those actions.

V. Service Lines and Connections

- 1. Private Water Lines. Any private party or entity within the District which desires to provide themselves with water of the District at their expense shall be required to enter into a written agreement with the District and any other person on the proposed water line which sets forth the agreed terms for the installation of a private water line. The agreement shall provide that the parties shall agree upon the costs of the construction and installation and shall agree to a execute a written deed of easement to the District and in the event another private party or entity requests to connect to the existing private water line, the District shall collect the agreed tap fee and the new party or entity shall pay a pro-rata fee of the original cost of construction to the other parties. The District shall have the right to extend the private water line at any time at the cost of the District without having to pay a fee to any party to the agreement

RULES AND REGULATIONS

W. Leak Adjustments. A customer may make a request for a bill adjustment in the event of a leak under the following conditions:

1. The customer must request a leak adjustment by phone, in person or in writing to the utility.
2. The customer's bill will be based on two components. The first step will be to calculate the customer's average monthly usage over a twelve-month period. The second step will be to deduct the customer's average monthly usage (as calculated in the above) from the total amount of water that passed through the meter. The usage calculated in step one will be billed at the utility's regular rates, while the remaining usage will be charged at the per thousand gallon leak adjustment rate, as set forth in the rates and charges portion of the utility's approved tariff. All water passing through the meter must be accounted and paid for by the customer. So the customer will owe the amount of his/her average bill plus the per thousand gallon leak adjustment rate for the remainder of the water that passed through the meter.
3. If meter readings are not available for an entire twelve-month period, the water bill will be estimated by the utility, based on the average bill of the District for same size household.
4. Only one (1) leak adjustment will be made per twelve-month period.

X. Ownership of Mains, Services, and Appurtenances:

1. All mains, fire hydrants, valves, crossings, and other appurtenances are and shall remain the property of the utility, whether installed by the utility or the customer.
2. All service lines from the main to the meter with appurtenances are and shall remain the property of the utility, whether installed by the utility or the customer.
3. The customer shall install, own, and maintain his/her service line from the meter (or point of delivery) to the point of usage.

RULES AND REGULATIONS

- Y. Notification of System Problems. The customer shall notify the utility immediately should the service be unsatisfactory for any reason, or should there be any defects, problems, trouble, or accidents affecting the water system.
- Z. Legal Disclaimers.
1. The utility shall in no event be held responsible for any claims made against it for reasons of system failure or interruption of service. No persons shall be entitled to damages nor for any portion of a payment refunded for any system failure or interruption of service which in the opinion of the utility is deemed necessary.
 2. No person shall maliciously, willfully, or negligently break, damage, destroy, uncover, deface, or tamper with any structure appurtenance or equipment which is a part of the utility's water system. Any person violating this provision will be subject to immediate arrest and/or discontinuance of water service and shall pay the cost of repairing or replacing the utility's facilities.
 3. If any loss or damage to the property of the utility or any accident or other injury to persons or property is caused by or results from the negligence or wrongful action of a customer, members of his/her household, his/her agent or employee, the cost of necessary repairs or replacements shall be paid by the customer of the utility and any liability otherwise resulting shall be that of the customer.
 4. For purposes of fire protection, including any customer's fire protection system, the utility cannot guarantee a water supply at any particular flow rate or pressure. The fire flow may vary depending upon other water demands on the system, various water facility limitations, or other circumstances. The customer will indemnify and hold harmless the utility and its employees from and against all claims, damages, losses, and expenses incurred as a result of insufficient water supply or deficient system facilities. The District shall not be responsible for any damage caused to its water lines by a fire truck or any fire department.

RULES & REGS

FIRE DEPARTMENTS:

Any city, county, urban-county, charter county, fire protection district, or volunteer fire protection district ("User") may withdraw water from the utility's water distribution system for the purpose of fighting fires or training firefighters at no charge on the condition that it maintains estimates of the amount of water used for fire protection and training during the calendar month and reports the amount of this water usage to the utility no later than the 15th day of the following calendar month.

Any city, county, urban-county, charter county, fire protection district, or volunteer fire protection district that withdraws water from the utility's water distribution system for fire protection or training purposes and fails to submit the required report on water usage in a timely manner shall be assessed the cost of this water.

A non-reporting user's usage shall be presumed to 0.3 percent of the utility's total water sales for the calendar month. A non-reporting user may present evidence of its actual usage to rebut the presumed usage. The utility shall consider this evidence and may adjust the presumed usage amount accordingly.

The non-reporting user shall be billed for this usage at the lowest usage block rate regardless of customer classification that the utility charges.

A non-reporting user shall also be assessed a penalty of \$ 200.00 for each failure to submit a report in a timely manner.

November 18,
2010.

AA. ~~Fire Departments. For the purpose of off-setting fifty percent or more of its operation expenses, any fire department not receiving public funds from the Commonwealth of Kentucky, or any political subdivision thereof, may withdraw water from the utility's facilities at no charge, for the extinguishing of fires or the training of firemen. A fire department making such withdrawals shall provide an estimate of its withdrawals to the utility at the end of each month.~~

AB. Fire Hydrants:

1. The District will only install fire hydrants on six inch (6") lines or larger lines. Water hydrants installed on four inch (4") lines or smaller lines will be for flushing purposes only and shall not be used as a fire hydrant. The District is not in the fire protection business.

AC. Not Applicable.

AD. Not Applicable.

AE. Water Main Extensions.

1. Normal extension. An extension of fifty (50) feet or less shall be made by a utility to its existing distribution main without charge for a prospective customer who shall apply for and contract to use service for one (1) year or more.

AF. Not Applicable.
