SECTION 1: GENERAL INFORMATION

The provisions of this tariff are in addition to and subject to Commonwealth of Kentucky statutes and Public Service Commission regulations.

Any inconsistencies herein shall be interpreted in favor of the appropriate body of law.

This tariff will uniformly apply to all customers of the utility, and no employee or commissioner of the utility is permitted to make any exception to any portion of this tariff without PSC acceptance and/or approval.

1. All customers must grant, convey, or cause to be granted or conveyed to the utility a perpetual easement and right-of-way across any property owned or controlled by the customer wherever necessary for the utility's facilities in order to provide service.
2. Each prospective customer desiring water service must sign the utility's Water Service Contract before service is supplied by the utility.
3. No customer may resell water except under the terms of a special contract executed by the utility and accepted or approved by the PSC.
4. A customer shall notify the utility immediately if there is problem with the service or if an accident occurs that affects the water system.
5. With respect to any billing dispute, customer accounts shall be considered to be current while the dispute is pending as long as the customer continues to make undisputed payments and stays current on subsequent bills.
6. Bills and notices from the utility will be mailed to the customer at the address listed on the Water Service Contract unless a change of address has been filed with the utility in writing. The utility will not otherwise be responsible for delivery of any bill or notice, nor will the customer be excused from the payment of any bill or any performance required in the notice.
7. Billing Cycle - Water service will be billed monthly.

SECTION 3: DEPOSIT POLICY

1. The utility requires a cash deposit to secure payment of bills, an equal amount for each class of customers, not to exceed 2/12 of the average annual bill when billed monthly.
2. Deposit amount(s) will be \$50.00
3. Service will be refused or discontinued if payment of deposit is not made.
4. Deposits may be waived for a customer showing satisfactory credit or payment history with the following criteria being considered: (a) Previous history with the utility. If the customer has no previous history with the utility, statements from other utilities, banks, etc., may be presented by the customer as evidence of good credit; (b) Whether the customer has an established income or line of credit; (c) Length of time the customer has resided or been located in the area; (d) Whether the customer owns the property to be served; (e) Whether another customer with a good payment history is willing to sign as a guarantor for an amount equal to the required deposit
5. Interest will accrue on all deposits at the rate prescribed by law beginning on the date of the deposit. Interest accrued will be refunded to the customer or credited to the customer's bill on an annual basis. If interest is paid or credited to the customer's bill prior to twelve (12) months from the date of deposit or the last interest payment date, the payment or credit shall be on a prorated basis.
6. Upon termination of service, the deposit, any principal amounts, and interest earned and owing will be credited to the final bill with any remainder refunded to the customer.

SECTION 4: SPECIAL NON RECURRING CHARGES

Billing Related Charges:

1. Returned Check Charge: \$ 28.00

Will be assessed when a customer's check is returned, either due to insufficient funds or other reason due to customer fault.

2. Late Payment Charge: 10%

Will be assessed if a customer fails to pay a bill for services by the due date shown on the customer's bill. The charge may be assessed only once on any bill for rendered services. Any payment received shall first be applied to the bill for service rendered. Additional charges shall not be assessed on unpaid late charges.

Meter Related Charges:

1. Meter Connection /Tap-On Charge: \$ 800.00

Will be assessed to hook up a new 5/8 by 3/4 meter connection/tap-on. An additional charge consisting of the actual costs involved shall apply when rock is encountered. All larger meters will be charged for actual cost.

2. Meter Turn-On Charge: \$ 45.00

Will be assessed for new service turn-on, seasonal turn-on, temporary service, or transfer of service. The charge will not be made for initial installation of service where a meter connection/tap-on charge is applicable.

3. Meter Relocation /Re-setting Charge: \$ Actual Cost

Will be assessed when a customer or other authorized person requests that a meter be relocated, changed or modified. A charge will also be assessed when a meter is re-set where the meter has been removed at the customer's request. Those requesting a change must reimburse the utility for the actual costs incurred, including but not limited to appropriate legal, administrative, engineering, overhead, or other related costs.

