RULES & REGULATIONS

FIRE DEPARTMENTS:

Any city, county, urban-county, charter county, fire protection district, or volunteer fire protection district ("User") may withdraw water from the utility's water distribution system for the purpose of fighting fires or training firefighters at no charge on the condition that it maintains estimates of the amount of water used for fire protection and training during the calendar month and reports the amount of this water usage to the utility no later than the 15th day of the following calendar month.

Any city, county, urban-county, charter county, fire protection district, or volunteer fire protection district that withdraws water from the utility's water distribution system for fire protection or training purposes and fails to submit the required report on water usage in a timely manner shall be assessed the cost of this water.

A non-reporting user's usage shall be presumed to 0.3 percent of the utility's total water sales for the calendar month. A non-reporting user may present evidence of its actual usage to rebut the presumed usage. The utility shall consider this evidence and may adjust the presumed usage amount accordingly.

The non-reporting user shall be billed for this usage at the lowest usage block rate regardless of customer classification that the utility charges.

A non-reporting user shall also be assessed a penalty of \$ 0 for each failure to submit a report in a timely manner.

AMENDMENTS TO
RULES AND REGULATIONS

The following rules and regulations are amendments to the rules and regulations of the Union County Water District, issued on July 22, 1975, and effective September 1, 1975 [P.S.C. No. 2, Original Sheet No. 2] and are subject to change by the Water District Commissioners at any time subject to approval by the Utility Regulatory Commission.

1. There shall be an initial service connection charge for a 5/8 x 3/4 meter in the amount of \$400.00, which shall cover the costs of materials, labor and equipment necessary for the installation of service.
2. There shall be a re-connecting charge in the amount of \$75.00 for any party desiring to resume service with the Union County Water District.
3. Item 3 of the Amendments to Rules and Regulations of the Union County Water District [effective 9/1/79], concerning customer deposits is DELETED.
4. If it is determined as the result of a request or complaint that there is an error on a customer's meter, then once the amount of the error is determined, pursuant to 807 KAR 5:006, Section 10, the customer shall receive credit or a charge (as the case may be) on his next bill for the amount of the error.
5. In the event any bill shall become 30 days overdue, the Water District shall notify the customer, in writing, that the bill is 30 days overdue and the customer will have 7 days from the date of notification in which to pay the charge. If the charge is not paid within 7 days from the date of notice, the service shall be discontinued without further notice.
6. A 10% penalty charge shall be assessed on unpaid balances 30 days overdue.
7. Each customer is required to read his own meter and submit the meter reading by the 25th of the month following the billing period. In the event the customer shall not comply with this requirement and it is necessary for an employee of the Water District to read the meter to determine the billing charge, there will be a charge of \$20.00 for reading the meter.
8. Any customer desiring to initiate service with the Water District to which it is necessary to make an extension from current water lines of more than fifty (50) feet, then the cost of such connections over fifty (50) feet shall be borne by the customer. The Water District will, however, reimburse the customer for an amount not to exceed his expenses by allowing him a credit each month, to be prorated over a ten (10) year period. The credit will be 60% of the previous monthly billing. The credit will be received each month until the customer's expenditure for the cost of the service line is reimbursed in full or ten (10) years has elapsed, whichever occurs first.
9. Additional customers who desire to connect onto a new extension shall pay in addition to the initial service charge an amount equal to the proportionate share paid by each initial customer who paid for the construction of the extension to which they are connecting. The Union County Water District will then refund the amount paid by the new customer, plus the cost of fifty (50) feet of the extension to those customers who have previously contributed in proportion to their original contribution. The initial refund period shall be for a period of five (5) years. In addition to the above, the Water District will still make refunds for an additional five (5) years at the rate of the cost of fifty (50) feet per new customer. The customer may also be reimbursed for his unrecovered expenditure, during the ten (10) year period referred to herein, by a sixty (60%) percent credit of the previous monthly billing until the customer's expenditure for the cost of the service line is reimbursed in full or ten (10) years has elapsed, whichever occurs first. At the conclusion of ten (10) years all refunds shall cease.

MONITORING OF CUSTOMER USAGE

At least once annually, the District will monitor the usage of each customer according to the following procedure:

1. The customer's annual usage for the most recent 12-month period will be compared with the annual usage for the 12 months immediately preceding that period.
2. If the annual usage for the two periods are substantially the same or if any difference is known to be attributed to unique circumstances, such as unusual weather conditions, common to all customers, no further review will be done.
3. If the annual usages differ by 100% or more and cannot be attributed to a readily identified common cause, the District will compare the customer's monthly usage records for the 12-month period with the monthly usage for the same months of the preceding year.
4. If the cause for the usage deviation cannot be determined from analysis of the customer's meter reading and billing records, the District will contact the customer by telephone or in writing to determine whether there have been changes such as different number of household members or work staff, additional or different appliances, changes in business volume, or known leaks in the customer's service line.
5. Where the deviation is not otherwise explained, the District will test the customer's meter to determine whether it shows an average error greater than 2 percent fast or slow.
6. The District will notify the customers of the investigation, its findings, and any refunds or backbilling in accordance with 870 KAR 5:006, Section 10(4) and (5).

In addition to the annual monitoring, the District will immediately investigate usage deviations brought to its attention as a result of its on-going meter reading or billing processes or customer inquiry.
