14. ADJUSTMENT RELATIVE TO ERRONEOUS METER

If upon periodic test, request test, or compliant test, a meter in service is found to be more than two percent fast, additional tests shall be made to determine the average error of the meter. Said tests shall be made in accordance with commission regulations applicable to the type of meter involved.

a. If test results show an average error greater than two percent fast or slow, or if a customer has been incorrectly billed for any other reason the utility shall immediately determine the period during which the error has existed, and shall recompute and adjust the customers bill to either provide a refund to the customer or collect an additional amount of revenue from the underbilled customer. The utility shall re-adjust the account based upon the period during which the error is known to have existed. If the period during which the error existed cannot be determined with reasonable precision, the time period shall be estimated using such data as elapsed time since the last meter test, if applicable, and historical usage data for the customer. If that data is not available, the average usage of similar customer loads shall be used for comparison purposes in calculating the time period. If the customer and the utility are unable to agree on an estimate of the time period during which the error existed, the Public Service Commission shall determine the issue. MONITORING OF CUSTOMER USAGE

At least once annually the District will monitor the usage of each customer according to the following procedure:

1. The customers annual usage for the most recent 12 month period will be compared with the annual usage for the 12 months immediately preceding that period.
2. If the annual usage for the two periods are substantially the same, or if any difference is known to be attributed to unique circumstance, such as unusual weather conditions, common to all customers, no further review will be done.
3. If the annual usage differs by 3% or more and cannot be attributed to a readily identified common cause, the District will compare the customers monthly usage records for the 12 month period with the monthly usage for the same months of the preceding year.
4. If the cause for the usage deviation cannot be determined from analysis of the customers meter reading and billing records, the District will contact the customer by telephone or in writing to determine whether there have been changes such as different number of household members or work staff, additional or different appliances, changes in business volume, or known leaks in the customers service line.
5. Where the deviation is not otherwise explained, the District will test the customers meter to determine whether it shows an average error greater than 2% fast or slow.
6. The District will notify the customers of the investigation, the findings, and any refunds or backbilling in accordance with 807 KAR 5:006, Section 10, (4) and (5).

least 200 PSI. If a larger line needs to be run, the District has the right to explain the reason and purpose of same.

3. A cut off valve will be installed outside the meter vault for your use. The valve inside the valve box is for Water District persons only.

4. A Watts Number 7 Back Flow Preventer is to be placed on your line at any connection for yard hydrant or service lines to other fixtures. These backflow preventers are to protect your hot water heater elements from burning out in case of a leak or shut off of the District lines and to protect you from any contamination that may happen on your premises.

5. Brass fittings will be used when connecting to the meter, valves and regulator. The regulator is an option that we leave up to the customer. We are required to furnish 35 psi at the meter connection, not to exceed 150 psi. A water employee can give you the approximate pressure at your location.

6. The service line shall be left open for the inspection of the Water District and the Montgomery County Plumbing Inspector.

7. Any deviation from these rules must be approved by the Water District and the Plumbing Inspector of Montgomery County.
