extension (exclusive of the meter connection) and the total length of the extension. The Association shall pay that portion of the cost of the water main extension equal to 50 feet for each applicant for the service. That part of the cost not covered by the Association's portion shall be contributed equally by those applicants desiring service on the main extension. Each applicant will also be required to pay the Association's approved "Tap-on-fee" for a meter connection to the main extension.

In addition each customer must pay the approved "Tap-on-fee" applicable at the time of their application for the meter connection. The "Tap-on-fee" is not part of the refundable cost of the extension and may be changed during the refund period. After the five-year refund period expires, any additional customer applying for service on each main extension must be connected for the amount of the

WATER USERS AGREEMENT

This agreement entered into between the HARRISON COUNTY WATER ASSOCIATION, INC. a non-profit corporation, hereinafter called the "Association" and _____ a member of the Association, hereinafter called the "Member."

WITNESSETH

WHEREAS, the Member desires to purchase water from the Association and to enter into a water users agreement as required by the By-laws of the Association.

NOW THEREFORE, in consideration of the mutual covenants, promises, and agreements herein contained, it is hereby understood and agreed:

The Association shall furnish, subject to the limitation set out in its By-laws and Rules and Regulations now in force or as hereafter amended, such quantity of water as Member may desire in connection with Member's occupancy of the following described property:

NOTE: Enter a general description of the property's location. Laffery Pk. one mile north of Granger Lane.

The member shall install and maintain at his own expense a service line which shall begin at the water meter and extend to the dwelling or place of use.

The Member agrees to comply with and be bound by the Articles, By-laws, Rules and Regulation of the Association, now in force, or as hereinafter duly and legally supplemented, amended or changed. The Member also agrees to pay for water at such rates, time and place as shall be determined by the Association, and agrees to the imposition of such penalties for non-payment as are now set out in the Association's By laws and Rules and Regulations, or which may be hereafter adopted and imposed by the Association.

The Association shall purchase and install a cutoff valve and a water meter in each residential service. The Association shall have exclusive right to use such cutoff valve and water meter. The association shall have final authority in any question of location of any service line connection to its distribution system; shall determine the allocation of water to Members in the event of a water shortage; and may shut off water to a Member who allows a connection or extension to be made of his service line for the purpose of giving or selling water to another user. In the event the total water supply shall be insufficient to meet all of the needs of the Members, or in the event there is a shortage of water, the Association may prorate the available water among the various Members on such basis as is deemed equitable by the Board of Directors, and may also prescribe a schedule of hours covering use of water for garden purposes by particular members and require adherence thereto or prohibit the use of water for

garden purposes; provided that, if at any time the total water supply shall be insufficient to meet all of the needs of all of the Members, the Association must first satisfy the needs of all Members for domestic purposes before supplying any water for livestock purposes and must satisfy the needs of all Members for both domestic and livestock purposes before applying any water for garden purposes.

The Member agrees that no other present or future source of water will be connected to any water lines served by the Association's water lines and will disconnect from his present water supply prior to connecting to and switching to the Association's system and shall eliminate their present or future cross-connections in his system. This would not prohibit the Member from maintaining and using a completely separate auxiliary private water system.

The Member shall connect his service lines to the Association's distribution system and shall begin to use water from the system on the date the water is made available to the Member by the Association. Water charges to the Member shall commence on the date service is made available, regardless of whether the Member connects to the system.

2. In the event it becomes necessary for the Association to shut off the water from a Member's property, a fee of \$25.00 will be charged for a reconnect of the service.