4. Meter Re-read Charge: \$ 45.00

Will be assessed when a customer requests the utility to re-read the customer's meter and the re-read proves that the original meter reading was correct.

5. Meter Test Charge: \$ 55.00

Will be assessed when a customer requests the utility perform a test on the customer's meter to check for accuracy and the test shows the customer's meter is not more than two percent (2%) fast. The utility will perform such test on any meter upon written request of any customer if the request is not made more than once every twelve (12) months.

Service Related Charges:

1. Service Call / Investigation Charge: \$ 45.00
Service Call / Investigation After Regular Business Hours: \$70.00

Will be assessed when a customer requests the onsite presence of utility personnel to investigate a service problem and the problem is a result of the customer's own plumbing facilities, beyond the utility's delivery point, or not caused by failure of utility facilities. Any maintenance and repair of facilities beyond the utility's delivery point is the responsibility of the customer.

SECTION 5: SERVICE CONNECTIONS

1. The connection between its distribution main and the customer's premises, including the meter and meter box, shall be furnished by and installed at the expense of the utility, which will recoup this expense by assessing the customer a charge approved by the PSC.
2. All taps and connections to the mains of the utility must be made by or under the direction and supervision of the utility.
3. In areas where the distribution system follows well-defined streets and roads, the customer's point of service shall be located at that point on or near the street right-of way or property line most accessible to the utility from its distribution system.
4. In areas where the distribution system does not follow streets and roads, the point of service shall be located as near the customer's property line as practicable. Prior to installation of the meter the utility shall consult with the customer as to the most practical location.
5. The utility will own and be responsible for the maintenance of all meters and reserves the right to approve the size and type of meter used.
6. The utility strictly prohibits a cross connection of its system with any other source.
7. The utility requires a visual inspection by utility personnel of any connection before being covered. The utility may substitute its inspection with an inspection by the appropriate state or local plumbing inspector, if proof of inspection is presented to the utility by the customer.
8. Customers requiring larger than 5/8" x 3/4" meters shall pay the actual cost.
9. An additional charge shall be made for meter connections where rock is encountered, such rock condition being defined as limestone or other hard stratified material in a continuous volume of at least one cubic yard or more and which cannot be removed using ordinary excavation equipment. The charge shall be applied per linear trench foot and shall not exceed the actual cost of excavation.

SECTION 6: SERVICE LINES

1. The service line is the pipe from the outlet side of the water meter (or point of service) to the point of usage. The applicant/customer owns and is responsible for this service line and must furnish and lay the necessary pipe of the service line, and is financially responsible for all costs associated with the installation and maintenance of the service line plumbing.
2. The service line shall be laid at least thirty (30) inches in depth, shall not be less than three-fourths (3/4) inch in size, and shall be installed, maintained, and repaired in accordance with all applicable statutes, regulations, and codes.
3. The service line trench shall be left open and the pipe uncovered to allow the utility to visually inspect the connecting line. The utility may substitute for its inspection an inspection by the appropriate state or local plumbing inspector, if proof of that inspection is presented to the utility by the applicant/customer.
4. If the applicant/customer has a point of usage at a higher elevation than the meter, he/she shall consult with an engineering firm to properly size the service line from the meter to the point of usage.
5. If the applicant/customer desires a higher than normal pressure, he/she shall make provisions for an individual pressure booster system for the service line, subject to approval by the utility. The utility reserves the right to require discontinuance and disconnection should the private booster system have a detrimental effect on the utility's system.
6. If the applicant/customer has boilers and/or pressure vessels that receive water from the utility, he/she shall provide a check valve on the water supply line and a vacuum valve on the steam line in order to prevent a collapse in case the water supply from the utility should be interrupted or discontinued for any reason, with or without notice.
7. If the applicant/customer has used or is using a well, he/she shall provide the utility access to perform an inspection to verify the well is properly separated from the system.

