RULES AND REGULATIONS

1. PSC Regulations: These Rules and Regulations are in addition to rules and regulations of the Kentucky Public Service Commission. In cases of conflict, the PSC Regulations will prevail. These Rules and Regulations are a part of all contracts for receiving water service from the District whether service is based upon contract, agreement, signed application, or otherwise. A copy of this schedule, together with a copy of the District's Schedule of Rates and Charges shall be kept open to inspection at the Office of the District.

2. Application for Service: Each prospective customer desiring water service is required to sign the District's Standard Water Service Contract before service is supplied by the District. If service is desired on the same side of the road as the water main, the meter will be installed within five feet of the water main where practical. If service is desired on the opposite side of the road from the water main, the service line will be run under the road and the meter installed on private property adjacent to the highway right-of-way. A contribution in aid of construction as provided in the Schedule of Rates and Charges must be paid on all new connections to the existing water line. Applications for service connection installation will not be processed if the applicant is indebted to the District on a past due account, bad debt, or in any other fashion whatsoever. Extensions to the District's main lines shall be in accordance with 807 KAR 5:066, Section 12 (2).

3. Billing: Bills will be rendered monthly and shall be paid within fifteen (15) days from the date of the bill at the office of the District. Failure to receive a bill will not release the customer from payment obligations. Bills paid on or before the final date of payment shall be payable at the net amount, but the gross amount shall apply as provided in the schedule of rates and charges. Should the final date for payment of the bill at the net rates fall on a Sunday or holiday, the business day next following the final date will be held as a day of grace for delivery of payment.

4. Discontinuance of Service by the District: The District will send an advance termination notice in accordance with 807 KAR 5:006, Section 14 (1)(f)(2) to all customers of the District who have accumulated arrearages of more than one month's water bill without making payments equal to the current bill plus 10 percent late payment penalty, advising that service will be terminated (by pulling the meter) twenty days after the mailing date of the termination notice. The 10 percent late payment penalty will be assessed only once on any bill.

The advance termination notice will state the amount of accumulated arrearages, the amount of the current bill, the date that the current bill is due, and advising that water service will be terminated 20 days after the mailing date of the notice unless the bill plus arrearages is paid. The district will negotiate partial payment plans as set forth in 807 KAR 5:006, Section 13 (2). If, following the receipt of the termination notice for non-payment but before the actual termination of service, there is delivered to the district the amount of the current bill plus a 10 percent late payment penalty, service shall not be terminated.

RULES AND REGULATIONS

If a residential customer provides a written certification signed by a physician, a registered nurse or a public health official stating that in the opinion of the person making the certification, discontinuance of service will aggravate an existing illness or infirmity on the affected premises, service shall not be discontinued for thirty days beyond the termination date. The District may refuse to grant consecutive extensions for medical certificates past the original thirty days unless the certificate is accompanied by an agreed partial payment plan.

If service is terminated there shall be a reconnect charge of \$50.00 plus a \$40.00 deposit if one has not been paid. The District will not restore service until the customer has complied with all tariffed rules of the District and the rules and regulations of the Kentucky Public Service Commission.

The District will also terminate service for noncompliance with its tariffed rules and regulations, for dangerous conditions, for refusal of access in accordance with 807 KAR 5:006, Section 14.

5. Deposit: A deposit or suitable guarantee equal to approximately twice the average monthly water bill may be required of any customer before water service is supplied. The District may, in accordance with 807 KAR 5:006, Section 7, return the deposit plus any accrued interest to the customer after one year. Upon termination of service, deposit and interest may be applied by the District against any unpaid bills of

the customer, and if any balance remains after such application is made, said balance shall be refunded to the customer.

6. Point of Delivery: The point of delivery is the point where the meter is located on the customer's premises. All water lines, plumbing, and equipment beyond the meter shall be installed and maintained by the customer.

7. Customer's Service Line: All service lines beyond the metering point should be installed of material consisting of copper, galvanized, or PVC pipe with rating of not less than 160 psi. The size of the service line beyond the point of delivery shall be less than 3/4 inch; however, a larger size may be need to provide adequate service. If the customer's point of use is at a higher elevation than the point of delivery, or is at a considerable distance from the meter, the customer should consult with a reputable engineering firm to size the service line from the point of delivery.

