RULES AND REGULATIONS

Special Non-recurring Charges:

The utility will collect for special nonrecurring charges to recover customer-specific costs incurred which would otherwise result in monetary loss to the utility or increased rates to other customers to whom no benefits accrue from the service provided or action taken. The utility may establish or change any special nonrecurring charge by applying for Public Service Commission approval of such charge in accordance with the provisions of 807 KAR 5:011, Section 10.

Special nonrecurring charges will be applied uniformly throughout the area served by the utility. Such charges will relate directly to the service performed or action taken and only yield enough revenue to pay the expenses incurred in rendering the service.

The utility will assess a charge for the following non-recurring services:

1. Connection/Turn-on Charge: Will be assessed for new service turn-ons, seasonal turn-ons, or temporary service. The charge will not be made for initial installation of service where a meter connection/tap-on charge is applicable.
2. Field Collection Charge: Will be assessed when a utility representative visits the premises of the service connection to terminate service, and the customer is on-site and pays the bill to avoid termination of service. This fee may only be charged once per billing period.
3. Late Payment Penalty: Will be assessed on the delinquent amount of the bill, less taxes.
4. Meter Relocation Charge: Will be assessed when a customer or other authorized person requests that a meter be relocated, changed, or modified. Those requesting a change must reimburse the utility for the actual costs incurred, including but not limited to appropriate legal, administrative, engineering, overhead, or other related costs.
5. Meter Re-read Charge: Will be assessed when a customer requests the utility to re-read the customer's meter and the re-read proves that the original meter reading was correct.

6. Meter Test Charge: Will be assessed when a customer requests the utility perform a test on the customer's meter to check for accuracy, and the test shows the customer's meter is not more than two percent (2%) fast.
7. Reconnection Charge: Will be assessed to reconnect service that has been terminated for non-payment of service or for violation of Utility or Public Service Commission rules and regulations, and will include the cost of the service trip for both the disconnection and the reconnection.
8. Returned Check Charge: Will be assessed when a customer's check is returned, either due to insufficient funds or other reason due to customer fault.
9. Service Call/Investigation Charge: Will be assessed when a customer requests the onsite presence of utility personnel to investigate a service problem and the problem is a result of the customer's own plumbing facilities, beyond the utility's delivery point, or not caused by failure of utility facilities. Any maintenance and repair of facilities beyond the utility's delivery point is the responsibility of the customer.

Meter Reading & Billing Procedure

The Oldham County Water District, a water district organized pursuant to Chapter 74 of the Kentucky Revised Statutes, will make the following changes for meter reading and sending bills:

Meters will be read and billed monthly. However due to bad weather or reason beyond the Water District's control when meter can not be read, customers will receive an estimated bill base on the previous three month period. The bill will be coded with an ( E ) to let the customer known it is an estimated bill.

The billing computer will be programmed to signal if the present reading is unusually much higher than the previous month and adjust accordingly.

**Bill Payment**

Customers may make payment by cash, check, automated clearing house (ACH), credit or debit card and electronic transfer applications listed on the District’s website or posted at the District’s office. Customers making payment by credit or debit card or by other electronic transfer applications may be assessed a fee by the payment processor to complete the transaction. Prior to completion of such transaction, Customers will be advised of any transaction fee and afforded an opportunity to cancel the transaction.

The transactions must be completed before the due date listed on the Customer’s bill to avoid the assessment of a late payment fee.

If a Customer renders payment to the District by check or any form of electronic funds transfer and the check or transfer is not honored upon deposit by the District, the Customer will be charged the Returned Check Charge referenced in the Special Non-Recurring Charges contained in the District’s filed tariff.

**Electronic Billing (“Paperless Billing”)**

Billing statements and notices will be mailed via the U.S. Postal Service to Customer at the address set forth in the application unless the Customer notifies the District verbally by telephone or in person to an authorized District Customer Representative or in writing or online via the Customer Portal on the District’s website of a different address to mail such statements and notices.

