RULES AND REGULATIONS

The following are the rules and regulations of the Jackson County Water Association. These rules and regulations are subject to change by the Water Association at any time subject to the approval of the Public Service Commission.

- A. The schedule of rates prescribed herein shall be uniformly charged to all customers of the utility. No one shall receive or be entitled to free service by the utility.
- B. Complaints may be made to the manager of the utility, which shall have 30 days to issue a decision. Customers have the right to appeal that decision to the Public Service Commission in accordance with its rules and regulations.
- C. The Association will use reasonable diligence in supplying water service and shall make every effort to notify affected customers in the event of a service interruption and approximate time of service restoration.
- D. The service connection supplied by the Association for each customer has a definite capacity and no addition to the equipment or load connected thereto will be allowed except by consent of the Association. Failure to give notice of additions or changes in load and to obtain the Association's consent of the same, may render the customer liable for damage to any of the Association's lines or equipment caused by the additional or changed installation as determined by a court of law having jurisdiction over the parties.
- E. No customer shall resell water except under the terms of a special contract executed by the utility.
- F. All taps and connections to the mains of the utility shall be made by and/or under the direction and supervision of utility personnel and shall incur a meter connection/tap-on charge. Payment of said fee is for the privilege of connecting to the water system of the utility and the payment of such fee does not constitute the purchase of a water meter.

RULES AND REGULATIONS

- G. After the mains have been installed, tested, and chlorinated to the satisfaction of the Kentucky Department of Health, the utility shall then be responsible for furnishing potable water to the extension and for maintenance of the lines including meters, meter boxes, and service lines from the main to the meter.
- H. The customer shall be financially responsible for the installation and maintenance of his/her service line plumbing, including a shut-off valve, installed on his/her property beginning at the outlet side of the water meter. The installation and maintenance of the water service line shall be in accordance with the rules and regulations of the Kentucky Department of Health. The customer may, at his/her own expense, install a back-flow preventer and/or pressure regulator.
- I. Under no circumstances shall a single meter serve more than one permanent residential dwelling on undivided property, nor shall one meter serve multiple residential dwellings located on divided property.
- J. A permanent single-family residential dwelling, including any agricultural/barn usage, along with one non-permanent residential dwelling may be supplied from the same water meter under the following circumstances:
  - 1. Written notification is given to the utility upon connection of the additional residential dwelling.
  - 2. The customer agrees to a method of billing whereby one bill is sent to the main residence consisting of a charge for two minimum bills, with the remaining water consumption divided in half and charged in accordance with the approved rate schedule.
  - 3. The customer is responsible for payment of all water passing through his/her meter, regardless of which residential dwelling is responsible for the water consumption.
- K. A multi-family dwelling shall be defined as a permanent-structure housing two or more units that produce rental revenue. This includes duplexes, triplexes, and apartment buildings.

RULES AND REGULATIONS

Where multiple apartment buildings under separate roofs are built on the same lot, each building must have a minimum of one water meter. At the discretion of the property owner, subject to proper payment of meter connection/tap-on charges, each individual apartment unit within a building may have separate meters.

- L. Where a commercial, industrial, or any other business entity involves more than one structure on a single lot, and all structures are operated as one entity under one entity name, a request can be made by the property owner that a single meter be used to serve the entire entity. Otherwise, each commercial, industrial, or any other business entity excluding residential and apartment complexes must have a separate meter. Should such property cease to be operated as one entity under one name, it will be required that separate water meters and service lines be installed and paid for by the respective property owner.

RULES AND REGULATIONS

M. The utility may require a minimum cash deposit not to exceed 2/12ths of the customers actual or estimated bill, or other guaranty to secure payment of bills as set forth in 807 KAR 5:006 Section 7. Service may be refused or discontinued for failure to pay the required deposit.

Each time an individual has a water service in their name they are charged a deposit for each service. After a period of six months has passed, from the date the deposit was paid, the deposit is refundable, provided there are no delinquent accounts in the individual's name. This excludes the current bill. If an individual moves before the six months have elapsed, their deposit is refunded upon receipt of payment of the final bill. The amount of the deposit is an average of three months water bills; therefore, the amount of deposit may vary depending on meter size.

Interest, as prescribed by KRS 278.460, will be paid annually either by refund or credit to the customer's bill, except that no refund or credit will be made if the customer's bill is delinquent on the anniversary date of the deposit.

The Association will issue to every customer from whom a deposit is received, a certificate of deposit, showing the name of the customer, location of premises occupied and the date and amount of the deposit.

