RULES AND REGULATIONS

The following policy is prescribed for the customers in the area served by Western Lewis-Rectorville County Water District (District). All other rates, changes, rules and regulations not specifically mentioned herein shall remain the same as those in effect under authority of this Commission prior to the effective date of this Order.

PROVISIONS FOR STANDARD SERVICE, NON-STANDARD SERVICE AND FIRE PROTECTION

CANCELLED
NOV 01 2013
KENTUCKY PUBLIC
SERVICE COMMISSION

1. STANDARD SERVICE (Standard Water Tap)

- A. Based on information provided by the customer, the standard service size for a water tap shall be established by the Water District. Each customer's meter shall be properly sized to measure all water usage of the customer as determined by the Water District. The meter installation cost to meet the standard service size for each customer shall be paid for by each customer at the Water District's established contribution fee for the meter size required and the contribution fee as approved by the Kentucky Public Service Commission (PSC)
- B. Should a customer's rate of water flow and usage change such that the water meter will not accurately measure the water used, the customer shall be responsible for paying the Water District's established contribution fee based on the meter size required to accurately measure the water used. The Water District will refund to the customer salvage value of the original metering equipment that can be recovered and reused.
- C. Any existing or proposed service connection which has minimum and/or maximum flow rates that do not fall within the range defined below for a Standard Service shall be considered a Non-Standard Service. The range of flow rates for a Standard Service with a particular meter size shall be as follows:

_____ Sheet No. _____

RULES AND REGULATIONS

1. The customer's low flow rate shall be greater than the 95 percent accuracy point for low flow registration of the meter.
2. The customer's sustained high flow rate shall be less than the maximum continuous rate specified for the meter and the customer's intermittent high flow rate shall be less than the maximum for the normal operating range of the meter.

The low and high flow rates described above for each water meter size shall be as stated by the manufacturer of meters used by the Water District.

- D. Any service connection that involves fire protection facilities is a Non-standard Service.
- E. No unmetered water connection to the Water District's water mains will be allowed. All fire line service connections shall be metered.

II. NON STANDARD SERVICE

A customer shall make application for service and pay the actual cost of any special installation necessary to meet his peculiar requirements for service other than standard water tap.

CANCELLED
NOV 01 2013
KENTUCKY PUBLIC
SERVICE COMMISSION

III. FIRE PROTECTION

- A. The Water District will install fire hydrants for the City and County fire departments, or others provided the Water District is reimbursed for the cost of installation and the Water District's engineers determine that at the location the fire hydrant is to be installed, a flow rate from the fire hydrant will meet the requirements of the Kentucky Public Service Commission ("PSC").
- B. Fire hydrants installed prior to June 7, 1992, that have a flow rate of less than 250 GPM @ 20 psi residual pressure will be identified and the fire department advised in writing of the fire hydrant location.

RULES AND REGULATIONS

C. While fire hydrants are provided as a service to the public within the Water District's service area, because of the potential for damage to the Water District's system and unmetered use of water at fire hydrants installed directly on the Water District's water mains, these fire hydrants are only to be used and operated for fighting fires by the fire departments.

D. As a service to the public within its service area and for the protection of the public welfare, the Water District will furnish water to fight a fire from a fire hydrant connected directly to the Water District's water main at each fire location free of charge for a period not to exceed a total of 4 hours of usage-as defined below in Section H.1. In the event that more than 4 hours of usage occurs in fighting a fire, the owner of the property where the fire occurs shall pay for all of the water used in accordance with the Water District's standard water rate as in effect on the date of the fire approved by the PSC.

E. Fire hydrants shall not be used by any contractor, property owner, governmental agency, individual, corporation, or others to secure water for any purpose. The use of a fire hydrant by anyone other than properly authorized fire department personnel for fighting a fire shall be considered a "theft of service" and prosecuted in accordance with the laws of the Commonwealth of Kentucky. The user shall pay the Water District a water meter investigation charge as set forth in the Water District charges for special services as approved by the PSC, any damages to the Water District's property, and the full cost of the services fraudulently obtained along with all other applicable costs of the Water District allowed under the laws of the Commonwealth of Kentucky.

F. The fire departments utilizing fire hydrants connected to the Water District's water main shall maintain a record of any water used, including the date, location, the time that the fire department began pumping water, the time that the fire department discontinued pumping water, the approximate rate(s) of flow, the length of any interruptions in pumping water, the cause of the fire, and property owner for whom the water was used and shall file a report with the Water District monthly. The record of the fire department in conjunction with the Water District's daily master meter readings and normal daily water usage for the service zone will be used in determining the amount of water used to fight a fire.

RULES AND REGULATIONS

G. The District does not guarantee a water supply including the supply to the Customer's fire protection system at any particular flow rate or pressure. The fire flow may vary depending on other water demands on the system, various water facility limitations, or other circumstances (including but not limited to power failure, water main/line breakage, etc.). The customer will indemnify and hold harmless the District and its employees from and against all claims, damages, losses, and expenses incurred as a result of insufficient water supply including supply to the customer's fire protection system or any failure of the detector check valve installation, metering equipment, and/or appurtenances.

