

U.S. 60 WATER DISTRICT OF  
SHELBY AND FRANKLIN COUNTIES

P.S.C. Ky. No. 3  
First Amended Sheet No. 2

Cancelling P.S.C. Ky. No. 3  
Original Sheet No. 2

**RULES AND REGULATIONS**

Calculated Deposits

(C)

All customers' deposits shall be based upon actual usage of the customer at the same or similar premises for the most recent 12-month period, if such information is available. If usage information is not available, the deposit will be based on the average bills of similar customers and premises in the system. If there are no similar customers in the system, the deposit will be based on the utility's good faith best estimate of the customer's projected annual bill. The deposit amount shall not exceed 2/12 of the customer's actual or estimated annual bill where bills are rendered monthly.

The District's billing form is attached hereto as Exhibit A.

(C)

D. Nonstandard Service. Any customer shall pay the cost of any special installation necessary to meet his/her peculiar requirements for service other than standard water tap.

E. Water Line Installation. No service will be installed unless there is a main distribution line existing along the road from which service is requested. The District will install at its expense that portion of the service line extending from the main line to and including the curb box or curb stop on the customer's property immediately adjacent to the right of way of the road along which the main line exists.

F. Easements. Each customer, together with his/her spouse and all other real estate title owners, shall grant or convey to the District, without cost, any permanent easements reasonably required by the District for the installation and maintenance of the District's meter and water lines, both existing and future, and for reading that meter at a point on the customer's property to be designated by the District for each meter, with right of ingress and egress for these purposes over the customer's property, provided such meter and lines are located on real estate owned, rented or otherwise controlled by the customer and such lines (except for the line leading to the customer's meter) are adjacent and parallel to the right of way for a

RULES AND REGULATIONS

public roadway. The failure or refusal to convey such easements shall constitute grounds for discontinuing service.

- G. Customer Certificate. The District may issue to every customer a certificate showing the name of the customer, location of the initial premises occupied, date issued, and amount of fee.
- H. No Cross Connections. Each customer acknowledges the need to avoid contamination of the District's water system by introduction of foreign water, and therefore each customer agrees that the customer's present water supply, if any exists, will be disconnected prior to connecting to the District's water system. The customer will not connect to any other water supply while connected to the District's water system.
- I. Customer's Service Line. The customer will install and maintain at customer's expense a service line which shall begin at the water meter and extend to the dwelling or other point of use on the customer's premises. All service lines shall be installed of material (for example copper, galvanized, or PVC pipe) rated at 200 psi or more. The size of service line beyond the point of delivery should not be less than 3/4"; however, a larger size may be needed to provide adequate service. If the customer's point of use is at a higher elevation than the point of delivery, the customer should consult with a reputable engineering firm to size the service line from the point of delivery. The customer will be responsible for all water loss occurring on the customer's side of the water meter. The customer shall also be responsible for any damage to the District's water lines and meter which occurs while the customer or his contractor are connecting to the meter.