RULES AND REGULATIONS

- 8. Right of Access: The customer must agree to permit the District to lay, maintain, repair, or remove such water lines which are the property of the District located on the customer's property with the right of ingress and egress over customer's property. The District's duly authorized representative and/or other duly authorized employee of the State Health Department bearing proper credentials and identification shall be permitted to enter upon all properties for the purpose of inspection, observation, measurement, sampling and testing, in accordance with the provisions of these Rules and Regulations.
- 9. Interruption of service: The District will use reasonable diligence in supplying water service and shall make all reasonable efforts to notify affected customers in the event of a service interruption and approximate time of service restoration.
- 10. Additional Service Volumes: Each service connection has been sized to provide the volume of water indicated in the customer's application for service. Customers should be aware that significant increases in this volume may adversely affect quality of service and could damage facilities used to provide service. The customer is, therefore, obliged to inform the District of any actions that will require a significant increase in this volume and must obtain the District's approval before such actions are taken. Failure to notify the District or to obtain it's approval for such action renders the customer liable for damages to the District facilities that are caused by such actions.
- 11. Notice of Trouble: Customer shall notify the District immediately should the service be unsatisfactory for any reason, or should there be any defects, trouble or accidents affecting the supply of water. Such notices, if verbal, should be confirmed in writing.
- 12. Nonstandard Service: Customer shall pay the cost of any special installation necessary to meet his peculiar requirements for service other than standard service connection.
- 13. Damage to District's Water System: No person shall maliciously, willingly or negligently break, damage, destroy, uncover, deface or tamper with any structure, appurtenance or equipment which is a part of the District's water works. Any person violating this provision shall be subject to discontinuation of water service and shall pay the cost of repairing or replacing the pipe or appurtenances as may be determined by a court of law having jurisdiction.

PUBLIC SERVICE COMMISSION

Allen County Water District

RULES AND REGULATIONS

- 14. Relocation of Water Facilities: District may, at the request of customer, relocate or change existing District-owned equipment. Customer shall reimburse District for such changes at actual cost including appropriate overhead
- 15. Revisions: These Rules and Regulations may be revised, amended, supplemented or otherwise changed from time to time by either of the (2) following methods:
 - a. By order of the Public Service Commission upon formal application by the District, and after hearing as provided by Commission regulations set forth in 807 KAR 5:011, Section 6.
 - b. By issuing and filing on at least twenty (20) days notice to the Commission and the public all proposed changes in the Rules and Regulations, as provided by the Commission regulations set forth in 807 KAR 5:006 (4) and (5) and 807 KAR 5:011, Section 8.
- 16. Conflict: In case of conflict between any provisions of any rate schedule and the schedule of Rules and Regulations, the rate schedule shall apply.
- 17. Bill Adjustment: In conformity with 807 KAR 5:006, Section 9 of Commission regulations, whenever a meter in service is found upon periodic request or complaint test to be more than two percent (2%) fast or two percent (2%) slow, then the customer's bill will be recomputed for the period in which the meter error occurred. If the period in which the meter error existed is unknown, then the bill will be recomputed for one-half (1/2) of the elapsed time since the last previous test, but in no case to exceed twelve (12) months. When a meter is tested and it is found necessary to make a refund or back bill a customer, the customer shall be given written notification of the date, location and results of the test, as well as the amount to be deducted from or added to his regular bill.
- 18. Leak Adjustment: In the event of loss of water through leakage equal to, or greater than one hundred percent (100%) of normal usage, consideration will be given to adjustment of the customer's bill based on the rate per 1,000 gallons for monthly usage over 70,000 gallons and the metered volume in excess of the customer's normal average of the previous three months.
- 19. All extensions to the system's transmission or service mains required to service a private development shall be subject to a Line Extension Agreement executed between the Developer and the Water District.

Original Sheet No. 6, 7, 8

RULES AND REGULATIONS

- 20. Fire Hydrants: The district will contract with fire protection districts, volunteer fire departments, developers and others to install and maintain fire hydrants and supply water for fire protection; provided, however, that (1) such users cannot use pumps to pull water from the hydrants, and (2) use of hydrants be strictly limited to authorized periodic drill purposes and emergency (i.e., fire fighting) use only. The water District will publish annually, its exemption in supplying a water source for fire protection, recognizing hydrants as flushing stations only.

Adoption of policy on Fire Hydrants:

The Allen County Water District, upon setting these hydrants, assures that they are installed and in working condition and the Water District will recognize them as flushing hydrants only and will not certify them to be fire hydrants, as such, because of variance in pressure and volume of water available. And the Water District does not take the responsibility of blow off hydrants being labeled as Fire Hydrants. We will leave that to the individual fire departments for them to certify as the water district is in the business of constructing water mains for the well being of Allen County residents.

Fire Departments are authorized to use for filling water tankers "Only" and should not be hooked directly to pumpers, because of collapsing the line. If, at any time, damage is incurred to the water system, the fire department will be held "solely" and "totally" responsible for "all" expenses incurred in repairing damages.