SECTION 7: LEAK ADJUSTMENT POLICY

While a utility is not required to have a leak adjustment policy to adjust bills due to a water leak, this utility chooses to offer a leak adjustment under the following conditions:

1. The customer must request a leak adjustment in writing to the utility.
2. The customer must provide a plumber's statement or other proof showing the leak has been repaired. No adjustment will be considered without a completed form and a plumber's statement or receipts of repair.
3. The customer's bill will be based on two components. The first step will be to calculate the customer's average usage over a twelve-month period (including the month that reflects the leak). The second step will be to deduct the customer's average monthly usage (as calculated above) from the total amount of water that passed through the meter to arrive at an adjustment amount. The adjusted amount will be billed at the utility's regular rates plus 10% to cover pumping costs.
4. If meter readings are not available for an entire twelve-month period, the average usage of similar customer loads or prior customers for the same account shall be used for comparison purposes for the calculation.
5. Only one (1) leak adjustment will be made for a specific service location during any given three year period.
6. All late charges incurred due to late payment will be added to the adjusted bill. Should customer be disconnected for non-payment, the entire amount plus a \$55 reconnect fee must be paid before service will be restored.

SECTION 8: BILL ADJUSTMENTS

1. Fast or Slow Reading Meters

- a. If upon periodic test, requested test, or complaint test, a meter in service is found to be more than two (2) percent fast, additional tests will be made to determine the average error of the meter. The tests will be made in accordance with Public Service Commission rules and regulations applicable to the type of meter involved.
- b. If test results on a customer's meter show an average error greater than two (2) percent fast or slow, or if a customer has been incorrectly billed for any other reason, except in an instance where a utility has filed a verified complaint with the appropriate law enforcement agency alleging fraud or theft by a customer, the utility will immediately determine the period during which the error has existed, and will re-compute and adjust the customer's bill to either provide a refund to the customer or collect any under-billed amount.
- c. The utility will readjust the account based upon the period during which the error is known to have existed. If the period during which the error existed cannot be determined with reasonable precision, the time period will be estimated. In all instances of customer over-billing, the customer's account will be credited or the over-billed amount refunded at the discretion of the customer within thirty (30) days after final meter test results. A utility will not require customer repayment of any under-billing to be made over a period shorter than a period coextensive with the under-billing.

2. Meter Read Failure. When a meter has ceased to register, or a meter reading cannot be obtained, the quantity of water to be billed will be based upon historical usage data for the customer. If that data is not available, the average usage of similar customer loads shall be used for comparison purposes in calculating the bill.

SECTION 9: MONITORING CUSTOMER USAGE

At least once quarterly the District will monitor the usage of each customer according to the following procedure:

1. The customer's quarterly usage for the most recent 3 month period will be compared with the quarterly usage for the 3 months immediately preceding that period.
2. If the quarterly usage for the two periods is substantially the same or if any difference is known to be attributed to unique circumstances, such as unusual weather conditions, common to all customers, no further review will be done.
3. If the quarterly usages differ by 100% or more and cannot be attributed to a readily identified common cause, the District will compare the customer's monthly usage records for the quarter with the monthly usage for the same quarter of the preceding year.
4. If the cause for the usage deviation cannot be determined from analysis of the customer's meter reading and billing records, the District will contact the customer by telephone or in writing to determine whether there have been changes such as different number of household members or work staff, additional or different appliances, changes in business volume, or known leaks in the customer's service line.
5. Where the deviation is not otherwise explained, the District will test the customer's meter to determine whether it shows an average error greater than 2 percent fast or slow.
6. The District will notify the customers of the investigation, its findings, and any refunds or back-billing in accordance with the law.

In addition to the quarterly monitoring, the District will immediately investigate usage deviations brought to its attention as a result of its on-going meter reading or billing process or customer inquiry.

SECTION 10: BILLING; COLLECTIONS; CHARGES.

1. The rates or charges aforesaid shall be billed monthly on or about the last day of each month.
2. Bills for such service shall be due on or before the tenth (10th) day of the month and payable by mail or in person.
3. Payments must be received, not postmarked, before the close of business on the 10th day of the month. Sandy Hook Water District is not responsible for the United States Postal Service.
4. If a bill is not paid as aforesaid within such 10 day period, such bill shall be deemed delinquent, and there shall be imposed a late charge in an amount equal to ten percent (10%) of the charges (other than sales tax) shown on the face amount of said bill not so paid. The late charge may be assessed only once on any bill for rendered service. If a bill is not paid within the ten (10) days after becoming delinquent (20 days after rendition), service will be subject to disconnection without further notice.

