**KENTUCKY PUBLIC
SERVICE COMMISSION**

FOR ENTIRE SERVICE AREA
P.S.C. NO.

Amended Sheet No. 17

CANCELLING P.S.C.

KY NO. 1

Amended Sheet No. 17

Northeast Woodford Water District
225-A South Main
Versailles, KY 40383

RULES AND REGULATIONS

Upon the customer's written request and payment of \$25.00, the District will test the customer's meter for accuracy, provided such requests by the customer are not more frequent than one every twelve months. If such test shows the meter to be more than two (2%) percent fast or slow, a refund of the \$25.00 charge will be made and the bill adjusted in accordance with 807 KAR 5:006, Section 10.

1. The customer must request a leak adjustment in writing to the utility.
2. The customer must provide a plumber's statement or other proof showing the leak has been repaired.
3. The customer bill will be based on two components. The first step will be to calculate the customer's average monthly usage over a 6-month period. The second step will be to deduct the customer's average monthly usage (as calculated above) from the total amount of water that passed through the meter. The usage calculated in step one will be billed at the utility's regular rates, while the remaining usage will be charged at the per thousand gallon leak adjustment rate as set forth in the rates and charges portion of the utility's approved tariff. All water passing through the meter must be accounted and paid for by the customer. Therefore, the customer will owe the amount of his/her average bill plus the per thousand gallon leak adjustment rate for the remainder of the water that passed through the meter.
4. If meter readings are not available for an entire six-month period, the water bill will be estimated by the utility, subject to an upward or downward adjustment once a six-month average of actual meter readings can be calculated.
5. Only one (1) leak adjustment will be made for a specific service location during any given 3-year period. (C)

FIRE HYDRANTS

Any city, county, urban-county, charter county, fire protection district, or volunteer fire protection district ("User") may withdraw water from the utility's water distribution system for the purpose of fighting fires or training firefighters at no charge on the condition that it maintains estimates of the amount of water used for fire protection and training during the calendar month and reports the amount of this water usage to the utility no later than the 15th day of the following calendar month.

Any city, county, urban-county, charter county, fire protection district, or volunteer fire protection district that withdraws water from the utility's water distribution system for fire protection or training purposes and fails to submit the required report on water usage in a timely manner shall be assessed the cost of this water.

A non-reporting user's usage shall be presumed to 0.3 percent of the utility's total water sales for the calendar month. A non-reporting user may present evidence of its actual usage to rebut the presumed usage. The utility shall consider this evidence and may adjust the presumed usage amount accordingly.

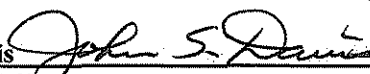

The non-reporting user shall be billed for this usage at the lowest usage block rate regardless of customer classification that the utility charges.

A non-reporting user shall also be assessed a penalty of \$70.00 for each failure to submit a report in a timely manner. (C)
