North McLean County Water District  
(Name of Utility)

NON-RECURRING CHARGE DESCRIPTIONS:

1. Service Disconnection Charge. Will be assessed to disconnect service that has been terminated for non-payment of service or for violation of utility or PSC rules and regulations. (N)  
(N)
2. Service Reconnection Charge. Will be assessed to reconnect service that has been terminated for non-payment of service or for violation of utility or PSC rules and regulations. (T)  
(D)
3. Service Call/Investigation Charge. Will be assessed when a customer requests the onsite presence of utility personnel to investigate a service problem and the problem is a result of the customer's own plumbing facilities, beyond the utility's delivery point, or not caused by failure of utility facilities. Any maintenance and repair of facilities beyond the utility's delivery point is the responsibility of the customer. Will also be assessed when a customer jumps a water meter or theft of water from a fire hydrant.
4. Cut Lock Charge. Will be assessed when a customer cuts the lock off of a meter that has been locked by the District. The customer shall pay, in addition to this charge, the cost of any damage to the District's property caused by the customer in the process of cutting the lock.
5. Damage to Lid or Meter Equipment. Will be assessed when a customer damages the lid or meter equipment. The customer shall pay the actual damages to the District's property.
6. Meter Relocate with or without a Road Bore. Will be assessed when a customer or other authorized person requests that a meter be relocated, changed, or modified. Those requesting a change must reimburse the utility for the actual cost incurred, including but not limited to appropriate legal, administrative, engineering, overhead or other related costs.
7. Meter-Re-Read Charge. Will be assessed when a customer requests the utility to re-read the customer's meter and the re-read proves that the original meter reading was correct.
8. Meter Test Charge. Will be assessed when a customer requests the utility perform a test on the customer's meter to check for accuracy and the test shows the customer's meter is not more than two percent (2%) fast. The utility will perform such test on any meter upon written request of any customer if the request is not made more than once every twelve (12) months. Adjustments will be made to the bill where the meter is found to be more than two percent (2%) fast or slow in accordance with Public Service Commission regulations.

### RULES AND REGULATIONS

These rules and regulations are in addition to the rules of the Kentucky Public Service Commission.

Any resident of North McLean County Water District is eligible for water service from the District.

No customer shall resell water except under terms of a special contract with the District.

Meters shall be read each month commencing on the 15<sup>th</sup> day.

Service lines to meters and meters are property of the District. From meter to customer outlet, installation and service shall be the sole responsibility of customer. No customer service line shall cross a District water main.

MONITORING OF CUSTOMER USAGE

At least once annually the Company will monitor the usage of each customer according to the following procedure:

1. The customer's annual usage for the most recent 12-month period will be compared with the annual usage for the 12 months immediately preceding that period.
2. If the annual usage for the two periods are substantially the same or if any difference is known to be attributed to unique circumstances, such as unusual weather conditions, common to all customers, no further review will be done.
3. If the annual usages differ by 50 percent or more and cannot be attributed to a readily identified common cause, the Company will compare the customer's monthly usage records for the 12-month period with the monthly usage for the same months of the preceding year.
4. If the cause for the usage deviation cannot be determined from analysis of the customer's meter reading and billing records, the Company will contact the customer by telephone or in writing to determine whether there have been changes such as different number of household members or work staff, additional or different appliances, changes in business volume, or known leaks in the customer's service line.
5. Where the deviation is not otherwise explained, the Company will test the customer's meter to determine whether it shows an average error greater than 2 percent fast or slow.
6. The Company will notify the customers of the investigation, its findings, and any refunds or backbilling in accordance with 807 KAR 5:006, Section 10(4) and (5).

In addition to the annual monitoring, the Company will immediately investigate usage deviations brought to its attention as a result of its on-going meter reading or billing processes or customer inquiry.

*(Name of Utility)*

Multiple Connections on a Single Meter.

With the exception of existing connections, the existence of a special contract or unusual circumstances requiring approval of the utility, a single meter can serve no more than one residential or commercial unit on and after the effective date of this tariff.

