CHECKED
Energy Regulatory Commission
MAY 8 1979
by
W. H. Dickhoner, President
ENGINEERING DIVISION

Issued: April 23, 1979  
Effective: April 13, 1979

Issued by W. H. Dickhoner, President
SERVICE REGULATIONS

SECTION I - SERVICE AGREEMENTS

1. Form and Execution of Service Agreements.

Upon execution of a service agreement on an appropriate Company form by Customer and Company, electric service will be supplied in accordance with Company's rates and regulations on file with the Energy Regulatory Commission of Kentucky and the provisions of the Service Agreement. Unless otherwise provided, Service Agreements are to continue in effect for an initial period of one year and thereafter until cancelled.

2. Customer's Right to Cancel Service Agreement or to Suspend Service.

Except as otherwise provided in the Service Agreement, Rate Schedules or elsewhere in these Service Regulations, Customer may give Company ten days notice of desire to cancel the Service Agreement whenever he no longer requires any electric service for the purpose mentioned in said Agreement. Company will accept such notice as a cancellation of the Service Agreement upon being satisfied that Customer no longer requires any such service.

3. Company's Right to Cancel Service Agreement or to Suspend Service.

Company, in addition to all other legal remedies, shall terminate the Service Agreement, refuse or discontinue service to an applicant or customer, after proper notice for any of the following reasons:

(a) Default or breach of these SERVICE REGULATIONS by the customer.
(b) Non-payment of bills when due.
(c) Theft, fraudulent representation or concealment in relation to the use of electricity.
(d) Use of electricity, by the customer, in a manner detrimental to the service rendered others.
(e) Upon the basis of a lawful order of the Energy Regulatory Commission of Kentucky, the State of Kentucky or any governmental subdivision thereof having jurisdiction over the premise.
(f) When a customer or applicant refuses or neglects to provide reasonable access to the premise.

If discontinuance is for non-payment of bills, the customer shall be given at least ten (10) days written notice, separate from the original bill, and cut-off shall be effected not less than twenty-seven (27) days after the mailing date of the original bill unless, prior to discontinuance, a residential customer presents to the utility a written certificate, signed by a physician, registered nurse, or public health officer, that such discontinuance will aggravate an existing illness or infirmity on the affected premises, in which case discontinuance may be effected not less than thirty (30) days from the date the utility notifies the customer, in writing, of state and federal programs which may be available to aid in payment of bills and the office to contact for such possible assistance.

When Customer changes his address he should give notice thereof to Company prior to the date of change. Customer is responsible for all service supplied to the vacated premises until such notice has been received and Company has had a reasonable time, but not less than three days, to discontinue service.

If Customer moves to an address at which he requires electric service for any purpose specified in his Service Agreement, and at which address Company has such service available under the same Rate Schedule, the notice is considered as Customer's request that Company transfer such service to the new address, but if Company does not have such service available at the new address the old Service Agreement is considered cancelled. If Company has service available at the new address to which a different Rate Schedule applies, a new Service Agreement including the applicable Rate Schedule is offered to Customer. Company makes transfer of service as promptly as reasonable possible after receipt of notice.

5. Successors and Assigns.

The benefits and obligations of the Service Agreement shall inure to and be binding upon the successors and assigns, survivors and executors of administrators, as the case may be, of the original parties thereto, for the full term thereof; provided that no assignment thereof shall be made by Customer without first obtaining Company's written consent.

SECTION II - SUPPLYING AND TAKING OF SERVICE

Service is supplied only under and pursuant to these Service Regulations and any modifications or additions thereto lawfully made, and such applicable Rate Schedules and Riders as may from time to time be lawfully fixed. Service is supplied under a given Rate Schedule only at such points of delivery as are adjacent to facilities of Company adequate and suitable, as to capacity and voltage, for the service desired; otherwise special agreements between Customer and Company may be required.
SERVICE REGULATIONS

SECTION I - SERVICE AGREEMENTS

1. Form and Execution of Service Agreements.

Upon execution of a service agreement on an appropriate Company form by Customer and Company, electric service will be supplied in accordance with Company's rates and regulations on file with the Energy Regulatory Commission of Kentucky and the provisions of the Service Agreement. Unless otherwise provided, Service Agreements are to continue in effect for an initial period of one year and thereafter until cancelled.

2. Customer's Right to Cancel Service Agreement or to Suspend Service.

Except as otherwise provided in the Service Agreement, Rate Schedules or elsewhere in these Service Regulations, Customer may give Company ten days notice of desire to cancel the Service Agreement whenever he no longer requires any electric service for the purpose mentioned in said Agreement. Company will accept such notice as a cancellation of the Service Agreement upon being satisfied that Customer no longer requires any such service.

3. Company's Right to Cancel Service Agreement or to Suspend Service.

Company, in addition to all other legal remedies, shall terminate the Service Agreement, refuse or discontinue service to an applicant or customer, after proper notice for any of the following reasons:

(a) Default or breach of these SERVICE REGULATIONS by the customer.
(b) Non-payment of bills when due.
(c) Theft, fraudulent representation or concealment in relation to the use of electricity.
(d) Use of electricity, by the customer, in a manner detrimental to the service rendered others.
(e) Upon the basis of a lawful order of the Energy Regulatory Commission of Kentucky, the State of Kentucky or any governmental subdivision thereof having jurisdiction over the premise.
(f) When a customer or applicant refuses or neglects to provide reasonable access to the premise.

If discontinuance is for non-payment of bills, the customer shall be given at least ten (10) days written notice, separate from the original bill, and cut-off shall be effected not less than twenty-seven (27) days after the mailing date of the original bill unless, prior to discontinuance, a residential customer presents to the utility a written certificate, signed by a physician, registered nurse, or public health officer, that such discontinuance will aggravate an existing illness or infirmity on the affected premises, in which case discontinuance may be effected not less than thirty (30) days from the date the utility notifies the customer, in writing, of state and federal programs which may be available to aid in payment of bills and the office to contact for such possible assistance.

When Customer changes his address he should give notice thereof to company prior to the date of change. Customer is responsible for all service supplied to the vacated premises until such notice has been received and Company has had a reasonable time, but not less than three days, to discontinue service.

If Customer moves to an address at which he requires electric service for any purposes specified in his Service Agreement, and at which address Company has such service available under the same Rate Schedule, the notice is considered as Customer's request that Company transfer such service to the new address, but if Company does not have such service available at the new address the old Service Agreement is considered cancelled. If Company has service available at the new address to which a different Rate Schedule applies, a new Service Agreement including the applicable Rate Schedule is offered to Customer. Company makes transfer of service as promptly as reasonable possible after receipt of notice.

5. Successors and Assigns.

The benefits and obligations of the Service Agreement shall inure to and be binding upon the successors and assigns, survivors and executors of administrators, as the case may be, of the original parties thereto; provided that no assignment hereof shall be made by Customer without first obtaining Company's written consent.

SECTON II - SUPPLYING AND TAKING OF SERVICE

Service is supplied only under and pursuant to these Service Regulations and Rate Schedules or additions thereto lawfully made, and such applicable Rate Schedules and Rider's as may from time to time be lawfully fixed. Service is supplied under a given Rate Schedule only at such points of delivery as are adjacent to facilities of Company adequate and suitable, as to capacity and voltage, for the service desired; otherwise special agreements between Customer and Company may be required.
SERVICE REGULATIONS

SECTION I - SERVICE AGREEMENTS

1. Form and Execution of Service Agreements.

Upon execution of a service agreement on an appropriate Company form by Customer and Company, electric service will be supplied in accordance with Company's rates and regulations on file with the Energy Regulatory Commission of Kentucky and the provisions of the Service Agreement. Unless otherwise provided, Service Agreements are to continue in effect for an initial period of one year and thereafter until cancelled.

2. Customer's Right to Cancel Service Agreement or to Suspend Service.

Except as otherwise provided in the Service Agreement, Rate Schedules or elsewhere in these Service Regulations, Customer may give Company ten days notice of desire to cancel the Service Agreement whenever he no longer requires any electric service for the purpose mentioned in said Agreement. Company will accept such notice as a cancellation of the Service Agreement upon being satisfied that Customer no longer requires any such service.