- 21. Purchased Water Adjustment Clause: The District will implement upon PSC approval a purchased water adjustment designed to recover the increased costs of water purchased due to the fact that the District is not financially able to absorb increased costs from its supplier.

RULES AND REGULATIONS

WATERLINE EXTENSION POLICY

1. Waterline Extension Policy: This policy is for the purpose of outlining procedures and establishing standards for funding/construction of a water line by a group of private citizens that will be dedicated to the Water District for operation and maintenance.
2. Sponsors: The group sponsoring a waterline extension project will select a Project Coordinator(s) who will represent the group during construction.
3. Funding: Funding for construction of a waterline extension is the responsibility of the group sponsoring the project. Funding for the waterline extension will be complete and funds in the amount of the estimated cost will be deposited in a separate and distinct bank account prior to start of construction.
4. Plans and Specifications: Plans and specifications will be prepared by a qualified, registered engineer. Materials for, and installation of the line to conform with specifications of the plan as approved.
5. Materials: Materials for the Project to be procured by/through the ACWD and billed to the Project Coordinator(s). Billings are due and payable upon presentation.
6. Restoration: Disturbed areas will be restored after completion of the Project. A reasonable delay is required in order to allow the ground to settle. One or two heavy rains are necessary to compact the soil. Disturbed areas will be restored by leveling, raking, seeding and covering with straw as/where required.
7. Project Development: The ACWD will provide assistance which includes but is not limited to:
 - a. Coordination with a qualified engineer for preparation of plans and specifications.
 - b. Coordination with the County Government concerning use of County personnel and equipment during construction of the Project.
 - c. Right-of-way easements as/where required.

- d. Arrange for pressure testing and sterilization of the line after completion.
- e. Installation of individual water service connections.
- f. The ACWD reserves the right of final determination concerning location of the distribution line and service connections.
- 8. **Cost Estimate:** The ACWD, with an engineer's assistance, shall prepare a materials list and cost estimate (exclusive of the meter connection). The ACWD will pay labor, fuel, provide equipment and incidental construction costs. The ACWD contribution in the form of construction costs will be considered equal to or greater than the cost of 50 feet of water main for each applicant for service. Cost of materials, based on the best available estimate, shall be contributed equally by those applicants desiring service on the water main extensions. Each applicant will also be required to pay the ACWD's approved "Tap-on-fee" for a meter connection to the main extension. (Subject to the provisions of paragraph 9 below).
- 9. The ACWD approved residential service connection charge is \$400.00. Each sponsor shall receive a credit of \$200.00 toward cost of the waterline extension for one (1) to three (3) service connections. Additional connections to be at the approved rate. Credit will also be given for deposits made to the ACWD during previous sign-up campaigns. A sponsor who elects to delay installation of his individual service(s) will receive service under the above conditions upon request. Applicants who wait until funding is complete and/or construction has started may be required to pay the full approved "Tap-on-fee" for a service connection.
- 10. In accordance with 807 KAR 5:066, Section 12 (4), for a period of five (5) years after the original construction of the main extension, each additional customer directly connected to each particular extension will be required to contribute to the cost of that water main extension based on a recomputation of both the ACWD's portion of the total cost and each customer's contribution as set out above. The ACWD will refund to those customers that have previously contributed to the cost of each main extension itself that amount necessary to reduce their contribution to the currently calculated amount for each customer connected to that extension. All customers directly connected to each main extension for a five (5) year period after it is placed in service are to contribute

equally to cost of construction of the water main extension itself. In addition each customer must pay the approved "Tap-on-fee" applicable at the time of their application for the meter connection. The "Tap-on-fee" is not a part of the refundable cost of the extension and may be changed during the refund period. After the five (5) year refund period expires, any additional customer applying for service on each main extension will be connected for the amount of the approved "Tap-on-fee" only. For the next five (5) year period, customers sharing the cost of the original extension will receive a rebate of the average cost of fifty (50) feet of line for each new customer connected directly to the water main. However, not to exceed actual cost of the line, in accordance with 807 KAR 5:066, Section 12 (b).

- 11. Upon completion and acceptance by the ACWD for operation and maintenance, the water line becomes the property of the ACWD and will be operated in accordance with Rules and Regulations of the ACWD as approved and applicable Kentucky Statutes and Regulations.

