

WESTERN PULASKI COUNTY WATER DISTRICT

STEPS TO LINE EXTENSION

1. The developer comes before the Board with a written request for water on their development.
2. (David Kingsley) (Operator for Western Pulaski County Water District), the board, and our engineer, will have at least 30 days in order to look at the feasibility.
3. At the following Board meeting the Board of Commissioners will either pass or deny the motion.
4. If the motion passes, David Kingsley will get from the developer a recordable plat of the development and any easements that are needed in order to proceed with the water line extension.
5. At that time the project will be turned over to our engineer, Darcey Stewart, to be engineered.
6. David Kingsley will provide the developer with an estimated cost of the project including inspection and engineering fees.
7. If the estimate is agreeable to both parties then the developer will sign a contract with the water company agreeing to the estimate and the payback program.
8. The designs are drawn up and sent to Division of Water for approval along with a \$150.00 check for permits. This can be paid by the developer separately or along with the estimate.
9. Once Division of Water sends back the approval, the water company's Contractors, depending on whether it is in the Pulaski