3. Company's Right to Cancel Service Agreement or to Suspend Service.

Company, in addition to all other legal remedies, may terminate the Service Agreement, refuse or discontinue service to an applicant or customer, after proper notice for any of the following reasons:

(a) Default or breach of these SERVICE REGULATIONS by the customer.
(b) Non-payment of bills when due.
(c) Theft, fraudulent representation or concealment in relation to the use of electricity.
(d) Use of electricity, by the customer, in a manner detrimental to the service rendered others.
(e) Upon the basis of a lawful order of the Energy Regulatory Commission of Kentucky, the State of Kentucky or any governmental subdivision thereof having jurisdiction over the premise.
(f) When a customer or applicant refuses or neglects to provide reasonable access to the premise.

If discontinuance is for non-payment of bills, the customer shall be given at least ten (10) days written notice, separate from the original bill, and cut-off shall be effected not less than twenty-seven (27) days after the mailing date of the original bill unless, prior to discontinuance, a residential customer presents to the utility a written certificate, signed by a physician, registered nurse, or public health officer, that such discontinuance will aggravate an existing illness or infirmity on the affected premises, in which case discontinuance may be effected not less than thirty (30) days from the date the utility notifies the customer, in writing, of state and federal programs which may be available to aid in payment of bills and the office to contact for such possible assistance.

When Customer changes his address he should give notice thereof to Company prior to the date of change. Customer is responsible for all service supplied to the vacated premises until such notice has been received and Company has had a reasonable time, but not less than three days, to discontinue service.

If Customer moves to an address at which he requires electric service for any purposes specified in his Service Agreement, and at which address Company has such service available under the same Rate Schedule, the notice is considered as Customer's request that Company transfer such service to the new address, but if Company does not have such service available at the new address the old Service Agreement is considered cancelled. Service is supplied only under and pursuant to these Service Regulations or additions thereto lawfully made, and such applicable Rate Schedules and riders as may from time to time be lawfully fixed. Service is supplied under a given Rate Schedule only at such points of delivery as are adjacent to facilities of Company adequate and suitable, as to capacity and voltage, for the service desired; otherwise special agreements between Customer and Company may be required.

Issued: February 6, 1980
Effective: February 26, 1980
Issued by W. H. Dickhoner, President
SERVICE REGULATIONS

SECTION I - SERVICE AGREEMENTS

1. Form and Execution of Service Agreements.

Upon execution of a service agreement on an appropriate Company form by Customer and Company, electric service will be supplied in accordance with Company's rates and regulations on file with the Public Service Commission of Kentucky and the provisions of the Service Agreement. Unless otherwise provided, Service Agreements are to continue in effect for an initial period of one year and thereafter until cancelled.

2. Customer's Right to Cancel Service Agreement or to Suspend Service.

Except as otherwise provided in the Service Agreement, Rate Schedules or elsewhere in these Service Regulations, Customer may give Company ten days notice of desire to cancel the Service Agreement whenever he no longer requires any electric service for the purposes mentioned in said Agreement. Company will accept such notice as a cancellation of the Service Agreement upon being satisfied that Customer no longer requires any such service.

3. Company's Right to Cancel Service Agreement or Suspend Service.

Company in addition to all other legal remedies, may terminate the Service Agreement or suspend supply of service for any of the following reasons:

1. Default of breach of a Service Agreement or these Service Regulations by Customer.
2. Non-payment of bills when due.
3. Fraudulent representation or concealment in relation to use of electricity.
4. Use of electricity by the Customer in manner such that it is detrimental to the service rendered others.
5. When made incompatible, unreasonable or unlawful by any other order of the Public Service Commission of Kentucky, ordinances or resolutions of any municipality, laws of the State of Kentucky or any political subdivision thereof or of the Federal Government or any of its agencies.

Failure of Company to exercise any of its rights in these instances does not affect its right to resort thereafter to any such remedies for the same or any future default or breach by Customer.

When Customer changes his address he should give notice thereof to Company prior to the date of change. Customer is responsible for all service supplied to the vacated premises until such notice has been received and Company has had a reasonable time, but not less than three days, to discontinue service.

If Customer moves to an address at which he requires electric service for any purposes specified in his Service Agreement, and at which address Company has such service available under the same Rate Schedule, the notice is considered as Company's request that Company transfer such service to the new address, but if Company does not have such service available at the new address the old Service Agreement is considered cancelled. If Company has service available at the new address to which a different Rate Schedule applies, a new Service Agreement including the applicable Rate Schedule is offered to Customer. Company makes transfer of service as promptly as reasonably possible after receipt of notice.

5. Successors and Assigns.

The benefits and obligations of the Service Agreement shall inure to and be binding upon the successors and assigns, survivors and executors or administrators, as the case may be, of the original parties thereto, for the full term thereof; provided that no assignment hereof shall be made by Customer without first obtaining Company's written consent.

SECTION II - SUPPLYING AND TAKING OF SERVICE

Service is supplied only under and pursuant to these Service Regulations and any modifications or additions thereto lawfully made, and such applicable Rate Schedules and Rules as may from time to time be lawfully fixed. Service is supplied under a given Rate Schedule only at such points of delivery as are adjacent to facilities of Company adequate and suitable, as to capacity and voltage, for the service desired; otherwise special agreements between Customer and Company may be required.

Service will not be supplied to any premises if at the time of application for service the applicant is indebted to Company for service previously supplied at the same or other premises until payment of such indebtedness shall have been made.

7. Information Relative to Service.

Information relative to the service that will be supplied at a given location shall be obtained from Company. Company will not be responsible for mistakes of any kind resulting from information given orally. Such information must be confirmed in writing.

Issued by B. John Yeager, President
Covington, Kentucky

Effective November 10, 1953
SECTION II - SUPPLYING AND TAKING OF SERVICE (Cont'd.)

6. Supplying of Service (Cont'd.)

Service will not be supplied to any premises if at the time of application for service the applicant is indebted to Company for service previously supplied at the same or other premises until payment of such indebtedness shall have been made.

7. Information Relative to Service.

Information relative to the service that will be supplied at a given location should be obtained from Company. Company will not be responsible for mistakes of any kind resulting from information given orally. Such information must be confirmed in writing.

8. Continuity of Service.

The Company shall make reasonable provisions to supply satisfactory and continuous electric service, but does not guarantee a constant or uninterrupted supply of electricity and shall not be liable for any damage or claim of damage attributable to any interruption or reversal of service caused by unavoidable accident or casualty, extraordinary action of the elements, action of any governmental authority, litigation, or by any cause which the Company could not have reasonably foreseen and made provision against.

9. Suspension of Service for Repairs and Changes.

When necessary to make repairs to or changes in Company's plant, generating equipment, transmission or distribution system, or other property, Company may without incurring any liability therefor, suspend service for such periods as may be reasonably necessary, and in such manner as not to inconvenience Customer unnecessarily.

10. Use of Service.

Service is supplied directly to Customer through Company's own meter and is to be used by Customer only for the purposes specified in and in accordance with the provisions of the Service Agreement and applicable Rate Schedule. Service is for Customer's use only and under no circumstances may Customer or Customer's agent or any other individual, association or corporation install meters for the purpose of remetering or reselling or otherwise disposing of service supplied Customer except as follows:

(a) If on November 10, 1953, Customer was engaged in resale under a rate which permitted resale, the Company will continue to furnish electricity for resale at the same premises under the applicable effective rate schedule only on the condition that any charge made by Customer for service resold shall not exceed the charge determined in accordance with Company's applicable rate, as in effect from time to time, for like service, until and unless otherwise ordered by the Energy Regulatory Commission of Kentucky.

(b) Customer operating an automobile trailer camp, with consent of Company may install meters and resell electricity to individual trailers only on the same condition in respect to charges as stated in paragraph (a), above.

Customer will not build lines across or under a street, alley, lane, court or avenue or other public or private space in order to obtain service for adjacent property through one meter even though such adjacent property be owned by Customer. Consent may be given when such adjacent properties are operated as one integral unit under the same name and for carrying on parts of the same business.

In case of unauthorized remetering, sale, extension or other disposition of service, Company may immediately discontinue the supplying of service to Customer until such unauthorized act is discontinued and full payment is made for all service supplied or used, billed on proper classification and Rate Schedule, and reimbursement in full made to Company for all extra expenses incurred, including expenses for clerical work, testing and inspections.