SECTION 11: Credit/Debit Card Policy

Payments using Credit or Debit Card: All customers may pay their bill by credit or debit card. This method of payment may be made in person at Sandy Hook Water District's office or by telephone. If on the bill due date an attempt to pay by credit or debit card is made and the card is declined for any reason, payment is still due in full on that date and will be considered late after that date. All late charges and penalties will be applied. If a customer is paying on our disconnect day and the card is denied, the same rules as above apply with the addition that his/her service may be disconnected.

When a customer makes a payment by credit or debit card, the utility will assess a fee equal to that charged to the utility by the credit or debit card processing company to process the transaction. This fee is generally calculated using a formula applied to the balance of the amount charged to the credit or debit card account but may be a flat fee per transaction. Prior to processing the transaction, the customer will be informed of the fee amount and upon request by the customer, the formula employed to arrive at this fee amount.

SECTION 12: TERMINATION OF SERVICE

Utility Initiated Refusal of Service and Termination of Service With Advance Notice:

The utility may refuse or terminate service to a customer if the following conditions exist provided the customer has been given proper written notice pursuant to PSC rules and regulations along with notice of the customer's right to challenge the termination by filing a complaint with the PSC. Termination of service is in addition to any legal remedies the utility may pursue, and the utility is not required to restore service until the customer has complied with the utility's tariff and PSC laws and regulations.

1. For noncompliance with the utility's tariff or PSC rules and regulations, the utility may refuse service or terminate service with proper advance notice.
2. For dangerous conditions, the utility may refuse service until any and all dangerous conditions have been properly corrected.
3. For refusal of access, the utility may refuse service or terminate service with proper advance notice.
4. For outstanding indebtedness, the utility may refuse service until the customer has paid the outstanding debt.
5. For noncompliance with state, local, or other codes, the utility may refuse service or terminate service with proper advance notice.
6. For non-payment of bills, a utility may terminate service with proper advance notice.

SECTION 12: TERMINATION OF SERVICE continued

Termination of Service – Delinquency:

If a bill is not paid within 10 days after billing date, bill will be considered delinquent and customer shall be mailed a delinquent notice with late charges and intent to terminate service should payment not be made within ten (10) business days of the date of the written notice. The utility shall thereupon turn off the water of such delinquent customer and may further enjoin the use of the water facilities of the utility until payment in full is made. If any deadline date specified falls on a Sunday or on a legal holiday, such deadline shall not expire until the end of the next business day. If such water service is disconnected by the utility, a reconnection of such service shall not be made until the customer or user pays all charges owed, plus the amount of disconnection and reconnection charges, and a deposit if no deposit exists on the account.

Customer Requested Termination of Service:

Any customer desiring service terminated or changed from one address to another shall give the utility three (3) working days' notice in person, in writing, or by telephone, provided such notice does not violate contractual obligations. The customer will not be responsible for charges for service beyond the three (3) day notice period if the customer provides proper notification and reasonable access to the meter during the notice period.

Emergency Termination of Service:

If a dangerous condition relating to the utility's service which could subject any person to imminent harm or result in substantial damage to the property of the utility or others is found to exist on the customer's premises the service will be terminated immediately.

SECTION 12: TERMINATION OF SERVICE continued

Utility Initiated Refusal of Service or Termination of Service Without Advanced Notice:

The utility may refuse or terminate service to a customer if the following conditions exist without an advance termination notice. Within 24 hours after termination, the utility shall send written notification to the customer stating the reason(s) for termination and providing notice of the customer's right to challenge the termination by filing a complaint with the PSC. Termination of service is in addition to any legal remedies the utility may pursue, and the utility is not required to restore service until the customer has complied with the utility's tariff and PSC rules and regulations.

