Webster County Water District  
(Name of Utility)

**RULES AND REGULATIONS**

AA. **Fire Departments.** For the purpose of off-setting fifty percent or more of its operation expenses, any fire department not receiving public funds from the Commonwealth of Kentucky, or any political subdivision thereof, may withdraw water from the utility's facilities at no charge, for the extinguishing of fires or the training of firemen. A fire department making such withdrawals shall provide an estimate of its withdrawals to the utility at the end of each month.

AB. **Fire Hydrants:**

1. In accordance with 807 KAR 5:066 Section 10(2)(b), a new fire hydrant will not be installed unless:

- a) A professional engineer with a Kentucky registration has certified that the system can provide a minimum fire flow of 250 gallons per minute, and
- b) The system supporting this flow has the capability of providing this flow for a period of not less than two (2) hours plus consumption at the maximum daily rate.

2. The location, installation, and the responsibility for maintenance of fire hydrants, public and private fire protection facilities, connecting mains, and their ownership may be subject to negotiation between the utility and the applicant/customer. Fire hydrants and public and private fire protection facilities shall be installed as required by the utility and if owned by the utility shall be subject to any conditions the Public Service Commission may impose, based upon the compensation received for this service.

AC. **Fire Sprinkler Systems.** Unless specifically exempted within the utility's approved tariff, all connections to the utility's system must be metered; one exception being fire sprinkler systems, subject to utility inspection and approval. A monthly charge of \$25 will be assessed for each fire sprinkler system. The charge will be approved by the Public Service Commission and included in the rates and charges portion of the utility's approved tariff.