No other electric light or power service, shall, except under a contract for auxiliary or supplementary service, be used by Customer on the same installation in conjunction with Company's service, either by means of a "Throwover" switch or any other connection.

Customer assumes all responsibility on Customer's side of the point of delivery (the end of the Company's service drop, or where Company's wires are joined to Customer's wires or apparatus) for the service supplied or taken, as well as for the electrical installation, appliances and apparatus used in connection therewith, and will save Company harmless from and against all claims for injury or damage to persons or property occasioned by or in any way resulting from such service or the use thereof on Customer's side of the point of delivery.

Customer without reimbursement, will make or procure conveyance to Company of right of way satisfactory to it across the property owned or controlled by Customer for Company's lines or extensions thereof necessary or incidental to the supplying of service to Customer, or customers beyond Customer's property when such rights are limited to installations along dedicated streets and roads.

Issued: February 6, 1950
Effective: November 10, 1953

Issued by W. H. Dickhoner, President
SECTION II - SUPPLYING AND TAKING OF SERVICE (Cont’d.)

6. Supplying of Service (Cont’d.)

Service will not be supplied to any premises if at the time of application for service the applicant is indebted to Company for service previously supplied at the same or other premises until payment of such indebtedness shall have been made.

7. Information Relative to Service.

Information relative to the service that will be supplied at a given location should be obtained from Company. Company will not be responsible for mistakes of any kind resulting from information given orally. Such information must be confirmed in writing.

8. Continuity of Service.

The Company shall make reasonable provisions to supply satisfactorily and continuous electric service, but does not guarantee a constant or uninterrupted supply of electricity and shall not be liable for any damage or claim of damage attributable to any interruption or reversal of service caused by unavoidable accident or casualty, extraordinary action of the elements, action of any governmental authority, litigation, or by any cause which the Company could not have reasonably foreseen and made provision against.

9. Suspension of Service for Repairs and Changes.

When necessary to make repairs to or changes in Company's plant, generating equipment, transmission or distribution system, or other property, Company may without incurring any liability therefor, suspend service for such periods as may be reasonably necessary, and in such manner as not to inconvenience Customer unnecessarily.

10. Use of Service.

Service is supplied directly to Customer through Company's own meter and is to be used by Customer only for the purposes specified in and in accordance with the provisions of the Service Agreement and applicable Rate Schedule. Service is for Customer's use only and under no circumstances may Customer or Customer's agent or any other individual, association or corporation install meters for the purpose of remetering or reselling or otherwise disposing of service supplied Customer except as follows:

(a) If on November 10, 1953, Customer was engaged in resale under a rate which permitted resale, the Company will continue to furnish electricity for resale at the same premises under the applicable effective rate schedule only on the condition that any charge made by Customer for service resold shall not exceed the charge determined in accordance with Company's applicable rate, as in effect from time to time, for like service, until and unless otherwise ordered by the Energy Regulatory Commission of Kentucky.

(b) Customer operating an automobile trailer camp, with consent of Company may install meters and resell electricity to individual trailers only on the same condition in respect to charges as stated in paragraph (a), above.

Customer will not build lines across or under a street, alley, lane, court or avenue or other public or private space in order to obtain service for adjacent property through one meter even though such adjacent property be owned by Customer. Consent may be given when such adjacent properties are operated as one integral unit under the same name and for carrying on parts of the same business.

In case of unauthorized remetering, sale, extension or other disposition of service, Company may immediately discontinue the supplying of service to Customer until such unauthorized act is discontinued and full payment is made for all service supplied or due, billed on proper classification and Rate Schedule, and reimbursement in full made to Company for all extra expenses incurred, including expenses for clerical work, testing and inspections.

No other electric light or power service, shall, except under a contract for auxiliary or supplementary service, be used by Customer on the same installation in conjunction with Company's service, either by means of a "Throwover" switch or any other connection.

Customer assumes all responsibility on Customer's side of the point of delivery (the end of the Company's service drop, or where Company's wires are joined to Customer's wires or apparatus) for the service supplied or taken, as well as for the electrical installation, appliances and apparatus used in connection therewith, and will save Company harmless from and against all claims for injury or damage to persons or property occasioned by or in any way resulting from such service or apparatus, and to which Customer's side of the point of delivery.

Customer without reimbursement, will make or procure conveyance to Company of right-of-way satisfactory to it across the property owned or controlled by Customer for Company's lines or extensions thereof necessary or incidental to the supplying of service to Customer, or customer beyond Customer's property when such rights are limited to installations along dedicated streets and roads.

Issued: February 6, 1960
Effective: November 10, 1953

SECTION II - SUPPLYING AND TAKING OF SERVICE (Cont'd.)

6. Supplying of Service (Cont'd.)

Service will not be supplied to any premises if at the time of application for service the applicant is indebted to Company for service previously supplied at the same or other premises until payment of such indebtedness shall have been made.

7. Information Relative to Service.

Information relative to the service that will be supplied at a given location should be obtained from Company. Company will not be responsible for mistakes of any kind resulting from information given orally. Such information must be confirmed in writing.

8. Continuity of Service.

The Company shall make reasonable provisions to supply satisfactory and continuous electric service, but does not guarantee a constant or uninterrupted supply of electricity and shall not be liable for any damage or claim of damage attributable to any interruption or reversal of service caused by unavoidable accident or casualty, extraordinary action of the elements, action of any governmental authority, litigation, or by any cause which the Company could not have reasonably foreseen and made provision against.

9. Suspension of Service for Repairs and Changes.

When necessary to make repairs to or changes in Company's plant, generating equipment, transmission or distribution system, or other property, Company may without incurring any liability therefor, suspend service for such periods as may be reasonably necessary, and in such manner as not to inconvenience customer unnecessarily.

10. Use of Service.

Service is supplied directly to Customer through Company's own meter and is to be used by Customer only for the purposes specified in and in accordance with the provisions of the Service Agreement and applicable Rate Schedule. Service is for Customer's use only and under no circumstances may Customer or Customer's agent or any other individual, association or corporation install meters for the purpose of remetering or reselling or otherwise disposing of service supplied Customer except as follows:

(a) If on November 10, 1953, Customer was engaged in resale under a rate which permitted resale, the Company will continue to furnish electricity for resale at the same premises under the applicable effective rate schedule only on the condition that any charge made by Customer for service resold shall not exceed the charge determined in accordance with Company's applicable rate, as in effect from time to time, for like service, until and unless otherwise ordered by the Energy Regulatory Commission of Kentucky.

(b) Customer operating an automobile trailer camp, with consent of Company may install meters and resell electricity to individual trailers only on the same condition in respect to charges as stated in paragraph (a), above.

Customer will not build lines across or under a street, alley, lane, court or avenue or other public or private space in order to obtain service for adjacent property through one meter even though such adjacent property be owned by Customer. Consent may be given when such adjacent properties are operated as one integral unit under the same name and for carrying on parts of the same business.

In case of unauthorized remetering, sale, extension or other disposition of service, Company may immediately discontinue the supplying of service to Customer until such unauthorized act is discontinued and full payment is made for all service supplied or used, billed on proper classification and Rate Schedule, and reimbursement in full made to Company for all extra expenses incurred, including expenses for clerical work, testing and inspections.

No other electric light or power service, shall, except under a contract for auxiliary or supplementary service, be used by Customer on the same installation in conjunction with Company's service, either by means of a "Throwover" switch or any other connection.

Customer assumes all responsibility on Customer's side of the point of delivery (the end of the Company's service drop, or where Company's wires are joined to Customer's wires or apparatus) for the service supplied or taken, as well as for the electrical installation, appliances and apparatus used in connection therewith, and will save Company harmless from and against all claims for injury or damage to persons or property occasioned by or in any way resulting from such service, or the use thereof on Customer's side of the point of delivery.

Customer without reimbursement, will make or procure conveyance to Company of Right-of-Way satisfactory to it across the property owned or controlled by Customer for the purpese thereof necessary or incidental to the supplying of service to Customer, or customer's property when such rights are limited to installations along dedicated streets and roads.
SECTION II - SUPPLY AND TAKING OF SERVICE Cont'd

8. Continuity of Service.

The Company shall make reasonable provisions to supply satisfactory and continuous electric service, but does not guarantee a constant or uninterrupted supply of electricity and shall not be liable for any damage or claim of damage attributable to any interruption or reversal of service caused by unavoidable accident or casualty, extraordinary action of the elements, action of any governmental authority, litigation, or by any cause which the Company could not have reasonably foreseen and made provision against.

