FIRE HYDRANTS

The District's system is designed for rural domestic consumption. The District will allow fire hydrants for public fire protection to be installed on 6 inch lines or greater at such locations where fire protection can be adequately provided without reduction or impairment of water service for rural domestic consumption. Fire hydrants for public fire protection shall be located within a public right of way or within 50 ft. of a public road. The location of fire hydrants shall be approved by the engineer for the water district and all appropriate state and federal agencies to assure adequate fire protection and no impairment to rural domestic service. Any person, developer, group of persons, private corporation, or public agency requesting public fire hydrants shall be responsible for the cost of installation, materials, engineering, and other related expenses.

FIRE PROTECTION SERVICE

TYPE OF SERVICE: Fire Hydrants located on private property for the sole use of the private land owner.

APPLICABLE: 1-1/2 miles east and west of the centerline of U.S. Highway 27 from north city limits of Nicholasville, Kentucky, north to the Fayette County line.

AVAILABILITY OF SERVICE: This service is limited to 6 inch lines or greater as determined to be adequate for this service by the District and all approvals of State Fire Marshall, Kentucky Department of Natural Resources and Environmental Protection and any applicable agency will be required before installation is finally approved.

RULES AND REGULATIONS

This schedule of rules and regulations governs the furnishing of water service by the Jessamine County Water District No. 1 hereinafter referred to as the District and applies to all service received from the District. No employee or individual commissioner of the District is permitted to make an exception to Rates, Rules and Regulations. All rules and regulations are to be in effect so long as they are not in conflict with Public Service Commission Rules and Regulations. The District is further subject to all Rules and Regulations of the Commission even though not contained herein.

1. SCOPE

This schedule of Rules and Regulations is a part of all contracts for receiving water service from the District, and applies to all service received from the District. A copy of this schedule, together with a copy of the District's schedule of rates and charges shall be kept open for inspection at the office of the District.

2. PROVISIONS

These Rules and Regulations may be revised, amended, supplemented, or otherwise changed from time to time by either of the two (2) following methods:

- A. By order of the Public Service Commission upon formal application by the District, and after hearing, as provided by Commission Regulations set forth in 807 KAR 5:011E.
- B. By issuing and filing on at least twenty (20) days notice to the Commission and the public all proposed changes in the Rules and Regulations, as provided by Commission regulations set forth in 807 KAR 5:011E.

3. CONFLICT

In case of conflict between any provisions of any rate schedule and the schedule of Rules and Regulations, the rate schedule shall apply. Also, should the rules contained herein conflict with the present rules in effect under 807 KAR 5 as of this date, same shall take precedence over those contained herein.

RULES AND REGULATIONS

4. APPLICATION FOR SERVICE

Any person, firm, agency or governmental entity within the current boundary of the District may request service. Said request must be in writing of for approved by the District.

No service requested shall be granted unless the property of said applicant is adjacent and contiguous to an existing distribution main of the District. Should the applicant desire to have the existing distribution system extended to serve him, same shall be accomplished as stipulated hereafter.

Should the District determine that service to a requestor is available, each prospective customer desiring water service shall be required to execute and sign the District's application for water service before service is supplied by the District. A 5/8" x 3/4" meter shall be the standard customer service meter and should be installed at all points of service unless the customer provides sufficient justification for the installation of a larger meter.

NON-STANDARD SERVICE

Each prospective customer requiring a non-standard (i.e. other than a 5/8" x 3/4") meter shall present to the District sufficient justification for same.

Insofar as prospective customer requirement may meet those non-standard services presently in effect by District, same may be applied. However, it is hereby adopted that distance from distribution main to meter shall be a maximum of five (5) feet. If the distance is greater than five (5) feet, the customer shall be required to pay the cost of installing the pipe for the additional distance as a contribution in aid of construction.

In addition the prospective customer shall pay the cost of any special installation necessary to meet his particular requirements as a contribution in aid of construction.

RULES AND REGULATIONS

6. POINT OF DELIVERY

The point of delivery is the point where the meter or appurtenance is located on the customer's premises. All water lines, plumbing and equipment beyond the meter shall be installed and maintained by the customer at his own expense in a safe and efficient manner and in accordance with the District's Rules and Regulations, and with the regulations of the Department of Health. The District reserves the right to determine the location of point of delivery with full regard to the wishes of the prospective customers.