N. Bills and notices relating to the conduct of the business of the utility will be mailed to the customer at the address listed on the user's agreement unless a change of address has been filed with the utility in writing. The utility shall not otherwise be responsible for delivery of any bill or notice nor will the customer be excused from the payment of any bill or any performance required in said notice.

O. The utility shall abide by the following Billing, Collection and Penalty policies:

1. Water service will be billed monthly on or about the last day of each month.
2. Meter will be read monthly between the 1<sup>st</sup> and the 25<sup>th</sup> of each month.
3. Bills are due by the 10<sup>th</sup> of the month and are payable either by mail or at the Jackson County Water Association Office.
4. Payments must be received, not postmarked, before the close of business on the 10<sup>th</sup> day following issuance of the bill; otherwise, the delinquent bill will be assessed the late payment penalty approved and on file with the Public Service Commission.
5. The late payment penalty will be assessed on the delinquent amount of the bill, less any taxes.
6. Complaints may be made to the operator of the system and may be appealed to the Board of Directors and the Public Service Commission.

P. The utility shall assess a charge for the following non-recurring services.

1. Connective/turn-on Charges: Shall be assessed for new service turn-ons, seasonal turn-ons, temporary service. The charge will not be made for initial installation of service where a meter connection/tap-on Charge is applicable.

2. Delinquent Account Disconnect: Shall be assessed if service is disconnected for nonpayment of bills.
3. Field Collection Charge: Shall be assessed when a utility representative visits the premises of the service connection to terminate service, and the customer is on-site and pays the bill to avoid termination of service.
4. Late Payment Penalty: Shall be assessed on the delinquent amount of the bill, less taxes, in accordance with 807 KAR 5:006, Section 8 (3) (h).
5. Meter Relocation Charge: Shall be assessed when a customer or other authorized person requests that a meter be relocated, changed, or modified. Those requesting said change shall reimburse the utility at actual costs, including but not limited to appropriate legal, administrative, engineering, overhead, or other related costs.
6. Meter Re-read Charge: Shall be assessed when a customer requests the utility to re-read the customer's meter and the re-read proves that the original meter reading was correct.
7. Meter Test Charge: Shall be assessed when a customer requests the utility perform a test on the customer's meter to check for accuracy, and the test shows the customer's meter is not more than two percent (2%) fast.
8. Reconnection Charge: Shall be assessed to reconnect service that has been terminated for non-payment of service or for violation of Utility or Public Service Commission rules and regulations. An after hours reconnection charge will be assessed if service is reconnected at the customers request after normal working hours.
9. Returned Check Charge: Shall be assessed when a customer's check is returned, either due to insufficient funds or other reason due to customer fault.

RULES AND REGULATIONS

Q. In accordance with 807 KAR 5:006 Section 14, water service may be discontinued by the Utility for the violation of any rule, regulation, or condition of service, including, but not limited to the following prohibited acts:

1. Misrepresentation in the application or contract as to the property or fixtures to be supplied or additional use to be made of water.
2. Failure to report to the Utility additions to the property or fixtures to be supplied or additional use to be made of water.
3. Resale of water.
4. Waste or misuse of water due to improper or imperfect service pipes and/or failure to keep said pipes in suitable state of repair.
5. Tampering with meter, meter seal, service, or valves, or permitting such tampering by others.
6. Connections, cross-connections, or permitting the same, of any separate water supply to premises which receive water from the Utility.
7. Non-payment of bills.

R. Any customer desiring to discontinue water service to the premises for any reason must give notice of discontinuance in person or in writing at the business office of the utility at least three (3) business days prior to the date on which the customer desires to discontinue service. If such proper notice is given to the utility, the customer shall not be liable for any water consumed beyond the date of discontinuance stated in said notification. Failure to provide a proper notification will result in the customer or property owner being liable for all water used and service rendered by the utility until such proper notice is received by the utility.