9. Suspension of Service for Repairs and Changes.

When necessary to make repairs to or changes in Company's plant, generating equipment, transmission or distribution system, or other property, Company may, without incurring any liability therefor, suspend service for such periods as may be reasonably necessary, and in such manner as not to inconvenience Customer unnecessarily.

10. Use of Service.

(a) Service is supplied directly to Customer through Company's own meter and is to be used by Customer only for the purposes specified in and in accordance with the provisions of the Service Agreement and applicable Rate Schedule. Service is for Customer's use only and under no circumstances may Customer or Customer's agent or any other individual, association or corporation install meters for the purpose of remetering or reselling or otherwise disposing of service supplied Customer except as follows:

1. If on November 10, 1953, Customer was engaged in resale under a rate which permitted resale, the Company will continue to furnish electricity for resale at the same premises under the applicable effective rate schedule only on the condition that any charge made by Customer for service resold shall not exceed the charge determined in accordance with Company's applicable rate, as in effect from time to time, for like service, until and unless otherwise ordered by the Public Service Commission of Kentucky.

2. Customer operating an automobile trailer camp, with consent of Company may install meters and resell electricity to individual trailers only on the same condition in respect to charges as stated in paragraph 1. above.

(b) Customer will not build lines across or under a street, alley, lane, court or avenue or other public or private space in order to obtain service for adjacent property through one meter even though such adjacent property be owned by Customer. Consent may be given when such adjacent properties are operated as one integral unit under the same name and for carrying on parts of the same business.

(c) In case of unauthorized remetering, sale, extension or other disposition of service, Company may immediately discontinue the supplying of service to Customer until such unauthorized act is discontinued and full payment is made for all service supplied or used, billed on proper classification and Rate Schedule, and reimbursement in full made to Company for all extra expenses incurred, including expenses for clerical work, testing and inspections.

(d) No other electric light or power service, shall, except under a contract for auxiliary or supplementary service, be used by Customer on the same installation in conjunction with Company's service, either by means of a "Throwover" switch or any other connection.

Customer assumes all responsibility on Customer's side of the point of delivery (the end of the Company's service drop, or where Company's wires are joined to Customer's wires or apparatus) for the service supplied or taken, as well as for the electrical installation, appliances and apparatus used in connection therewith, and will save Company harmless from and against all claims for injury or damage to persons or property occasioned by or in any way resulting from such service or the use thereof on Customer's side of the point of delivery.

Customer, without reimbursement, will make or procure conveyance to Company of right-of-way satisfactory to it across the property owned or controlled by Customer for Company's lines or extensions thereof necessary or incidental to the supplying of service to Customer for customers beyond Customer's property when such rights are limited to installations along dedicated streets and roads.

The properly authorized agents of the Company shall at all reasonable hours have free access to the premises for the purpose of inspecting the Customer's installation and of examining, repairing or removing the Company's meters, or other property, reading of meters and all other purposes incident to the supplying of service, and for such purpose the Customer authorizes and requests his landlord, if any, to permit such access to the premises.

14. Location of Customer's Service Terminals.

Customer's service terminals are to be located at a point readily accessible to Company's service mains, such point to be determined by Company.
SECTION II - SUPPLYING AND TAKING OF SERVICE (Cont'd.)

The properly authorized agents of the Company shall at all reasonable hours have free access to the premises for the purpose of inspecting the Customer's installation and of examining, repairing or removing the Company's meters, or other property, reading of meters and all other purposes incident to the supplying of service, and for such purpose the Customer authorizes and requests his landlord, if any, to permit such access to the premises.

14. Location of Customer's Service Terminals.

Customer's service terminals are to be located at a point readily accessible to Company's service mains, such point to be determined by Company.

SECTION III - CUSTOMER'S INSTALLATIONS

All wiring and other electrical equipment in the premises or connecting the premises with Company's service, furnished by the Customer, shall be suitable for the purposes thereof, and shall be maintained by Customer at all times in conformity with the safety requirements of the accredited agency having jurisdiction and with the rules, regulations and requirements of Company in force from time to time.

16. Low Power Factor Equipment Installation.

In the case of neon lamps, mercury vapor lamps, and other gaseous tube lamps or devices, motors and other equipment having low power factors, served under the Company's standard rate schedules, not having Power Factor Correction Provision, the Customer will be required to provide at his own expense power factor corrective equipment designed to increase the power factor of any such lamps or devices, motors and other equipment to not less than .85.

When the power factor of any such equipment on the Customer's premises is less than .85, the following provision will apply:

(a) When the billing demand is determined by estimate based on the connected load of the Customer's installation, the wattage of such equipment will be taken as the volt ampere input or rating of such equipment.

(b) When the billing demand is measured by demand instruments, to the demand so established will be added the difference between the rating in watts of such equipment, and the input or rating of such equipment in volt amperes.

17. Special Power Apparatus.

In the case of hoists, elevators, welding machines or other installations, where the use of electricity is intermittent or subject to violent fluctuations, Company reserves the right to use the input rating or the metered instantaneous demand of such equipment under maximum operating conditions, for billing purposes, or to require the Customer to provide at his own expense, suitable equipment to reasonably limit such intermittence or fluctuation.

18. Changes in Installations.

As Company's service drops, transformers, meters, and other facilities used in supplying service to Customer have a limited capacity, Customer should give notice to Company, and obtain Company's consent, before making any material changes or increases in his installation. Company as promptly as possible after receipt of such notice will give its written approval to the proposed change or increase, or will advise Customer upon what conditions service can be supplied for such change or increase. Any change affecting an estimated billing demand shall be rerated by Company's inspector and shall become effective from the succeeding meter reading.

SECTION IV - COMPANY'S INSTALLATION

19. Installation and Maintenance.

Except as otherwise provided in these Service Regulations, in Service Appearance and Function Schedules, Company will install and maintain its lines and equipment on its side of the point of delivery, but shall not be required to install or maintain any lines or equipment, except meters, or transformers, on Customer's side of the point of delivery without cost to Customer. Only Company's agents are authorized to connect Company's service drop to Customer's service terminals.

Company installs its overhead service drop, supplies one set of service drop attachment fittings and makes connection to Customer's service terminals.

Issued: February 6, 1980

Effective: August 26, 1974

Issued by W. H. Dickhoner, President

The properly authorized agents of the company shall at all reasonable hours have free access to the premises for the purpose of inspecting the customer's installation and of examining, repairing, or removing the company's meters, or other property, reading of meters and all other purposes incident to the supplying of service, and for such purpose the customer authorizes and requests his landlord, if any, to permit such access to the premises.

14. Location of Customer's Service Terminals.

Customer's service terminals are to be located at a point readily accessible to company's service mains, such point to be determined by company.

SECTION III - CUSTOMER'S INSTALLATIONS

All wiring and other electrical equipment in the premises or connecting the premises with company's service, furnished by the customer, shall be suitable for the purposes thereof, and shall be maintained by customer at all times in conformity with the safety requirements of the accredited agency having jurisdiction and with the rules, regulations and requirements of company in force from time to time.

16. Low Power Factor Equipment Installation.

In the case of neon lamps, mercury vapor lamps, and other gaseous tube lamps or devices, motors and other equipment having low power factors, served under the company's standard rate schedules, not having power factor correction provision, the customer will be required to provide at his own expense power factor corrective equipment designed to increase the power factor of any such lamps or devices, motors and other equipment to not less than .85.

When the power factor of any such equipment on the customer's premises is less than .85, the following provision will apply:

(b) When the billing demand is measured by demand instruments, to the demand so established will be added the difference between the rating in watts of such equipment, and the input or rating of such equipment in volt amperes.

17. Special Power Apparatus.

In the case of hoists, elevators, welding machines or other installations, where the use of electricity is intermittent or subject to violent fluctuations, company reserves the right to use the input rating or the metered instantaneous demand of such equipment under maximum operating conditions, for billing purposes, or to require the customer to provide at his own expense, suitable equipment to reasonably limit such intermittence or fluctuation.