7. OWNERSHIP OF MAINS, SERVICES AND APPURTENANCES

All mains, valves, crossings and other appurtenances are and shall remain the property of the District, whether installed directly by it or received through actions of a customer or developer.

The customer shall install, own and maintain his service line from meter and/or point of delivery as defined heretofore.

8. DISCONTINUANCE OF SERVICE BY DISTRICT

Water service may be discontinued by the District for violation of any rule, regulation, or condition, and especially for any of the following reasons:

- A. Misrepresentation in the application or contract as to the property or fixtures to be supplied or additional use to be made of water.
- B. Failure to report to the District additions to the property or fixtures to be supplied or additional use to be made of water.
- C. Resale of water or giving away of water.
- D. Waste or misuse of water due to improper or imperfect service pipes and/or failure to keep such pipes in a **PUBLIC SERVICE COMMISSION OF KENTUCKY** state of repair.
- E. Tampering with meter, meter seal, service or valves, or permitting such to be tampered with by others.
- F. Connection, cross-connection, or permitting the same, of any separate water supply to premises which receive water from the District, **SECTION 9(1)**
- G. Non-payment of bills.

Original Sheet No. 2

Jessamine County Water District No. 1

RULES AND REGULATIONS

H. When a dangerous condition is found to exist on the customer's or applicant's premises, with reference to the continuation of water service, water service shall be cut off without notice or shall be refused, provided the District shall notify the customer or applicant immediately of the reasons for the discontinuance or refusal and the corrective action to be taken by the applicant or customer before service can be restored.

9. BILLING

Bills and notices relating to the conduct of the business of the District will be mailed to the customer at the address listed on the user's agreement unless a change of address has been filed in writing with the District, and the District shall not otherwise be responsible for delivery of any bill or notice nor will the customer be excused from the payment of any bill or any performance required in said notice.

Bills for water service are due and payable at the office of the District, or to any designated agent, on the date of issue. The past due date shall be the tenth (10th) day after the date of issue. Bills will be dated and mailed on the last day of each month.

All bills not paid by the tenth (10th) of the next month shall be deemed delinquent. When a bill becomes delinquent, the District shall serve a customer a written notice of delinquency, and of the intent of the District to discontinue service ten (10) days after date of such notice unless such bill is paid prior to the expiration of the ten (10) days. If a delinquent bill is not paid within ten days after date of such final notice, the water supply to the customer may be discontinued without further notice; provided, however, if, prior to discontinuance of service, there is delivered to the District, or to its employee empowered to discontinue service, a written certificate signed by a physician, a registered nurse, or a public health officer, that, in the opinion of the certifier, discontinuance of service will aggravate an existing illness or infirmity on the affected premises, service shall not be discontinued until the affected resident can make other living arrangements or until ten (10) days elapse from the time of the District's receipt of said certification, whichever occurs first.

A penalty of ten percent (10%) of the amount of the bill owed shall be levied and payable by the customer on all bills not paid within ten (10) days from the date of issue.

3/82

RULES AND REGULATIONS

A \$5.00 charge shall be levied and paid by the customer to the District on each check of the customer "returned" by the bank for whatever reason.

10. RECONNECTION FEE

Where the water supply to the customer has been discontinued for non-payment of delinquent bills, a charge of \$20.00 will be made for reconnection of water service unless service is restored after office hours in which case the charge shall be \$25.00. No reconnection will be made until all delinquent bills and other charges, if any, owed by the customer for water service, have been paid in full to the District.

11. DISCONTINUANCE OF SERVICE BY CUSTOMERS

Any customer having fulfilled his contract terms and desiring to discontinue service to his premises for any reason must give notice of discontinuance in writing or person at the business office of the District at least three (3) days prior to the date on which the customer desires to discontinue service. If such notice in writing or person is not given, a customer shall remain liable for all water used and service rendered to such premises by the District until such notice is received by the District.