H. For purposes of "III FIRE PROTECTION," the following definitions shall apply:

1. A "fire" as used hereinabove shall include any conflagration on a publicly or privately-owned property. Any re-ignition of a previously extinguished conflagration on the same property shall be considered a single fire and any fire resulting from the same cause shall be considered a single fire except that a fire on property owned by different persons or entities shall be considered separate fires.
2. "Hours of usage" as used hereinabove is measured from the time the fire department begins pumping water at the scene of the fire until the fire department ceases pumping water to the fire. In the event the fire department ceases pumping water for a period of time but later continues pumping to the same fire, the "hours of usage" shall be tolled while no pumping occurs and continue to accumulate after pumping continues. Any partial hours of usage are rounded to the nearest hour.

RULES AND REGULATIONS

This schedule of Rules and Regulations governs the furnishing of water service by Western Lewis Rectorville Water District hereinafter referred to as the Utility and applies to all service received from the Utility. No employee or individual director of the Utility is permitted to make an exception to Rates, Rules or Regulations. All Rules and Regulations are to be in effect so long as they are not in conflict with Public Service Commission Rules and Regulations. The Utility is further subject to all Rules and Regulations of the Commission even though not contained herein.

REVISIONS

These Rules and Regulations may be revised, amended, supplemented or otherwise changed from time to time subject to approval of the Public Service Commission, and shall have the same force as the present Rules and Regulations.

SERVICE AREA

The Utility furnishes water service to Customers located in Mason and Lewis Counties, Kentucky.

AVAILABILITY

Water Service is available to any domestic, commercial or ~~industrial~~ consumer within the Utility's Area.

WATER FAILURE

The Utility is responsible for water failure only when in ~~control~~ of the Utility's employees. No consumer is paid damages for equipment unless such damages are specifically found to be caused by an act of negligence on the part of the Utility or its employees.

PROTECTION BY CONSUMER

Consumer shall protect the equipment of the Utility ~~on his premises~~ and shall not interfere with Utility's property or permit interference except

NOTICE OF TROUBLE

Consumer shall give immediate notice to the Utility of any irregularities or unsatisfactory service and of any defects known to consumer.

MAINTENANCE

The Utility may at any time deemed necessary, suspend water service to any consumer or consumers for the purpose of making repairs, changes or improvements upon any part of its system. The Utility shall give reasonable notice of such suspension of service to the Consumer.

The Utility shall be responsible for the maintenance of that portion of the service line installed by the Utility and the consumer shall be responsible for the maintenance of that portion thereof installed by the consumer.

EXTENSION OF SERVICE

Extension of service shall be in accordance with 807 KAR 5:066. Section 12.

LINE LOCATIONS

When necessary to move or relocate facilities, the cost will be paid by party or parties requesting such relocation.

BILLING, COLLECTION

Bills for water service furnished by the water system will be made no later than the 12th day of each month and will be due and payable by the 25th day of each month.

EQUAL DEPOSITS

An equal deposit amount for each class of customers will be established based on the average annual bill of customers in that class. Deposit amounts will not exceed two-twelfths (2/12) of the average annual bill of customers in each class where bills are rendered monthly, three-twelfths (3/12) where bills are rendered bimonthly or four-twelfths (4/12) where bills are rendered quarterly. Interest on deposits will be calculated in accordance with KRS 278.460.

DISCONTINUANCE OF SERVICE BY UTILITY

The Utility may refuse or discontinue service to an applicant or customer, after proper notice, for failure to comply with its rules and regulations or state and municipal rules and regulations, when a customer or applicant refuses or neglects to provide reasonable access to the premises, for fraudulent or illegal use of service, or for nonpayment of bills. If discontinuance is for non-payment of bills, the customer shall be given at least forty-eight (48) hours written notice, separate from the original bill, and cut-off shall be effected not less than twenty (20) days after the mailing date of the original bill unless, prior to discontinuance, a residential customer presents to the utility a written certificate, signed by a physician, registered nurse, or public health officer, that such discontinuance will aggravate an existing illness or infirmity, on the affected premises, in which case discontinuance may not be effected until the affected resident can make other living arrangements or until not less than ten (10) days elapse from the date of the Utility's notification. When a dangerous condition is found to exist on the customer's or applicant's premises, the service shall be cut off without notice or refused.

RULES & REGULATIONS

FIRE DEPARTMENTS:

Any city, county, urban-county, charter county, fire protection district, or volunteer fire protection district ("User") may withdraw water from the utility's water distribution system for the purpose of fighting fires or training firefighters at no charge on the condition that it maintains estimates of the amount of water used for fire protection and training during the calendar month and reports the amount of this water usage to the utility no later than the 15th day of the following calendar month.

Any city, county, urban-county, charter county, fire protection district, or volunteer fire protection district that withdraws water from the utility's water distribution system for fire protection or training purposes and fails to submit the required report on water usage in a timely manner shall be assessed the cost of this water.

A non-reporting user's usage shall be presumed to 0.3 percent of the utility's total water sales for the calendar month. A non-reporting user may present evidence of its actual usage to rebut the presumed usage. The utility shall consider this evidence and may adjust the presumed usage amount accordingly.

The non-reporting user shall be billed for this usage at the lowest usage block rate regardless of customer classification that the utility charges.

A non-reporting user shall also be assessed a penalty of \$ 1.00 for each failure to submit a report in a timely manner.
