Henderson County Water District

*Geo Frey*  
George E. Frey  
Superintendent

HENDERSON COUNTY WATER DISTRICT

RULES AND REGULATIONS

SECTION 1. WATER CONNECTION CHARGES

Water connection charges are hereby established and shall be exacted for each connection with the waterworks system of the District, based on the respective dates on which application is filed and on the respective sizes of meter connection, as follows:

- A. For all customers who shall apply for a 3/4" water connection and who shall tender to the District the applicable connection charge, the connection charge is \$180.00
- B. For a 2" water connection, the connection charge is \$600.00

SECTION 2. MINIMUM USAGE OF WATER; DISCONNECTION PRIOR TO SUCH MINIMUM USAGE.

Each customer by signing an application for water service, agrees to pay to the District a total of \$180.00 in water connection charges and in monthly water charges. If, after having such water service made available to a customer, such customer fails to connect and actually purchase water and/or if, after making such connection, such customer disconnects such water service prior to the time that such customer will have paid to the District a total of at least \$180.00 in monthly water charges, then reconnection (or original connection) of water service to such customer shall not be made by the District unless such customer pays all charges and penalties owed, plus a disconnection charge in an amount equal to the difference between \$180.00 and the total amount paid by such customer to the District in monthly water charges.

SECTION 3. RIGHTS ON PAYMENT OF WATER CONNECTION CHARGES.

Water connections shall be brought to a point inside the property line or easement of the owners of any premises (residential, commercial or industrial) abutting upon any street, road, alley, public way or easement in which a water line is constructed by the District within 100 feet of the property line or easement of such owner. Such lines shall be considered available to any premises as to which the boundary line or easement is located within 100 feet of such water line.

Any and all property owners to whom such lines are so available shall be entitled to a water connection upon timely payment of the prescribed water connection charge as set out above, except the cost of boring a street or road will be in addition to the connection fee.

Any and all owners of properties where the property line or easement is located more than 100 feet from a water line shall be entitled to the same privilege by paying the additional cost of bringing a water line the additional distance, in excess of 100 feet, to his property line or easement.

Sheet No.

HENDERSON COUNTY WATER DISTRICT

**RULES AND REGULATIONS**

For said connection charge, the property owner will receive the following material and equipment fully installed:

(a) A tap at the water main.

(b) A sufficient amount of tubing to extend from the water main to the point at least six inches inside the utility easement or sidewalk line of the property owner if there is a sidewalk; otherwise to a point at least two feet inside the property line or utility easement of the property owner if there is no sidewalk.

(c) A complete meter installation to be installed at the point of ending of the tubing, which meter installation will consist of a meter, yoke, or other setting used by the District, plus a meter, a meter box and a meter box cover.

Such property owner, if he desires water service, must bear the cost (including replacement of any pavement which may be disturbed on his premises during the construction) of running a water line from the building located on his premises to the point in his property line or easement where the District has brought the line.

The payment of a connection charge is a tap-in or service charge for the privilege of connecting to the waterworks system of the Water District and the payment of such connection charge does not constitute the purchase of a water meter. Title to the water meter serving each water customer shall at all times remain vested in the Water District, and if not used by the customer, may be removed by the District as needed.

**COSTS OF INSTALLATION AND INDEMNIFICATION**

All costs, expenses, maintenance, and responsibility incident to installation, connection and use of water lines from the outlet side of the respective water meters to such respective premises where such respective water lines are brought to serve such premises and extending to the respective buildings on such premises, shall be borne by the respective property owners, who shall further indemnify the District from any loss or damage that may directly or indirectly be occasioned by the installation of such lines. All water connections shall be made under the supervision of the Superintendent of said waterworks system in accordance with the rules and regulations of the Kentucky Department of Health.

comply with such covenants and agreements as may be made by the District in connection with the Revenue Bond Issue.

**BILLING; COLLECTION; PENALTIES.**

The rates or charges aforesaid shall be billed monthly on or about the first of each month, and all bills for such service shall be considered due and payable 15 days after rendition. If a bill is not paid as aforesaid within such 15 day period, the bill shall be deemed delinquent, and there shall be imposed a penalty on each bill not so paid, in an amount equal to ten percent (10%) of the charges (other than sales tax) shown on the face amount of said bill not so paid.

**DELINQUENCY; DISCONNECTION OF WATER SERVICE; RECONNECTION**

If a bill is not paid after remaining delinquent for 10 days, the Superintendent of the waterworks system shall thereupon turn off the water of such user according to the current practices existing at the time of the turn-off for water delinquents and may further enjoin use of the water facilities of the District at said location until payment in full is made. If the last day of such 10 day period falls on a Sunday or legal holiday, such deadline shall not expire until the next secular day thereafter.

If such water service is cut off by the District, reconnection of such service shall not be made until the owner or user pays all charges and penalties owed plus the amount of Five Dollars (\$5.00) as a disconnection and reconnection charge.

**AN ADVANCE PAYMENT IS NO EXCUSE FOR DELINQUENCY**

The foregoing provisions are intended to and shall apply regardless of the availability of any initial payment required.

RECORDS AND AUDITS

The rates, rentals and charges for the use of and services rendered by the District waterworks system shall be billed and collected by the District, and the full amount of the proceeds for such service shall be deposited as received and set aside into the appropriate fund as the Superintendent of the system may designate, but subject to any different designation which may be made in any proceeding relating to the issuance of Revenue Bonds. The records of the District with respect to charging, billing, collecting and accounting for water service shall be audited at least once each twelve months by an Independent Certified Public Accountant, and a report thereof shall be filed with the Secretary of the District, or shall be filed in such a manner and at such other time or times as may be provided in any Resolution or proceeding of the District relating to the issuance of Revenue Bonds. The cost of such audit shall be classified and paid as an expense of operation and maintenance of the District Waterworks System.