12. DEPOSIT

~~The District reserves the right to require that a nominal amount be placed on deposit with the District for the purpose of establishing or maintaining any customer's credit, such amount not to exceed two (2) times the estimated annual bill of such customer. Upon the payment of such deposit, the District shall issue to such customer a certificate of deposit, in the name of the customer, the location of the initial premises occupied by the customer, and the date and amount of the deposit. The District will pay to such customer interest on such deposit at the rate of six percent (6%) per annum, until such deposit is reimbursed to the customer.~~

SECTION 9 (1)**

BY: Jordan C Noel

13. ADJUSTMENT RELATIVE TO ERRONEOUS METER

Whenever a meter in service is found upon periodic test, or complaint test, to be more than two percent (2%) fast or slow, additional tests shall be made at once to determine the average error of the meter. Said test shall be made in accordance with the Commission's regulation applicable to the type of meter involved. Adjustments shall be made to the customer's water bill as follows:

DATE OF ISSUE January 10, 1984
Month Day Year

DATE EFFECTIVE February 1, 1984
Month Day Year

ISSUED BY William N Cantel Chairman 200 Vinewood Drive, Nicholasville, KY

C 3/02

P.S.C. Ky. No. 2

Original Sheet No. 8

Cancelling P.S.C. Ky. No. 1

Original Sheet No. 2

Jessamine County Water District No. 1

RULES AND REGULATIONS

- A. If the result of tests on a customer's meter shows an average error greater than two percent (2%) fast, the customer's bills, for the period during which the meter error is known to have existed, shall be recomputed and the account adjusted on the basis of the test. In the event the period during which the meter error existed is unknown, then the customer's bill shall be recomputed for one-half (1/2) of the elapsed time since the last previous test, but in no case to exceed twelve (12) months. (See exception in (D) of this section.)
- B. If the result of tests on a customer's meter shows an average error greater than two percent (2%) slow, then the customer's bills, for period during which the meter error is known to have existed, may be recomputed and the account adjusted on the basis of the test. In the event the period is unknown, the customer's bill may be recomputed for one-half (1/2) of the elapsed time since the last previous test, but in no case to exceed twelve (12) months.
- C. It shall be understood that when a meter is found to have an error in excess of two percent (2%) fast or slow, the figure for calculating the amount of refund or the amount to be collected by the utility shall be that percentage of error as determined by the test; i. e., it is the duty of the District to maintain the accuracy of its measuring devices as nearly 100% as is commercially practicable. Therefore, percent error shall be that difference as between 100 percent and that amount of error as is indicated by the test.
- D. The burden of maintaining measuring equipment so that it will register accurately is upon the District; therefore, if meters are found upon test to register fast and if time for periodic test has overrun to the extent that one-half (1/2) of the time elapsed since the last previous test exceeds twelve (12) months, the refund shall be for the twelve (12) months as specified in (A) above, and in addition thereto, a like refund for those months exceeding the periodic test period, provided, however, that the Commission may relieve the District from this requirement in any particular case in which it is shown that the failure to make the periodic test was due to causes beyond the District's control.
- E. The District shall make a reasonable attempt to determine if the amount of consumption for the current billing period for each customer is unduly excessive. If a comparison of consumption indicates a necessity therefor, a test of the customer's meter shall be made, and

RULES AND REGULATIONS

if the meter is found to register incorrectly to the customer's prejudice more than two percent (2), the District shall recalculate the customer's bill accordance with the foregoing provisions.

F. When a meter is tested and it is found necessary to make a refund or back bill a customer, the customer shall be notified in writing of the date of installation, the meter identification number, the date of testing and the percentage of error, and the amount of charge or credit due.

G. When a meter has ceased to register or meter reading could not be obtained, the quantity of water consumed will be based upon an average of the prior six (6) months consumption and the conditions of water service prevailing during the period in which the meter failed to register.

14. INTERRUPTION OF SERVICE

The District shall make all reasonable efforts to eliminate interruption of service and, when such interruptions occur, will endeavor to reestablish service with the shortest possible delay. When service is interrupted all consumers affected by such interruption will be notified in advance whenever it is possible to do so.

The District shall in no event be held responsible for any claim against it by reason of the breakage of any mains or service pipes or by reason of any interruption of the supply of water caused by the failure of equipment or stoppage for necessary repairs, or by reason of excessive or inadequate water pressure. No person shall be entitled to damages nor for any portion of a payment refunded for any interruption of service which in the opinion of the District may be deemed necessary.