1. For dangerous conditions relating to the utility's service.
2. Unauthorized service by illegal use or theft.
3. Extensions or additions to an existing service connection that have not been approved by the utility.
4. Misrepresentation in the application or contract as to the property or fixtures to be supplied or additional use to be made of water.
5. Resale of water except under the terms of a special contract executed by the utility and approved by the PSC.
6. Waste or misuse of water due to improper, imperfect, or deteriorated service pipes.
7. Tampering with the meter, meter seal, valves, or other system facilities, or permitting such tampering by others.
8. Connections, cross-connections, or permitting the same, of any separate water supply to premises that receive water from the utility.

SECTION 12: TERMINATION OF SERVICE continued

Utility Initiated Termination of Service – Exceptions.

The utility will not terminate service to a customer if the following conditions exist:

1. If payment for services is made. Service will not be terminated to a customer that was sent a termination notice if the customer delivers full payment to the utility prior to the actual termination of service.
2. If a medical certificate is presented. Service will not be terminated for thirty (30) days beyond the termination date if a physician, registered nurse or public health officer certifies in writing that termination of service will aggravate a debilitating illness or infirmity on the affected premises. The utility may refuse to grant consecutive extensions for medical certificates past the original thirty (30) days unless the certificate is accompanied by an agreed partial payment plan. The utility will not require a new deposit from a customer to avoid termination of service for a thirty (30) day period who presents to the utility a medical certificate certified in writing by a physician, registered nurse or public health officer.

SECTION 13: FIRE DEPARTMENT USE

Any city, county, urban-county, charter county, fire protection district, or volunteer fire protection district ("User") may withdraw water from the utility's water distribution system for fighting fires or training firefighters at no charge on the condition that it maintains estimates of the amount of water used for fire protection and training during the calendar month and reports the amount of this water usage to the utility no later than the 15th day of the following calendar month.

Any User that withdraws water from the utility's water distribution system for fire protection or training purposes and fails to submit the required report on water usage in a timely manner shall be assessed the cost of this water. A User shall submit a monthly report even if it withdraws no water for fire protection or training purposes.

A non-reporting User's usage shall be presumed to be 0.3 percent of the utility's total water sales for the calendar month. A non-reporting User may present evidence of its actual usage to rebut the presumed usage. The utility shall consider this evidence and shall adjust the presumed usage amount accordingly.

The non-reporting User shall be billed for this usage at the lowest usage block rate regardless of customer classification that the utility charges.

A non-reporting user shall also be assessed a penalty of \$ 25.00 for each failure to submit a report in a timely manner.

SECTION 14: WATER MAIN EXTENSIONS

1. Each prospective customer desiring water service shall be required to sign the standard application for water service form and any supplemental contract required by the district before the service connection is made.
2. Meter connection/tap-on charges shall be paid in full to the District before extensions may begin.
3. Normal extension. An extension of fifty (50) feet or less shall be made by a utility to its existing distribution main without charge for a prospective customer who shall apply for and contract to use service for one (1) year or more.
4. The utility will furnish and install, at its expense, for the purpose of connecting its distribution system to the customer's premises that portion of the service line from the main to and including the curb box. The curb box will be installed between the property line and the curb. The service line will extend to that point on the curb line easiest to access by the utility as to the proper location of the service line, the utility shall be consulted and its approval of the location secured.

SECTION 15: LEGAL DISCLAIMERS

1. The utility shall in no event be held responsible for any claims made against it for reasons of system failure or interruption of service. No person shall be entitled to damages or for any portion of a payment refunded for any system failure or interruption of service which is deemed necessary.
2. No person shall maliciously, willfully, or negligently break, damage, destroy, uncover, deface, or tamper with any structure, appurtenance or equipment which is a part of the utility's water system. Any person violating this provision will be subject to discontinuance of water service and shall be assessed the cost of repairing or replacing the utility's facilities.
3. If any loss or damage to the property of the utility or any accident or other injury to persons or property is caused by or results from the negligence or wrongful action of a customer, members of his/her household, his/her agent or employee, then the cost of necessary repairs or replacements shall be paid by the customer of the utility and any liability otherwise resulting shall be that of the customer.
4. For purposes of fire protection, including any customer's fire protection system, the utility cannot guarantee a water supply at any particular flow rate or pressure. The fire flow may vary depending upon other water demands on the system, various water facility limitations, or other circumstances. The customer will indemnify and hold harmless the utility and its employees from and against all claims, damages, losses, and expenses incurred as a result of insufficient water supply or deficient system facilities.