18. Changes in Installations.

As company's service drops, transformers, meters, and other facilities used in supplying service to customer have a limited capacity, customer should give notice to company, and obtain company's consent, before making any material changes or increases in his installation. Company as promptly as possible after receipt of such notice will give its written approval to the proposed change or increase, or will advise customer upon what conditions service can be supplied for such change or increase. Any change affecting an estimated billing demand shall be rated by company's inspector and shall become effective from the succeeding meter reading.

SECTION IV - COMPANY'S INSTALLATION

19. Installation and Maintenance.

Except as otherwise provided in these Service Regulations, in Service Agreements or Rate Schedules, company will install and maintain its lines and equipment on its side of point of delivery, but shall not be required to install or maintain any lines or equipment, except meters or transformers, on customer's side of the point of delivery without cost to customer. Only company's agents are authorized to connect company's service drop to customer's service terminals.

Company installs its overhead service drop, supplies one set of service drop attachment fittings and makes connection to customer's service terminals.

SECTION III - CUSTOMER'S INSTALLATIONS

All wiring and other electrical equipment in the premises or connecting the premises with Company's service, furnished by the Customer, shall be suitable for the purposes thereof, and shall be maintained by Customer at all times in conformity with the safety requirements of the accredited agency having jurisdiction and with the rules, regulations and requirements of Company in force from time to time.

16. Low Power Factor Equipment Installation.

In the case of neon lamps, mercury vapor lamps, and other gaseous tube lamps or devices, motors and other equipment having low power factors, served under the Company's standard rate schedules, not having Power Factor Correction Provision, the Customer will be required to provide at his own expense power factor corrective equipment designed to increase the power factor of any such lamps or devices, motors and other equipment to not less than .85.

When the power factor of any such equipment on the Customer's premises is less than .85, the following provision will apply:

(a) When the billing demand is determined by estimate based on the connected load of the Customer's installation, the wattage of such equipment will be taken as the volt ampere input or rating of such equipment.

(b) When the billing demand is measured by demand instruments, to the demand so established will be added the difference between the rating in watts of such equipment, and the input or rating of such equipment in volt amperes.

17. Special Power Apparatus.

In the case of hoists, elevators, welding machines or other installations, where the use of electricity is intermittent or subject to violent fluctuations, Company reserves the right to use the input rating or the metered instantaneous demand of such equipment under maximum operating conditions, for billing purposes, or to require the Customer to provide at his own expense, suitable equipment to reasonably limit such intermittence or fluctuation.

18. Changes in Installations.

As Company's service drops, transformers, meters, and other facilities used in supplying service to Customer have a limited capacity, Customer should give notice to Company, and obtain Company's consent, before making any material changes or increases in his installation. Company as promptly as possible after receipt of such notice will give its written approval to the proposed change or increase, or will advise Customer upon what conditions service can be supplied for such change or increase. Any change affecting an estimated billing demand shall be rerated by Company's inspector and shall become effective from the succeeding meter reading.

SECTION IV - COMPANY'S INSTALLATION

19. Installation and Maintenance.

Except as otherwise provided in these Service Regulations, in Service Agreements or Rate Schedules, Company will install and maintain its lines and equipment on its side of the point of delivery, but shall not be required to install or maintain any lines or equipment, except meters, or transformers, on Customer's side of the point of delivery without cost to Customer. Only Company's agents are authorized to connect Company's service drop to Customer's service terminals.

Company installs its overhead service drop, supplies one set of service drop attachment fittings and makes connection to Customer's service terminals.

The rates for each class of service provided for in the Rate Schedules contemplate the furnishing of service to one location or premise through one standard service connection. Where Customer is receiving service through more than one standard service connection, Company will calculate and render a separate bill for service furnished through each service connection.

Subject to the rules, conditions and riders covering the installation of service connections and extensions, Company will make one standard service connection to Customer's installation; if three phase service is required an additional connection is necessary, both will be considered as one standard service connection.

20. Company's Property and Protection Thereof.

All meters, and equipment furnished by and at the expense of Company, which may at any time be in said premises, shall, unless otherwise expressly provided herein, be and remain the property of Company, and Customer shall protect such property from loss or damage, and no one who is not an agent of Company shall be permitted to remove or handle same.

Issued: August 30, 1974
Issued by B. John Yeager, President
Covington, Kentucky
SECTION IV - COMPANY'S INSTALLATION (Cont'd.)

19. Installation and Maintenance (Cont'd.)

The rates for each class of service provided for in the Rate Schedules contemplate the furnishing of service to one location or premise through one standard service connection. Where customer is receiving service through more than one standard service connection, Company will calculate and render a separate bill for service furnished through each service connection.

Subject to the rules, conditions and riders covering the installation of service connections and extensions, Company will make one standard service connection to Customer's installation; if three phase service is required an additional connection is necessary, both will be considered as one standard service connection.

20. Company's Property and Protection Thereof.

All meters, and equipment furnished by and at the expense of Company, which may at any time be in said premises, shall, unless otherwise expressly provided herein, be and remain the property of Company, and Customer shall protect such property from loss or damage, and no one who is not an agent of Company shall be permitted to remove or handle same.

SECTION V - METERING

Electricity will be measured by a meter or meters to be installed by Company upon customer's premises at a point most convenient for Company's service drop, and upon the registration of said meter or meters all bills will be calculated. Company will install upon customer's premises but one meter or one unified set of meters of each standard service connection.

All meter tests shall be made in accordance with rules by the Energy Regulatory Commission of Kentucky.

SECTION VI - BILLING AND PAYMENT

23. Billing Periods - Time and Place for Payment of Bills.

Bills ordinarily are rendered regularly at monthly intervals, but may be rendered more or less frequently at Company's option. Non-receipt of bills by customer does not release or diminish the obligation of Customer with respect to payment thereof.

The word "month" as it pertains to the supply of service shall mean the period of approximately thirty days between meter readings as fixed and made by Company. Meters are ordinarily read at monthly intervals but may be read more or less frequently at Company's option. Company shall have the right to establish billing districts for the purpose of reading meters and rendering bills to customers at various dates. A change or revision of any Rate Schedule shall be applicable to all bills on which the initial monthly meter reading was taken on or after the effective date of such change or revision, except as otherwise ordered by the Energy Regulatory Commission of Kentucky.

Bills are due on the date indicated thereon as being the last date for payment of the net amount, and bills are payable only at the Company's offices or authorized agencies for collection. If a partial payment is made, the amount will be applied to items of indebtedness in the same order as they have accrued.

The Company may issue interim bills based on average normal usage instead of determining actual usage by reading the meter. Interim bills may also be used when access to Company's meter cannot be obtained or emergency conditions exist.

Interim bills will be considered payable by the due date and if not then paid will be handled in the same manner as all other bills; provided, however, partial payment of at least one-half of the interim bill, in addition to full payment of any unpaid service charges previously billed and other billed items, will avoid the delayed payment charge on the interim bill.

The Company will continue monthly meter reading upon a customer's request.

24. Charge for Restoring Service for Non-Payment of Bill and Unlawful Use of Service.

Company may charge and collect in advance the sum as specified on Tariff Sheet "Charge for Reconnection of Service" for reconnecting a customer's service after service is disconnected because of non-payment of bill when due or when service is discontinued because of fraudulent use.

25. Temporary Discontinuance of Service.

If any customer on a residential rate, because of absence or otherwise, shall notify Company in writing to discontinue service, Company will make no minimum charge for any full meter reading period during the period of discontinuance; provided, however, that Company may charge and collect the sum as specified on Tariff Sheet "Charge for Reconnection of Service" prior to reconnecting a service which was discontinued at customer's request within the preceding twelve months.

The word "month" as it pertains to the supply of service shall mean the period of approximately thirty days between meter readings as fixed and made by Company. Meters are ordinarily read at monthly intervals but may be read more or less frequently at Company's option. Company shall have the right to establish billing districts for the purpose of reading meters and rendering bills to customers at various dates. A list of changes or revisions of any Rate Schedule shall be applicable to all bills on which the initial monthly meter reading was taken on or after the effective date of such change or revision, except as otherwise ordered by the Energy Regulatory Commission of Kentucky.

Bills are due on the date indicated thereon as being the last date for payment of the net amount, and bills are payable only at the Company's offices or authorized agencies for collection. If a partial payment is made, the amount will be applied to items of indebtedness in the same order as they have accrued.

The Company may issue interim bills based on average normal usage instead of determining actual usage by reading the meter. Interim bills may also be used when access to Company's meter cannot be obtained or emergency conditions exist.