RULES AND REGULATIONS

- S. Upon written request of any customer, the meter serving said customer will be tested by the utility.
1. The utility may refuse to perform the test if said meter was tested within the prior twelve (12) months at the request of the customer.
  2. If the test results show that the meter is registering less than two percent (2%) fast, then the customer will be assessed the meter test charge approved and on-file with the Public Service Commission.
  3. If the test results show that the meter is registering more than two percent (2%) fast, then adjustments to the customer's account shall be made in accordance with the regulations of the Public Service Commission pursuant to 807 KAR 5:066 Section 9(c).
- T. When a meter has ceased to register, or a meter reading can not be obtained, the quantity of water to be billed will be based upon an average of twelve-months' consumption. If said meter readings are not available for an entire twelve-month period, the water bill will be estimated by the utility, subject to an upward or downward adjustment once a twelve-month average of actual meter readings can be calculated. If the period in which the meter error existed is unknown, then the bill will be recomputed for one half of the elapsed time since the last previous test but in no case to exceed twelve months. When a meter is tested and it is found necessary to make a refund or back bill a customer, the customer shall be given written notification of the date, location, and results of the test, as well as the amount to be deducted from or added to his regular bill.
- U. Any customer having boilers and/or pressure vessels that receive water from the utility must have a check valve on the water supply line and a vacuum valve on the steam line in order to prevent a collapse were the water supply from the utility be discontinued or interrupted.
- V. The service lines, meters, and fixtures located on a customer's premises shall at all reasonable hours be subject to inspection by the utility should the utility have reason to believe that unauthorized use of water is occurring.

RULES AND REGULATIONS

---

- W. Piping on the premises of a customer must be so installed that connections are conveniently located with respect to the utility's lines and mains. The customer shall provide a place for metering which is unobstructed and accessible at all times.
- X. A prospective customer who requests service is required to sign the Association's standard water service contact before service is supplied. No service will be installed unless there is a main distribution line existing along the road from which service is required. The Association will install a water service line up to 50 feet in length, if that will reach prospective customer's property line. The Association will install an additional 50-feet in order to reach prospective customer's property line for a charge of \$1.00 per feet. If 100 feet does not reach prospective customer's property line the service will be installed on the road rights of way, or on someone else's property provided they will sign an easement allowing prospective customer's service to be installed on their property.
- Y. The Association will have the right to open ditch inspection of the customer's service line. The purpose of the inspection is to make sure the customer has a service line consisting of PVC pipe with a rating of not less than 160 PSI, a shut down valve, a check valve, and depth at least 30 inches. The size of the service line beyond the point of delivery should not be less than 3/4 inches, however a larger size may be needed to provide adequate service. If the customers point of use is at a higher elevation than the point of delivery, the customer should consult with a reputable engineering firm to size the service line from the point of delivery.

RULES AND REGULATIONS

---

Z. All customers shall grant or convey or shall cause to be granted or conveyed to the utility a perpetual easement and rights of way across any property owned or controlled by the customer wherever said easement or rights of way is necessary for the utility's water facilities and lines so as to be able to furnish service to the customer. The Association's duly authorized representative and or employee of State Health Department bearing proper credentials and identification shall be permitted to enter upon all properties for the purpose of inspection, observation, measurement, sampling and testing in accordance with these rules and regulations. The customer must agree to maintain the area around the meter in a manner the will make it easily accessible to the Association.

AA. If any loss or damage to the property of the utility or any accident or other injury to persons or property is caused by or results from the negligence or wrongful action of a customer. Members of his/her household, his/her agent or employee, the cost of necessary repairs or replacements shall be paid by the customer to the utility and any liability otherwise resulting shall be that of the customer.

BB. The utility shall in no event be held responsible for any claims made against it for reasons of system failure or interruption of service. No persons shall be entitled to damages non-for any portion of a payment refunded for any system failure or interruption of service, which in the opinion of the utility is deemed necessary.

RULES AND REGULATIONS

Cancelled  
7/8/2011.

CC. ~~For the purpose of off-setting fifty percent or more of its operation expenses, any fire department not receiving public funds from the Commonwealth of Kentucky, or any political subdivision thereof, may withdraw water from the utility's facilities at no charge, for the extinguishing of fires or the training of firemen. A fire department making such withdrawals shall provide an estimate of its withdrawals to the utility at the end of each month.~~

DD. For the purposes of fire protection, including any customer's fire protection system, the utility cannot guarantee a water supply at any particular flow rate or pressure. The fire flow may vary depending upon other water demands on the system, various water facility limitations, or other circumstances. The customer will indemnify and hold harmless the utility and its employees from and against all claims, damages, losses, and expenses incurred as a result of insufficient water supply or deficient system facilities. Additionally, hydrants are to be used by the Association and the fire departments only. Fire departments may not use pumps to pull water from the hydrants and the use of hydrants is strictly limited to authorized periodic drill purposes and emergency fire fighting use.

EE. In accordance with 807 KAR 5:066 Section 10 (2) (b), a new fire hydrant will not be installed by the utility unless:

1. A professional engineer with a Kentucky registration has certified that the system can provide a minimum fire flow of 250 gallons per minute, and
2. The system supporting this flow has the capability of providing this flow for a period of not less than two (2) hours plus consumption at the maximum daily rate.