SCHEDULE OF SPECIAL SERVICE CHARGES

The following charges for special services shall be made:

1. Service Reconnection Charge: A charge of \$50.00 shall be made for all service reconnections made during regular working hours. If service is reconnected other than during regular working hours, the charge shall be \$62.00.
2. Meter Reading Recheck Charge: A charge of \$30.00 shall be made for a trip to recheck a meter reading when the customer requests the meter to be rechecked for a correct reading and the meter was not misread.
3. Meter Test at Customer's Request: Upon request and payment of \$45.00 a customer may have his meter tested provided request by the customer is not more frequent than once each twelve months. If such test shows the meter to be more than two percent fast, a refund of the \$45.00 charge shall be made and the bill adjusted accordingly.
- Meter Test due to Customer's Complaint: Any customer of the District may request a meter test by written application to the Public Service Commission.
5. Service Investigation Charge: A charge of \$30.00 per trip shall be made for service investigation during regular working hours if interruption of service is not caused by failure of District's facilities. The charge for investigation after working hours will be \$42.00 per trip. Any maintenance and repair of facilities beyond the District's delivery point is the responsibility of the customer.

CLASSIFICATION OF SERVICE

RAT.
PER U

DEPOSITS

The Company may require a minimum cash deposit or other guaranty to secure payment of bills except for customers qualifying for service reconnection pursuant to 807 KAR 5:006, Section 15, Winter Hardship Reconnection. Service may be refused or discontinued for failure to pay the requested deposit. Interest, as prescribed by KRS 278.460,¹ will be paid annually either by refund or credit to the customer's bill, except that no refund or credit will be made if the customer's bill is delinquent on the anniversary date of the deposit.

The deposit may be waived upon a customer's showing of satisfactory credit or payment history, and required deposits will be returned after one (1) year if the customer has established a satisfactory payment record for that period. If a deposit has been waived or returned and the customer fails to maintain a satisfactory payment record, a deposit may then be required. The Company may require a deposit in addition to the initial deposit if the customer's classification of service changes or if there is a substantial change in usage. Upon termination of service, the deposit, any principal amounts, and any interest earned and owing will be credited to the final bill with any remainder refunded to the customer.

In determining whether a deposit will be required or waived, the following criteria will be considered:

1. Previous payment history with the Company. If the customer has no previous history with the Company, statements from other utilities, banks, etc. may be presented by the customer as evidence of good credit.
2. Whether the customer has an established income or line of credit.
3. Length of time the customer has resided or been located in the area.
4. Whether the customer owns property in the area.
5. Whether the customer has filed bankruptcy proceedings within the last seven years.
6. Whether another customer with a good payment history is willing to sign as a guarantor for an amount equal to the required deposit.

If a deposit is held longer than 18 months, the deposit will be recalculated at the customer's request based on the customer's actual usage. If the deposit on account differs from the recalculated amount by more than \$10.00 for a residential customer or 10 percent for a non-residential customer, the Company may collect any underpayment and shall refund any overpayment by check or credit to the customer's bill. No refund will be made if the customer's bill is delinquent at the time of the recalculation.

¹ Water districts should substitute KRS 74.050 and water associations should substitute KRS 273.392 since these statutes govern the rate of interest to be paid by water districts and associations.

Equal Deposits

All
(Insert above: Business/Commercial or residential or all) Customers will pay equal deposits in the amount of \$ 40.00. This amount does not exceed the average bill of residential customers served by the Company and is equal to 2/12 of the average annual bill. [3/12 where bills are rendered bimonthly or 4/12 where bills are rendered quarterly.]

MONITORING OF CUSTOMER USAGE

At least once annually the Company will monitor the usage of each customer according to the following procedure:

1. The customer's annual usage for the most recent 12-month period will be compared with the annual usage for the 12 months immediately preceding that period.
2. If the annual usage for the two periods are substantially the same or if any difference is known to be attributed to unique circumstances, such as unusual weather conditions, common to a number of customers, no further review will be done.
3. If the annual usages differ by 50% percent or more and cannot be attributed to a readily identified common cause, the Company will compare the customer's monthly usage records for the 12-month period with the monthly usage for the same months of the preceding year.
4. If the cause for the usage deviation cannot be determined from an analysis of the customer's meter reading and billing records, the Company will contact the customer by telephone or in writing to determine whether there have been changes such as different number of household members or work staff, additional different appliances, changes in business volume, or known leakage in the customer's service line.
5. Where the deviation is not otherwise explained, the Company will test the customer's meter to determine whether it shows an average error greater than 2 percent fast or slow.
6. The Company will notify the customers of the investigation, findings, and any refunds or backbilling in accordance with KAR 5:006, Section 10(4) and (5).

In addition to the annual monitoring, the Company will immediately investigate usage deviations brought to its attention as a result of on-going meter reading or billing processes or customer inquiries.