Interim bills will be considered payable by the due date and if not then paid will be handled in the same manner as all other bills; provided, however, partial payment of at least one-half of the interim bill, in addition to full payment of any unpaid service charges previously billed for the billed items, will avoid the delayed payment charge on the interim bill.

The Company will continue monthly meter reading upon a customer's request.

24. Charge for Restoring Service for Non-Payment of Bill and Unlawful Use of Service.

Company may charge and collect in advance the sum as specified on Tariff Sheet "Charge for Reconnection of Service" for reconnecting a customer's service after service is disconnected because of non-payment of bill when due or when service is disconnected because of fraudulent use.

25. Temporary Discontinuance of Service.

If any customer on a residential rate, because of absence or otherwise, shall notify Company in writing to disconnect service, Company will make no minimum charge for any full meter reading period during the period of discontinuance; provided, however, that Company may charge and collect the sum as specified on Tariff Sheet "Charge for Reconnection of Service" prior to reconnecting a service which was disconnected at customer's request within the preceding twelve months.
SECTION V - METERING

Electricity will be measured by a meter or meters to be installed by Company upon customer's premises at a point most convenient for Company's service drop, and upon the registration of said meter or meters all bills will be calculated. Company will install upon customer's premises but one meter or one unified set of meters of each standard service connection.

All meter tests shall be made in accordance with rules by the Energy Regulatory Commission of Kentucky.

SECTION VI - BILLING AND PAYMENT

23. Billing Periods - Time and Place for Payment of Bills.

Bills ordinarily are rendered regularly at monthly intervals, but may be rendered more or less frequently at Company's option. Non-receipt of bills by customer does not release or diminish the obligation of customer with respect to payment thereof.

The word "month" as it pertains to the supply of service shall mean the period of approximately thirty days between meter readings as fixed and made by Company. Meters are ordinarily read at monthly intervals but may be read more or less frequently at Company's option. Company shall have the right to establish billing districts for the purpose of reading meters and rendering bills to customers at various dates. A change or revision of any Rate Schedule shall be applicable to all bills on which the initial monthly meter reading was taken on or after the effective date of such change or revision, except as otherwise ordered by the Energy Regulatory Commission of Kentucky.

Bills are due on the date indicated thereon as being the last date for payment of the net amount, and bills are payable only at the Company's offices or authorized agencies for collection. If a partial payment is made, the amount will be applied to items of indebtedness in the same order as they have accrued.

The Company may issue interim bills based on average normal usage instead of determining actual usage by reading the meter. Interim bills may also be used when access to Company's meter cannot be obtained or emergency conditions exist.

Interim bills will be considered payable by the due date and if not then paid will be handled in the same manner as all other bills; provided, however, partial payment of at least one-half of the interim bill, in addition to full payment of any unpaid service charges previously billed and other billed items, will avoid the delayed payment charge on the interim bill.

The Company will continue monthly meter reading upon a customer's request.

24. Charge for Restoring Service for Non-Payment of Bill and Unlawful Use of Service.

(T) Company may charge and collect in advance the sum as specified on Tariff Sheet "Charge for Reconnection of Service" for reconnecting a customer's service after service is disconnected because of non-payment of bill when due or when service is disconnected because of fraudulent use.

25. Temporary Discontinuance of Service.

(T) If any customer on a residential rate, because of absence or otherwise, shall notify Company in writing to discontinue service, Company will make no minimum charge for any full meter reading period during the period of discontinuance; provided, however, that Company may charge and collect the sum as specified on Tariff Sheet "Charge for Reconnection of Service" prior to reconnecting a service which was discontinued at customer's request within the preceding twelve months.

26. Selection of Rate Schedule.

When a prospective customer makes application for service, Company will, upon request, assist in the selection of the Rate Schedule most favorable to customer for the service requested. The selection will be based on the prospective customer's statement as to the class of service desired, the amount and manner of use, and any other pertinent information.

27. Change to Optional Rate Schedule.

A customer being billed under one of two or more optional Rate Schedules applicable to his class of service may elect to be billed on any other applicable Rate Schedule by notifying Company in writing, and Company will bill customer under such elected Schedule from and after the date of the next meter reading. However, a customer having made such a change of Rate Schedule may not make another such change within the next twelve months.

SECTION VII - DEPOSITS

Company maintains the right at any time to require customer to make a reasonable deposit in advance to secure the prompt payment of bills, as provided by law.

Issued by authority of an Order of the Energy Regulatory Commission of Kentucky, dated April 13, 1979, Case No. 7268.

Issued: April 23, 1979

Effective April 23, 1979

SECTION VI - BILLING AND PAYMENT (Cont'd)

26. Selection of Rate Schedule.

When a prospective customer makes application for service, Company will, upon request, assist in the selection of the Rate Schedule most favorable to customer for the service requested. The selection will be based on the prospective customer's statement as to the class of service desired, the amount and manner of use, and any other pertinent information.

27. Availability of Budget Billing.

Company has available to its customers a "Budget Billing Plan" which minimizes billing amount fluctuations over a twelve month period. The Company may exercise discretion as to the availability of such a plan to a customer based on reasonable criteria, including but not limited to:

(a) Customer's recent payment history.
(b) The amount of the delinquent account.
(c) Customer's payment performance in respect to any prior arrangements or plans.
(d) Any other relevant factors concerning the circumstances of the customer including health and age.

28. Change to Optional Rate Schedule.

A customer being billed under one of two or more optional Rate Schedules applicable to his class of service may elect to be billed on any other applicable Rate Schedule by notifying Company in writing, and Company will bill customer under such elected Schedule from and after the date of the next meter reading. However, a customer having made such a change of Rate Schedule may not make another such change within the next twelve months.

SECTION VII - DEPOSITS

29. Deposits.

Company maintains the right at any time to require customer to make a reasonable deposit in advance to secure the prompt payment of bills, as provided by law.

SECTION VIII - APPLICATION

30. Application of Service Regulations and Rate Schedules.

All Service Agreements at present in effect or that may be entered into in the future are made expressly subject to these Service Regulations and any modifications thereof that may be lawfully made, and subject to all applicable existing Rate Schedules and any lawfully made change therein, substitutions therefor or additions thereto.

31. Agents Cannot Modify Agreement.

No agent has the right to amend, modify or alter the application, rates, terms, conditions, rules or regulations as filed with the Energy Regulatory Commission of Kentucky, or to make any promise or representation not contained in the Company's schedules, supplements thereto and revisions thereof, lawfully filed with said commission.
SECTION VI - BILLING AND PAYMENT (Cont'd)

26. Selection of Rate Schedule.

When a prospective customer makes application for service, Company will, upon request, assist in the selection of the Rate Schedule most favorable to customer for the service requested. The selection will be based on the prospective customer's statement as to the class of service desired, the amount and manner of use, and any other pertinent information.

27. Availability of Budget Billing.

Company has available to its customers a "Budget Billing plan" which minimizes billing amount fluctuations over a twelve month period. The Company may exercise discretion as to the availability of such a plan to a customer based on reasonable criteria, including but not limited to:

(a) Customer's recent payment history.
(b) The amount of the delinquent account.
(c) Customer's payment performance in respect to any prior arrangements or plans.
(d) Any other relevant factors concerning the circumstances of the customer including health and age.

28. Change to Optional Rate Schedule.

A customer being billed under one of two or more optional Rate Schedules applicable to his class of service may elect to be billed on any other applicable Rate Schedule by notifying Company in writing, and Company will bill customer under such elected Schedule from and after the date of the next meter reading. However, a customer having made such a change of Rate Schedule may not make another such change within the next twelve months.

SECTION VII - DEPOSITS

29. Deposits.

Company maintains the right at any time to require customer to make a reasonable deposit in advance to secure the prompt payment of bills, as provided by law.

RATE RS

RESIDENTIAL SERVICE

AVAILABILITY

Available in all territory to which E.R.C. Ky. No. 3 applies where facilities of suitable voltage and adequate capacity are adjacent to the premise to be served.

APPLICABILITY

Applicable to electric service other than three phase service, for all domestic purposes in private residences, and single occupancy apartments.

Residences where not more than two rooms are used for rental purposes will also be included. Where multi-occupancy buildings are served through one meter this Rate will be applied on a "per residence" or "per apartment" basis. Service to the halls, basement or other common use portions of an apartment building will not be supplied under this Rate.