SANDY HOOK Water District
WATER SERVICE CONTRACT

This contract entered into between _____, hereinafter called "USER"
the undersigned

and the SANDY HOOK WATER DISTRICT, hereinafter called "SUPPLIER" that
water system

WHEREAS the USER desires to purchase water from the SUPPLIER, the USER hereby enters into this service contract as required by the SUPPLIER.

NOW THEREFORE, in consideration of the mutual covenants, promises and agreements herein contained, it is hereby understood and agreed by the parties hereto as follows:

SECTION 1. The SUPPLIER shall furnish, subject to the limitations set out in its Bylaws, Rules and Regulations, and tariffs now in force or as hereafter duly and legally supplemented, amended, or changed, such quantity of water as the USER may desire in connection with the property to be served by this agreement. The property to be served is a (residence, mobile home, or business) _____ located at.

Street, Road, etc.

Phone

SECTION 2. The USER agrees to pay to the SUPPLIER the meter connection/tap-on fee of \$ _____ as set out in the SUPPLIER's approved tariff. If the meter to be installed is more than fifty (50) feet from the main, then the USER

also agrees to pay the for the additional materials and labor costs associated with the longer connection. The USER also agrees to pay the SUPPLIER a deposit of \$ _____ as set out in the SUPPLIER's approved tariff.

The USER agrees to comply with and be bound by the Bylaws, Rules and Regulations, and tariffs now in force or as hereafter duly and legally supplemented, amended, or changed. The USER agrees to pay for water at such rates, time, and place as shall be determined by the SUPPLIER, and agrees to the imposition of such penalties for non-compliance as set out in the SUPPLIER's Bylaws, Rules and Regulations, and tariffs now in force or as hereafter duly and legally supplemented, amended, or changed.

It is understood and agreed that the SUPPLIER reserves the right to determine the size of service connection to be used to supply water to the USER. A 5/8" x 3/4" meter will be the standard meter used. If a USER contracts for a larger meter, the USER agrees to pay the actual costs of materials and labor for the installation of such a meter. A separate meter must be installed by the SUPPLIER for each individual residence or place of use. The location of the water meter on the property will be determined by the SUPPLIER and will not be more than fifty (50) feet from the main, unless special circumstances exist. The SUPPLIER shall purchase and install a cutoff valve and a water meter and other appurtenances thereof. The SUPPLIER shall have exclusive right to use said cutoff valve and water meter.

SECTION 3. The USER shall install and maintain, at his/her own expense, a service line that shall begin at the meter and extend to the dwelling or place of use. The USER shall connect his service line to the water distribution system and shall commence to use water from the system on the date the water is available. Water charges to the USER will commence on the date service is made available by the SUPPLIER, regardless of whether the USER is connected to the system, or is in fact using water from the system.

The failure of the USER to pay water charges duly imposed shall result in the automatic imposition of additional charges as set out in the SUPPLIER's approved tariff. Charges shall include, but not be limited to, a late payment charge and a reconnection fee (in the event water service is terminated).

SECTION 4. The SUPPLIER shall determine the allocation of water to the USER in the event of a water shortage, and may shut off water to the USER if such event occurs. The SUPPLIER may shut off water to the USER if the USER allows a connection or extension to be made to his service line for the purpose of supplying water to another party. In the event the total water supply shall be insufficient to meet all of the needs of the USERS, or in the event there is a shortage of water, the SUPPLIER must first satisfy all of the needs of all of the USERS for domestic purposes before supplying any water for livestock purposes and must satisfy all of the needs of all of the USERS for domestic and livestock purposes before supplying any water for garden or other purposes.

SECTION 5. The USER agrees that no present or future source of water will be connected to any water lines served by the SUPPLIER's water lines. In the event there are present connections, USER will disconnect from his present water supply, well, or other source, prior to connecting to and switching to the SUPPLIER's system and shall eliminate present or future cross-connections in his system.