For existing connections, special contracts, or other utility approved situations, where two or more units are being served by one meter, the following rules will apply:

- 1) One bill per meter will be sent to the customer that signed the Water Service Contract.
- 2) The bill will consist of a charge in the amount of the utility's minimum bill multiplied by the number of units the meter serves. The amount of water included with a minimum bill will be multiplied by the number of units and deducted from the total amount of consumption. The remaining consumption will be evenly distributed among each unit, added to each unit's minimum bill, with the charges calculated according to currently approved rates.
- 3) The customer that signed the Water Service Contract will be fully and solely responsible for the charges associated with the connection including payment for all water passing through the meter, regardless of which unit is responsible for the water consumption.

RULES AND REGULATIONS

**WATER LINE EXTENSION POLICY  
FOR NORTH McLEAN COUNTY WATER DISTRICT**

The District shall determine the total cost of the proposed water main extension (exclusive of the meter connections) and the total length of the extension. The District shall pay that portion of the cost of the water main extension equal to 50 feet for each applicant for service. That part of the cost not covered by the District's portion shall be contributed equally by those applicants desiring service on the main extension. Each applicant will also be required to pay the District's approved "Tap-on-fee" for a meter connection to the main extension.

For a period of five years after the original construction of the main extension each additional customer directly connected to each particular extension will be required to contribute to the cost of that water main extension based on a recomputation of both the District's portion of the total cost and each customer's contribution as set out above. The District must refund to those customers that have previously contributed to the cost of each main extension itself that amount necessary to reduce their contribution to the currently calculated amount for each customer connected to that extension. All customers directly connected to each main extension for a five-year period after it is placed in service are to contribute equally to cost of construction of the water main extension itself. In addition each customer must pay the approved "Tap-on-fee" applicable at the time of their application for the meter connection. The "Tap-on-fee" is not part of the refundable cost of the extension and may be changed during the refund period. After the five-year refund period expires, any additional customer applying for service on each main extension must be connected for the amount of the approved "Tap-on-fee" only. After the five-year refund period expires, the District will make refunds for an additional five-year period in accordance with 807 KAR 5:066, Section 11(2)(b)(1).

**DEPOSITS:**

1. The utility requires a minimum cash deposit or other guaranty to secure payment of bills except for customers qualifying for service reconnection pursuant to 807 KAR 5:006, Section 16, Winter Hardship Reconnection.
2. Deposit amounts are stated in the rates and charges section of the tariff.
3. Service may be refused or discontinued for failure to pay the requested deposit.
4. Interest will accrue on all deposits at the rate prescribed by law beginning on the date of the deposit. Interest accrued will be refunded to the customers or credited to the customer's bill on an annual basis.
5. Upon termination of service, the deposit; any principal amounts, and interest earned and owing shall be credited to the final bill with any remainder refunded to the customer.

**RULES & REGULATIONS**

**FIRE DEPARTMENTS:**

Any city, county, urban-county, charter county, fire protection district, or volunteer fire protection district ("User") may withdraw water from the utility's water distribution system for the purpose of fighting fires or training firefighters at no charge on the condition that it maintains estimates of the amount of water used for fire protection and training during the calendar month and reports the amount of this water usage to the utility no later than the 15<sup>th</sup> day of the following calendar month.

Any city, county, urban-county, charter county, fire protection district, or volunteer fire protection district that withdraws water from the utility's water distribution system for fire protection or training purposes and fails to submit the required report on water usage in a timely manner shall be assessed the cost of this water.

A non-reporting user's usage shall be presumed to 0.3 percent of the utility's total water sales for the calendar month. A non-reporting user may present evidence of its actual usage to rebut the presumed usage. The utility shall consider this evidence and may adjust the presumed usage amount accordingly.

The non-reporting user shall be billed for this usage at the lowest usage block rate regardless of customer classification that the utility charges.

A non-reporting user shall also be assessed a penalty of \$ 100.00 for each failure to submit a report in a timely manner.