The District's system is designed for rural domestic consumption. Fire protection by fire hydrants may be permitted on 6 inch lines or greater at such locations where fire protection can be adequately provided without reduction or impairment of water service for rural domestic consumption. The location of fire hydrants shall be approved by the engineer for the water district and all appropriate federal agencies to assure adequate fire protection and no impairment to rural domestic water service.

valve on the steam line to prevent collapse in case the water supply from the District is discontinued or interrupted for any reason, with or without notice.

16. BACKFLOW PREVENTORS

All services shall have a means of backflow prevention, such type and location subject to approval of District. The District's standard service shall provide backflow prevention as a part of its service connection.

17. CROSS-CONNECTIONS

Cross connections of the District's system with any other source is hereby prohibited.

18. RIGHTS OF ACCESS

The customer shall convey, or cause to be conveyed, a perpetual easement and right-of-way to the District across any property owned or controlled by the customer whenever said easement or right-of-way is necessary for the District to furnish water service to the customer.

The premises receiving a supply of water and all service lines, meters and fixtures, including any fixtures within said premises, shall at all reasonable hours be subject to inspection by the District.

Piping on the premises of a customer must be so installed that connections are conveniently located with respect to the District lines and mains. The customer shall provide a place for metering which is unobstructed at all times.

19. DAMAGE TO DISTRICT'S PROPERTY

No person shall break, damage, destroy, uncover, deface, tamper with or otherwise alter any structure, appurtenance, equipment or other property belonging to the District. Any person violating this provision shall be subject to immediate arrest and/or discontinuation of water service and shall pay all costs of repairing or replacing the property including but not limited to all overhead expenses.

RULES AND REGULATIONS

Any person, farm or organization working around or near the District's distribution mains, appurtenances, or other property may request the District to indicate the location of same. However, location by District does not relieve such person of complete responsibility and liability for any and all damages, liability and loss to the District's property resulting from any act of such person or his assigns and/or agents.

Any damage or injury to persons or property caused by or resulting from the acts of the customer or any other individual in relation to the District's property shall be paid by the customer or other individual including but not limited to all loss, costs and expenses, including attorneys' fees and court costs. Said customer or other individual shall indemnify the District from all loss, cost and expense, including but not limited to attorneys' fees and court costs, resulting from or caused by the aforementioned acts.

20. COMPLAINTS

Complaints may be made to the operator of the system whose decisions may be appealed to the Board of Commissioners within 10 days; otherwise the operator's decision will be final.

21. EXTENSIONS

Any person desiring an extension to the District's system shall request in writing for such extension. Any requested extension may be provided under one of the following options:

PUBLIC SERVICE COMMISSION
OF KENTUCKY
EFFECTIVE

- A. District shall construct extension under authority and procedure as stipulated in Public Service Commission Regulation 807 KAR 5:066E, Section 12. Any extension made under this option shall be subject to refund as outlined in said regulation.
- B. Applicant may construct and donate to District, as a Contribution in Aid of Construction, the extension, meeting all District's specifications and approval. District reserves the right to stipulate applicable engineering, legal and administrative factors. Applicant shall pay all cost of District as a Contribution in Aid of Construction. Any extension made under this option shall not be eligible for refund.

1984
PURSUANT TO 807 KAR 5:011, SECTION 9(1)
BY: Jordan C. Neal

The applicant or group of applicants shall have the right to elect the option by which said extension shall be made. In either case, applicant must execute a contract and agreement for line extension of form approved by District.

RULES AND REGULATIONS

Extender Applicant is hereby notified that regardless of option selected all other rules, rates and schedules of fees applicable to size and type of service requested shall be paid in addition to cost of extension.

All taps and connections to the extended line shall be made by and/or under the direction and supervision of District personnel.

22. SALE OF WATER

Water furnished by the District may be used for domestic consumption by the customer's household, farm or business. The customer shall not sell, donate, give away or allow use of such water by anyone other than members of his household, farm or business.

23. Irrigation of crops is prohibited.

24. Multiple Units and Trailer Courts

Water Service for multiple units and trailer courts shall be determined by the larger of the following:

- (1) The number of housing units times the minimum water charge per unit based on a 3/4" meter minimum charge, or
- (2) An amount based upon the actual amount of water used, and this amount shall be determined by figuring the average gallons used per housing unit, based upon the actual total gallons used in the development, and applying the existing rate schedule to this average usage to produce an average bill per unit. The total bill per unit times the total number of housing units in the development.

