Hardin County Water District No. 1  
(NAME OF UTILITY)

**KENTUCKY PUBLIC  
SERVICE COMMISSION**

FOR Entire Area Served

PSC KY NO. 1

Sixth Revision SHEET NO. 7

CANCELLING PSC KY NO. 1

Fifth Revision SHEET NO. 7

CLASSIFICATION OF SERVICE:  
METER CONNECTION FEES

**A. The following rules and policies apply to all Meter Connections:**

- ~~1. All meters and related materials must be approved by the District and in accordance with the District Standard Construction Specifications as approved by the Kentucky Division of Water, approval dated September 12, 1994 or revised approvals of later date (D)~~
- 1. In accordance with Kentucky Revised Statutes chapter 318.165, a permanent water supply and meter cannot be sold or installed until the building's interior plumbing has been installed and inspected according to State Plumbing Codes, The District is required to obtain proof of plumbing permit, when required, before installing a new water connection
- 2. The location of the meter will be at a location on or near the street right of way or property line most accessible to the District's water main. When selecting a location, access to and efficiency of reading of meters shall be considered before the property owners preference
- 3. New water taps will be installed only for properties which adjoin an existing District water main. Taps will not be installed where the customers water service line must travel across or in front of other private property to reach the water main Meters will not be installed on private property but must be located in a utility easement or public right of way
- 4. Additional taps to the same property may require payment of additional Meter Connection Fees, depending on what materials are required
- 5. Where existing vaults or other equipment can be re-used at an address, the District may choose to reduce the published Meter Connection Fees by the value of the materials that would not be needed
- 6. If an applicant changes the finished grade around an already installed meter installation, that applicant will be required to pay additional labor and equipment charges if the meter must be raised or adjusted after the initial Installation
- 7. Meter installations must be installed individually for each dwelling unit and each property with a separate deed or legal parcel
- 8. All costs related to installing a service line from the meter to the building shall be paid by applicant and the service line installation must meet all applicable state and local building codes
- 9. The District reserves the right to deny service or meter activation if a cross connection exists on the property between the public water supply and a suspect or untreated water source.
