**SECTION 17.0: FREE WATER TO FIRE DEPARTMENTS**

Upon written request by a fire department, the District may grant free use of water to any city, county or volunteer fire department for the purpose of fighting fires within the District's territory or for training firefighters. As a condition for receiving free water, the fire department shall estimate the amount of the water used for fire protection and for training, shall maintain written records of such usage, and shall report this usage to the District on a quarterly basis. A fire department shall not use this free water to wash vehicles, to fill swimming pools, to irrigate gardens or tobacco patches, or for other domestic uses. If a fire department fails to timely report its estimated water usage for two (2) consecutive quarters, then the District may suspend the fire department's privilege of using water from the District's fire hydrants for any purpose other than actually fighting fires.