Customers may enroll in Paperless Billing to receive a bill in electronic form by electronic mail in lieu of a paper bill. By enrolling in paperless billing, the Customer consents to waiver of Customer’s right under 807 KAR 5:006 to receive billing statements and notices by mail except notice of termination, the process of which is described below. If the District intends to terminate service of a Customer enrolled in Paperless Billing and the District’s Rules and Regulations or 807 KAR 5:006 requires advanced written notice of the termination of service, the District will

REIMBURSEMENT TO CUSTOMERS CONTRIBUTING TO EXTENSIONS & REGARDS TO NEW SUBDIVISIONS

The Oldham County Water District, a water district organized pursuant to Chapter 74 of the Kentucky Revised Statutes, will make the following changes on reimbursement to customers contributing to extensions and in regards to new subdivisions.

For a period of five (5) years after construction of the extension, each additional customer whose service line is directly connected to the extension installed, and not to extensions or laterals therefrom, shall be required to contribute to the cost of the extension based on a recomputation of both the utility's portion of the total cost and the amount contributed by the customers. The utility shall refund to those customers that have previously contributed to the cost of the extension that amount necessary to reduce their contribution to the currently calculated amount for each customer connected to the extension. All customers directly connected to the extension for a five (5) year period after it is placed in service shall contribute equally to the cost of construction of the extension. In addition, each customer shall pay the approved tap-on fee applicable at the time of his application for the meter connection. The tap-on fee shall not be considered part of the refundable cost of the extension and may be changed during the refund period. After five (5) year refund period expires, any additional customer shall be connected to the extension for the amount of the approved tap-on fee only. After the five (5) year refund period expires, the utility shall be required to make refunds for an additional five (5) year period in accordance with subparagraph 1 of this paragraph.

**FIRE DEPARTMENTS**

Any city, county, urban-county, charter county, fire protection district, or volunteer fire protection district ("User") may withdraw water from the utility's water distribution system for the purpose of fighting fires or training firefighters at no charge on the condition that it maintains estimates of the amount of water used for fire protection and training during the calendar month and reports the amount of this water usage to the utility no later than the 15<sup>th</sup> day of the following calendar month.

Any city, county, urban-county, charter county, fire protection district, or volunteer fire protection district that withdraws water from the utility's water distribution system for fire protection or training purposes and fails to submit the required report on water usage in a timely manner shall be assessed the cost of this water.

A non-reporting user's usage shall be presumed to be 0.3 percent of the utility's total water sales for the calendar month. A non-reporting user may present evidence of its actual usage to rebut the presumed usage. The utility shall consider this evidence and may adjust the presumed usage amount accordingly.

The non-reporting user shall be billed for this usage at the lowest usage block rate regardless of customer classification that the utility charges.

A non-reporting user shall also be assessed a penalty of \$ 1.00 for each failure to submit a report in a timely manner.

ARTICLE 12. RATES: The Commission may request the Public Service Commission to adjust water rates, and make reasonable regulations for the disposition and consumption of water.

ARTICLE 13. DISPOSITION OF ASSETS: In the event the District terminates business by reason of liquidation or sale of its assets, and in the event there is a sum of money remaining after the District has sold its property and paid its debts of every kind, including all bonded indebtedness, then the District shall seek court approval of a distribution of the money based on the following plan:

(a) One-half (1/2) of the said money shall be distributed to the original subscribers, their heirs, devisees and assigns in direct ratio to the connection fees paid by them prior to construction of the original line;

(b) One-half (1/2) of the said money shall be distributed to each customer, his heirs, devisees and assigns, who has at any time purchased water from the District, in direct ratio to the total water bill the customer paid during the entire operation of the system.

The District does not in any way represent that this means of disposing of the assets of the District in the event of liquidation of sale will be approved by the Court.

ARTICLE 14. MISCELLANEOUS: The Commission may acquire a water line or system operating in the District as provided by KRS 74.100, or other facilities as may be necessary in the opinion of the District.