Where a portion of a residential unit is used for purposes of a commercial or public character, the appropriate General Service Rate is applicable to all service; provided that if the wiring is so arranged that the service for residential purposes can be metered separately, this Rate will be applied to the residential service, if the service qualifies hereunder.

TYPE OF SERVICE

Alternating current 60 Hz, single phase at Company's standard secondary voltage.

NET MONTHLY BILL

(I) Computed in accordance with the following charges:

First 100 kilowatt hours at 6.3320 per kilowatt hour
Next 100 kilowatt hours at 3.9380 per kilowatt hour
Next 300 kilowatt hours at 3.5344 per kilowatt hour
Next 500 kilowatt hours at 3.2840 per kilowatt hour
Additional kilowatt hours at 3.0044 per kilowatt hour

When electricity is used for "qualified" space heating, all kilowatt hours in excess of 1500 will be billed at 2.9540 per kilowatt hour.

Plus or minus an adjustment per kwh determined in accordance with the "FUEL COST ADJUSTMENT" set forth on Sheet No. 38 of this tariff.

Minimum: $2.90

When bills are rendered less frequently than monthly, the time related units such as energy blocks, minimum or other charges will be billed in accordance with the number of billing months in the meter reading interval.

WATER HEATING SERVICE

(2) Rider WHS-Water Heating Service is not applicable to this rate. When Company approved electric water heaters are installed and in use as the primary source of heating water, the 3.5344 and 3.2840 per kilowatt hour blocks of energy will be altered as follows:

First 100 kilowatt hours plus forty (40) percent of the total kilowatt hours used in the month shall be billed at 2.9540 per kilowatt hour, except the maximum number of kilowatt hours to be billed at 2.9540 per kilowatt hour is five hundred (500). The remaining kilowatt hours in this energy block shall be billed at 3.2840 per kilowatt hour.

This water heating service is not applicable where there is in use an electric water heater which may impose a demand greater than 5.5 kilowatts or to any new or replacement water heater installation or succession in the case of an old installation after August 26, 1974.

QUALIFIED SPACE HEATING

"Qualified" space heating is the heating of residential living quarters primarily through the regular use of permanently connected electric heating equipment, the installation of which meets Company's specifications.

PAYMENT

(7) The Net Monthly Bill is payable within fourteen (14) days from delivery date which is indicated as "Last Day to Pay Net Amount" on the bill. When not so paid, the Gross Monthly Bill, which is the Net Monthly Bill plus 5% is due and payable.

SERVICE REGULATIONS

The supplying of, and billing for, service and all conditions applying thereto, are subject to the jurisdiction of the Energy Regulatory Commission of Kentucky, and to Company's Service Regulations currently in effect, as filed with the Energy Regulatory Commission of Kentucky, as provided by law.

Issued by authority of an Order of the Energy Regulatory Commission of Kentucky, dated April 13, 1979, in Case No. 7268.

Issued: April 23, 1979

TYPE OF SERVICE
Alternating current 60 Hz, single phase at Company's standard secondary voltage.

NET MONTHLY BILL
Computed in accordance with the following charges:

First 100 kilowatt hours at 6.600 per kilowatt hour
Next 100 kilowatt hours at 4.200 per kilowatt hour
Next 300 kilowatt hours at 3.600 per kilowatt hour
Next 500 kilowatt hours at 3.550 per kilowatt hour
Additional kilowatt hours at 3.270 per kilowatt hour

When electricity is used for "qualified" space heating, all kilowatt hours in excess of 400 will be billed at 3.170 per kilowatt hour.

Plus or minus an adjustment per kWh determined in accordance with the "FUEL COST ADJUSTMENT" set forth on Sheet No. 38 of this tariff.

Minimum: $3.15

When bills are rendered less frequently than monthly, the time related units such as energy blocks, minimum or other charges will be billed in accordance with the number of billing months in the meter reading interval.

WATER HEATING SERVICE
Rider WHS—Water Heating Service is not applicable to this rate.

When Company approved electric water heaters are installed and in use as the primary source of heating water, the 3.802 and 3.552 per kilowatt hour blocks of energy will be altered as follows:

First 100 kilowatt hours plus forty (40) percent of the total kilowatt hours used in the month shall be billed at 3.220 per kilowatt hour, except the maximum number of kilowatt hours to be billed at 3.220 per kilowatt hour is five hundred (500). The remaining kilowatt hours in this energy block shall be billed at 3.552 per kilowatt hour.

This water heating service is not applicable where there is in use an electric water heater which may impose a demand greater than 5.5 kilowatts or to any new or replacement water heater installation or succession in the case of an old installation after August 26, 1974.

QUALIFIED SPACE HEATING
"Qualified" space heating is the heating of residential living quarters primarily through the regular use of permanently connected electric heating equipment, the installation of which meets Company's specifications.

PAYMENT
(T) Payment of the Net Monthly Bill must be received in the Company's office within twenty-one (21) days from the date the bill is mailed by the Company. When not so paid, the Gross Monthly Bill, which is the Net Monthly Bill plus 5%, is due and payable.

SERVICE REGULATIONS
The supplying of, and billing for, service and all conditions applying thereto, are subject to the jurisdiction of the Energy Regulatory Commission of Kentucky, and to Company's Service Regulations currently in effect, as filed with the Energy Regulatory Commission of Kentucky, as provided by law.

Effective: February 19, 1980

GENERAL SERVICE

AVAILABILITY
Available in all territory to which E.R.C. Ky. No. 3 applies where facilities of suitable voltage and adequate capacity are adjacent to the premise to be served.

APPLICABILITY
Applicable to electric service required for any purpose by an individual customer on one premise when supplied at one point of delivery; except, breakdown, standby, supplemental or resale service when not in conformity with the Company's Service Regulations.

When both single and three phase service are required by a customer, the monthly kilowatt hour usage shall be the arithmetical sum of both services.

TYPE OF SERVICE
Alternating current 60 Hz, single or three phase at the Company's standard voltage.

NET MONTHLY BILL
Computed in accordance with the following charges:

<table>
<thead>
<tr>
<th>Demand Charge:</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>First 15 kilowatts of demand or less</td>
<td>$0.00</td>

</tbody>
</table>

Plus or minus an adjustment per kWh determined in accordance with the "FUEL COST ADJUSTMENT" set forth on Sheet No. 38 of this tariff.

Minimum: The demand charge but not less than $5.70. A three phase customer whose demand does not exceed 15 kW will be charged an additional surcharge of $4.90 per month for the three phase service.

METERING
The Company may meter at secondary or primary voltage as circumstances warrant.

Secondary voltage service is defined as that service where the Company furnishes standard rating primary voltage transformers and appurtenances and supplies service from its overhead or underground systems at standard secondary voltage.

Primary voltage service is defined as that service where the customer furnishes primary voltage transformers and appurtenances and takes service from the Company's overhead or underground system at standard primary nominal voltage of 12.5 kV or higher. If the Company elects to meter at primary voltage, the kilowatt hours registered on the Company's meter will be reduced one and one-half (1-1/2) percent for billing purposes.

If primary voltage service is furnished, the Demand Charge, as stated above, is subject to the following discount per kw billing demand:

<table>
<thead>
<tr>
<th>Demand</th>
<th>12.5 kV</th>
<th>33 kV</th>
<th>69 kV</th>
<th>138 kV</th>

<td>$0.45</td>
<td>$0.55</td>
</tr>
</tbody>
</table>

DEMAND
The demand shall be the kilowatts derived from the Company's demand meter for the fifteen minute period of customer's greatest use during the month, as determined by the Company, adjusted for power factor, as provided herein. At the Company's option, a demand meter may not be installed if the nature of the load clearly indicates the load will have a constant demand, in which case the demand will be the calculated demand. A demand meter may be installed on a single phase account when consumption equals or exceeds 1200 kilowatt hours per month for four consecutive months or 2400 kilowatt hours for two consecutive bi-monthly billing periods.

Issued by authority of an Order of the Energy Regulatory Commission of Kentucky, dated February 19, 1980

Issued: February 22, 1980

Effective: February 19, 1980

Subject to Refund
### GENERAL SERVICE

**AVAILABILITY**
Available in all territory to which E.R.C. Ky. No. 3 applies where facilities of suitable voltage and adequate capacity are adjacent to the premise to be served.