RULES AND REGULATIONS

25. BLOW-OFF HYDRANTS AND FIRE HYDRANTS

Most hydrants installed on the distribution lines of this water district are for the primary purpose of flushing the lines, or other uses by the district as necessary for proper maintenance of the lines. Thus, they are blow-off hydrants and not fire hydrants while the secondary purpose might be to assist fire protection units in the performance of their duties, the Jessamine County Water District No. 1 is not responsible for, nor does it guarantee, any minimum pressure at these hydrants, other than the minimum pressure required by the Public Service Commission for distribution lines unless there is an emergency from the water supplier in which case the Association shall see that minimum pressure is restored as soon as possible. Any damage to the distribution lines, resulting from excessive pumping pressure applied by any fire fighting unit will be the liability of that unit. These hydrants, while of fire hydrant size, cannot be guaranteed at any pressure level other than the minimum required by the Public Service Commission. Any damages to these distribution lines resulting from excessive pumping pressure applied by a fire fighting unit shall be the liability of that unit.

On and after the effective date of this tariff, no hydrants will be installed if certification of a minimum 250 gpm for a 2-hour period at 20 psig residual pressure system wide cannot be obtained. A blow-off valve will be installed instead of a hydrant.

26. LEAK ADJUSTMENT

A customer may request a one per lifetime leak adjustment for catastrophic hidden leaks under the following conditions:

1. A hidden leak is one which cannot be seen in the normal use by the customer and cannot cover more than 2 billing periods.
2. Written request must be made to the District and verification of repairs must be made within a reasonable time before any adjustments may be made. District must be made aware of the leak before repairs are made.
3. Bills will be adjusted as follows: Bills will be averaged over previous 6 month period or same 6 month period of previous year, whichever is larger. An average 6 month usage will be used for the current month's bill at regular rates or two months bill if leak occurs over two months. Balance will be billed at wholesale price that District pays its supplier plus 10% to cover administrative costs.
4. Customer understands this is a one life-time adjustment and does not cover loss due to negligence such as hydrants, etc. left running.
5. Any unusual large usage of water due to breaks must be reported to District at time of loss.

CLASSIFICATION OF SERVICE

RATE
 PER UNIT

DEPOSITS

The Company may require a minimum cash deposit or other guaranty to secure payment of bills.

Service may be refused or discontinued for failure to pay the requested deposit. Interest, as prescribed by KRS 278.460,¹ will be paid annually either by refund or credit to the customer's bill, except that no refund or credit will be made if the customer's bill is delinquent on the anniversary date of the deposit.

The deposit may be waived upon a customer's showing of satisfactory credit or payment history, and required deposits will be returned after one (1) year if the customer has established a satisfactory payment record for that period. If a deposit has been waived or returned and the customer fails to maintain a satisfactory payment record, a deposit may then be required. The Company may require a deposit in addition to the initial deposit if the customer's classification of service changes or if there is a substantial change in usage. Upon termination of service, the deposit, any principal amounts, and any interest earned and owing will be credited to the final bill with any remainder refunded to the customer.

In determining whether a deposit will be required or waived, the following criteria will be considered:

1. Previous payment history with the Company. If the customer has no previous history with the Company, statements from other utilities, banks, etc. may be presented by the customer as evidence of good credit.
2. Whether the customer has an established income or line of credit.
3. Length of time the customer has resided or been located in the area.
4. Whether the customer owns property in the area.
5. Whether the customer has filed bankruptcy proceedings within the last seven years.
6. Whether another customer with a good payment history is willing to sign as a guarantor for an amount equal to the required deposit.

If a deposit is held longer than 18 months, the deposit will be recalculated at the customer's request based on the customer's actual usage. If the deposit on account differs from the recalculated amount by more than \$10.00 for a residential customer or 10 percent for a non-residential customer, the Company may collect any underpayment and shall refund any overpayment by check or credit to the customer's bill. No refund will be made if the customer's bill is delinquent at the time of the recalculation.

¹ Water districts should substitute KRS 74.050 and water associations should substitute KRS 273.392 since these statutes govern the rate of interest to be paid by water districts and associations.