**INTERPRETING LEAK ADJUSTMENTS FOR CUSTOMERS**

The Oldham County Water District, a water district organized pursuant to Chapter 74 of the Revised Statutes, will make the following changes on leak adjustments for customers.

There will be (1) adjustment per calendar year. In order to qualify for the adjustment, the customer's usage must be at least (5) times their average usage. The customer's bill will be based on two (2) components. The first step will be to calculate the customer's average monthly usage over a twelve-month period. That usage will be billed at the district's regular rates. The second step will be to deduct the customer's average monthly usage (as calculated above) from the total amount of water that passed through the meter. The usage above the average will be charged at the district's wholesale water rate found in the rates and charges portion of this tariff.

Customer must satisfy the following terms and conditions to receive water service to property located within the WHPA:

- (a) The Customer shall agree to install and maintain an Advanced Septic System, approved by the District, which will substantially reduce the level of nitrates leaching into the groundwater in the WHPA. As a condition precedent to the District's determination of whether any septic system is an Advanced Septic System, the District shall have received from the Customer (i) a written request that the District decide whether the proposed septic system is an Advanced Septic System and (ii) documents, data or information that demonstrates to the District that the proposed system, when installed and operated on the property, will substantially reduce the risk of nitrates leaching into the WHPA;
- (b) The minimum size of the Customer's property receiving water service shall be approximately two (2) acres; or, alternatively, if the Customer's property is part of a subdivision development plat approved by the Oldham County Planning and Zoning Commission, the overall density of the development shall be a minimum of approximately two (2) acres per single family;
- (c) The Customer shall agree to enter into such written declarations, covenants or contracts as are necessary to ensure that these terms and conditions run with the land, are binding upon all parties acquiring an interest in the Customer's property and are automatically imposed upon each successive owner of any portion of the Customer's property; and

**Oldham County Water District**

**RULES AND REGULATIONS**

- (d) The Customer shall agree that representatives of the District will have the right of access, within its discretion and upon reasonable notice and terms, to inspect the Advanced Septic System on the Customer's property to observe whether it is operating properly. The Customer shall be responsible for maintaining the Advanced Septic System to ensure that it operates properly.

**Section 5. EXCEPTIONS.** Some or all of the conditions contained in Section 4 for receiving water service do not apply in the following situations:

- (a) None of the conditions apply if a Customer's or an Existing Customer's property is served and continues to be served by a municipal sewer system or a properly functioning package treatment system approved by the Kentucky Division of Water;
- (b) None of the conditions apply to an Existing Customer, regardless of the size of his property, if the property is served and continues to be served by a properly functioning Conventional Septic System; and
- (c) If a property owner's lot is less than two (2) acres and the property owner is not an Existing Customer, then the property owner is exempt from the minimum lot size requirements of Section 4(b) if, and only if, the lot was created by a deed duly executed and recorded on or before April 23, 2003. The property owner, however, must comply with all other provisions of Section 4.

RULES AND REGULATIONS

**Section 6. DENIAL OR TERMINATION OF SERVICE.** Any failure by a Customer or an Existing Customer to meet or comply with these terms and conditions will result in the denial or termination of water service.

**Section 7. REBATE.** The District acknowledges that (i) the installation of Advanced Septic Systems in the WHPA benefits all persons who receive water from the District, both within and outside the WHPA, by protecting the public water supply and (ii) Advanced Septic Systems are more costly to install than Conventional Septic Systems. Consequently, the District will pay to a Customer or an Existing Customer a one-time payment which represents the difference between the cost of an Advanced Septic System and a Conventional Septic System, but no more than \$4,000 for each Advanced Septic System initially installed within the WHPA by a Customer or an Existing Customer. The payment shall be made at such time as a Customer or an Existing Customer demonstrates, by evidence satisfactory to the District, (i) that an approved Advanced Septic System has been installed and is operating properly on the Customer's or Existing Customer's property located within the WHPA and (ii) the amount of the additional expense incurred by the Customer or Existing Customer in installing an Advanced Septic System instead of a Conventional Septic System.