RULES AND REGULATIONS

Water Extension Policy: The Association will determine the total cost of the proposed water main extension (exclusive of the meter connection), and the total length of the extension. The Association will pay that portion of the cost of the water main extension equal to fifty feet for each applicant for service. That part of the cost not covered by the Association's portion shall be contributed equally by those applicants desiring service on the main extension. Each applicant will also be required to pay the Association's approved "tap on fee" for a meter connection to the main extension.

For a period of five years, after the original construction of the main extension, each additional customer directly connected to each particular extension, will be required to contribute to the cost of that main extension, based on a recalculation of both, the Association's portion of the total cost and each customer's contribution, as set out above. The Association will refund, to those customers that have previously contributed to the cost of each main extension itself, that amount necessary to reduce their contribution to the currently calculated amount for each customer connected to that extension. All customers, directly connected to each main extension for a five year period after it is placed in service, are to contribute equally to the cost of construction of the water main extension itself. In addition, each customer must pay the approved tap on fee applicable at the time of their application for the meter connection. The tap on fee is not part of the refundable cost of the extension, and may be changed during the refund period. After the five year refund period expires, any additional customer applying for service on each main extension, will be connected for the amount of the approved tap on fee only. Also after the five year refund period expires, the Association will be required to make refunds for an additional five years period in accordance with 807 KAR 5:066, Section 12(b).

RULES & REGULATIONS

**FIRE DEPARTMENTS:**

Any city, county, urban-county, charter county, fire protection district, or volunteer fire protection district ("User") may withdraw water from the utility's water distribution system for the purpose of fighting fires or training firefighters at no charge on the condition that it maintains estimates of the amount of water used for fire protection and training during the calendar month and reports the amount of this water usage to the utility no later than the 15<sup>th</sup> day of the following calendar month.

Any city, county, urban-county, charter county, fire protection district, or volunteer fire protection district that withdraws water from the utility's water distribution system for fire protection or training purposes and fails to submit the required report on water usage in a timely manner shall be assessed the cost of this water.

A non-reporting user's usage shall be presumed to 0.3 percent of the utility's total water sales for the calendar month. A non-reporting user may present evidence of its actual usage to rebut the presumed usage. The utility shall consider this evidence and may adjust the presumed usage amount accordingly.

The non-reporting user shall be billed for this usage at the lowest usage block rate regardless of customer classification that the utility charges.

A non-reporting user shall also be assessed a penalty of \$ 1.00 for each failure to submit a report in a timely manner.

CONTRACT FOR WATER SERVICES

This contract made and entered into this \_\_\_\_\_ day of \_\_\_\_\_, 198\_\_  
between \_\_\_\_\_ whose address is \_\_\_\_\_  
party of the FIRST PART, and the Jackson County Water Association, Inc.,  
Tyner, Kentucky, party of the SECOND PART.

Witnesseth that for and in consideration of the efforts of the party of  
the SECOND PART, acting through the Jackson County Water Association, the  
party of the FIRST PART agrees to pay a connection fee of \_\_\_\_\_ at the time of  
signing this contract, to connect to the water system and to pay at least a  
minimum bill monthly thereafter as soon as the \_\_\_\_\_ meter is installed  
by the Jackson County Water Association and water is made available to the  
meter, regardless of whether the FIRST PARTY connects to the system.

The party of the FIRST PART, agrees to permit the Jackson County Water  
Association to lay, maintain, repair, remove and disconnect a service line and  
meter, and read meters at a point on customer's property to be designated by the  
Jackson County Water Association, for each signed connection with the right of  
ingress and egress on property.

The party of the FIRST PART agrees that no other present or future source  
of water will be connected to any water lines served by the Jackson County Water  
Association's water lines and will disconnect from his present water supply  
prior to connecting to and switching to the Jackson County Water Association's  
system and shall eliminate their present or future cross-connections in his  
system.

A separate water meter must be installed for each residence.

A separate contract will be required for each trailer park.

The party of the FIRST PART shall install and maintain at his own expense  
a service line which shall begin at the meter and extend to the dwelling or  
place of use.

The party of the FIRST PART agrees to allow the Jackson County Water  
Association to inspect the service line from the meter to the place of use for  
the purpose of making sure it complies with the Jackson County Water Association's  
Rules and Regulations.

The party of the FIRST PART agrees to maintain area around the meter in a  
manner that will make the meter easily accessible to the Jackson County Water  
Association

The party of the FIRST PART agrees to comply with and be bound by the  
Articles, By-Laws, Rules and Regulations of the Jackson County Water Association  
now in force or as hereafter duly and legally supplemented, amended or changed.