MONITORING OF CUSTOMER USAGE

At least once annually the Company will monitor the usage of each customer according to the following procedure:

1. The customer's annual usage for the most recent 12-month period will be compared with the annual usage for the 12 months immediately preceding that period.
2. If the annual usage for the two periods are substantially the same or if any difference is known to be attributed to unique circumstances, such as unusual weather conditions, common to a number of customers, no further review will be done.
3. If the annual usages differ by 150 percent or more and cannot be attributed to a readily identified common cause, the Company will compare the customer's monthly usage records for the 12-month period with the monthly usage for the same months of the preceding year.
4. If the cause for the usage deviation cannot be determined from an analysis of the customer's meter reading and billing records, the Company will contact the customer by telephone or in writing to determine whether there have been changes such as different number of household members or work staff, additional different appliances, changes in business volume, or known load in the customer's service line.
5. Where the deviation is not otherwise explained, the Company will test the customer's meter to determine whether it shows an average error greater than 2 percent fast or slow.
6. The Company will notify the customers of the investigation, findings, and any refunds or backbilling in accordance with KAR 5:006, Section 10(4) and (5).

In addition to the annual monitoring, the Company will immediately investigate usage deviations brought to the attention as a result of on-going meter reading or billing processes or customer inquiry.

in Case No. _____ dated _____

C3/102

CONTRACT FOR USE OF DETECTOR CHECK VALVES

THIS AGREEMENT made and entered on this the _____ day of _____, 19_____, by and between _____, its successors and assigns, hereinafter referred to as "Customer" and the Jessamine County Water District No. 1, its successors and assigns, of Jessamine County, Kentucky, hereinafter referred to as "District".

WHEREAS, the Customer is the owner of certain real property which is situated within an area to be provided with water service by the District, and

WHEREAS, the customer intends to install, own and maintain a fire protection system to be supplied water by the District's system, and

WHEREAS, it is the policy of the District to meter or otherwise monitor flows from all connections to its system.

WITNESSETH: The Customer in consideration of permission hereby granted by the District for the Customer to connect said fire protection system to a detector check valve installed by the District, the Customer does hereby covenant and agree with the District as follows:

1. The complete detector check valve installation, including the check valve, the water line connecting said check valve and the District's system, the valve pit or box and all related appurtenances to the point of the Customer's connection to said installation shall be owned and maintained by the District.
 2. The design of said installation shall be approved by the District.
 3. The cost of construction of said detector check valve installation shall be paid by the Customer on the basis of actual cost to the District.
 4. No connections shall be made to the Customer's fire protection system for any purpose other than fire protection.
 5. The Customer shall pay the District for all water used from the fire protection system. Prior to making fire flow tests or other anticipated water use from the fire protection system the Customer shall give the District 24 hours notice so that a representative of the District can be present at the time of such water usage to estimate the quantity of water used. Should water be discharged from the fire protection system accidentally or because of an actual fire, the District shall be notified within 48 hours after such an event so that an estimate of the quantity of water used can be made.
- Water used from the fire protection system shall be paid for according to the District's standard rate schedule or any future schedules of the District as approved by the Public Service Commission of Kentucky.
6. The customer shall pay minimum bills for a one inch meter as set forth in the standard rate schedule of the District as approved by the Public Service Commission of Kentucky.

EFFECTIVE

SEP 15 1987

PURSUANT TO 807 KAR 5:011,
SECTION 9 (1)

BY: James Stucke
PUBLIC SERVICE COMMISSION MANAGER

C 3/02

7. The Customer will maintain its fire protection system in good condition and will make timely repairs of leaks that may occur in said system. Service to the Customer's fire protection system shall be discontinued by the District should a leak develop that it had not located and repaired within a reasonable time as determined by the District.

8. It shall be the Customer's responsibility to make periodic tests to assure the proper operation of the detector check valve installation.

9. The District does not guarantee a water supply to the Customer's fire protection system at any particular flow rate or pressure. Furthermore, the customer will indemnify and hold harmless the District and its employees from and against all claims, damages, losses, and expenses incurred as a result of insufficient water supply to the Customer's fire protection system or any failure of the detector check valve installation and/or appurtencances. This service is limited to lines of such size determined to be adequate for this service by the District and all approvals of State Fire Marshal, Kentucky Department of Natural Resources and Environmental Protection and any other applicable agency will be required before installation is finally approved for service.

10. If the Customer fails to comply with the terms of this Agreement and any other applicable rules and regulations of the District, service to the Customer may be discontinued by the District.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed by its duly authorized officers on the date first above written.