**APPLICABILITY**
Applicable to electric service required for any purpose by an individual customer on one premise when supplied at one point of delivery except, breakdown, standby, supplemental or resale service. When both single and three phase service are required by a customer, the monthly kilowatt hour usage shall be the arithmetical sum of both services.

**TYPE OF SERVICE**
Alternating current 60 Hz, single or three phase at the Company's standard voltage.

### NET MONTHLY BILL
Computed in accordance with the following charges:

- **Demand Charge:**
  - First 15 kilowatts of demand or less: $0.00
  - Next 35 kilowatts of demand: $2.90 per kilowatt
  - Next 50 kilowatts of demand: $2.40 per kilowatt
  - Additional kilowatts of demand:
    - at $2.90 per kilowatt
    - at $2.40 per kilowatt

- **Energy Charge:**
  - First 500 kilowatt hours: at $2.90 per kilowatt hour
  - Next 1,500 kilowatt hours: at $2.85 per kilowatt hour
  - Next 4,000 kilowatt hours: at $2.40 per kilowatt hour
  - Next 60 kilowatt hours per kilowatt of demand: at $2.40 per kilowatt hour
  - Next 120 kilowatt hours per kilowatt of demand: at $2.11 per kilowatt hour
  - Additional kilowatt hours:
    - at $0.85 per kilowatt hour
    - at $0.55 per kilowatt hour

Plus or minus an adjustment per kWh determined in accordance with the "FUEL COST ADJUSTMENT" set forth on Sheet No. 38 of this tariff.

- Minimum: The demand charge but not less than $5.25. A three phase customer whose demand does not exceed 15 kW will be charged an additional surcharge of $4.50 per month for the three phase service.

### METERING
The Company may meter at secondary or primary voltage as circumstances warrant.

Secondary voltage service is defined as that service where the Company furnishes standard rating primary voltage transformers and appurtenances and supplies service from its overhead or underground systems at standard secondary voltage.

Primary voltage service is defined as that service where the customer furnishes primary voltage transformers and appurtenances and takes service from the Company's overhead or underground system at standard primary nominal voltage of 12.5 kV or higher. If the Company elects to meter at primary voltage, the kilowatt hours registered on the Company's meter will be reduced one and one-half (1-1/2) percent for billing purposes.

If primary voltage service is furnished, the Demand Charge, as stated above, is subject to the following discount per kW billing demand:

### DEMAND
The demand shall be the kilowatts derived from the Company's demand meter for the fifteen minute period of customer's greatest use during the month, as determined by the Company, adjusted for power factor, as provided herein. At the Company's option, a demand meter may not be installed if the nature of the load clearly indicates the load will have a constant demand, in which case the demand will be the calculated demand. A demand meter may be installed on a single phase account when consumption equals or exceeds 1200 kilowatt hours per month for four consecutive months or 2400 kilowatt hours for two consecutive bi-monthly billing periods.

Issued by authority of an Order of the Energy Regulatory Commission of Kentucky, dated April 13, 1979 in Case No. 7265.

Issued: January 30, 1980

Issued by W. H. Dickhoner, President

Effective: February 15, 1980

RATE GS

GENERAL SERVICE

AVAILABILITY
Available in all territory to which E.R.C. Ky. No. 3 applies where facilities of suitable voltage and adequate capacity are adjacent to the premise to be served.

APPLICABILITY
Applicable to electric service required for any purpose by an individual customer on one premise when supplied at one point of delivery; except, breakdown, standby, supplemental or resale service when not in conformity with the Company's Service Regulations.

When both single and three phase service are required by a customer, the monthly kilowatt hour usage shall be the arithmetical sum of both services.

TYPE OF SERVICE
Alternating current 60 Hz, single or three phase at the Company's standard voltage.

NET MONTHLY BILL
(1) Computed in accordance with the following charges:

Demand Charge:
First 15 kilowatts of demand or less at $0.00
Next 35 kilowatts of demand at $2.90 per kilowatt
Next 50 kilowatts of demand at $2.85 per kilowatt
Additional kilowatts of demand at $2.40 per kilowatt

Energy Charge:
First 500 kilowatt hours at 6.8580 per kilowatt hour
Next 1,500 kilowatt hours at 4.8580 per kilowatt hour
Next 4,000 kilowatt hours at 3.7780 per kilowatt hour
Next 6,000 kilowatt hours per kilowatt of demand at 2.9316 per kilowatt hour
Next 120 kilowatt hours per kilowatt of demand at 2.4920 per kilowatt hour
Next 120 kilowatt hours per kilowatt of demand at 2.1190 per kilowatt hour
Additional kilowatt hours at 2.0130 per kilowatt hour

Plus or minus an adjustment per kWh determined in accordance with the "FUEL COST ADJUSTMENT" set forth on Sheet No. 38 of this tariff.

Minimum: The demand charge but not less than $5.25. A three phase customer whose demand does not exceed 15 kW will be charged an additional surcharge of $4.50 per month for the three phase service.

METRERING
The Company may meter at secondary or primary voltage as circumstances warrant.

Secondary voltage service is defined as that service where the Company furnishes standard rating primary voltage transformers and appurtenances and supplies service from its overhead or underground systems at standard secondary voltage.

Primary voltage service is defined as that service where the customer furnishes primary voltage transformers and appurtenances and takes service from the Company's overhead or underground system at standard primary nominal voltage of 12.5 kV or higher. If the Company elects to meter at primary voltage, the kilowatt hours registered on the Company's meter will be reduced one and one-half (1-1/2) percent for billing purposes.

If primary voltage service is furnished, the Demand Charge, as stated above, is subject to the following discount per kW billing demand:

<table>

Energy Regulatory Commission

MAY 8 1979

by

ENGINEERING DIVISION
DEMAND (Continued)

The minimum billing demand will be 1 kW for single phase service and 5 kW for three phase service. When both single phase service and three phase service are supplied, each shall be metered separately, and the demand for billing purposes shall be the arithmetical sum of the demand for single phase service and for three phase service.

In no event will the billing demand be taken as less than the higher of the following:

a) 95% of the highest monthly kilowatt demand similarly established during the period from June 15 through October 15, including three days before or after this period when required for meter reading purposes;

b) 70% of the highest monthly kilowatt demand similarly established for the eight remaining monthly billing periods; or

c) 300 kilowatts for primary voltage service.

If a customer reconnects his account, the customer’s demand record for the prior 11 months will be re-established for purposes of administration of the preceding clause. If a customer disconnects one of his meters, the customer’s prior 11 months of kW demand including the kW recorded on the disconnected meter, will be effective for administration of the previous clause.

POWER FACTOR ADJUSTMENT

The power factor to be maintained shall be not less than 90% lagging. If the Company determines customer’s power factor to be less than 90%, the billing demand will be the number of kilowatts equal to the kilovolt amperes multiplied by 0.90.

Power factor may be determined by the following methods, at the Company's option:

a. Continuous measurement

   - the power factor, as determined during the interval in which the maximum kW demand is established, will be used for billing purposes; or

b. Testing

   - the power factor, as determined during a period in which the customer's measured kW demand is not less than 90% of the measured maximum kW demand of the preceding billing period, will be used for billing purposes until superseded by a power factor determined by a subsequent test made at the direction of Company or request of customer.

PAYMENT

(1) Payment of the Net Monthly Bill must be received in the Company’s office within twenty-one (21) days from the date the bill is mailed by the Company. When not so paid, the Gross Monthly Bill, which is the Net Monthly Bill plus 5%, is due and payable.

TERM OF SERVICE

Three (3) years, terminable thereafter on ten (10) days written notice by either customer or Company.

SERVICE REGULATIONS

The supplying of, and billing for, service and all conditions applying thereto, are subject to the jurisdiction of the Energy Regulatory Commission of Kentucky, and to Company’s Service Regulations currently in effect, as filed with the Energy Regulatory Commission of Kentucky, as provided by law.

MUNICIPAL WATER PUMPING

AVAILABILITY
Available in all territory to which E.R.C. Ky. No. 3 applies where facilities of suitable voltage and adequate capacity are adjacent to the premises to be served.

APPLICABILITY
Applicable to electric service required for municipal water pumping when supplied at one point of delivery.

TYPE OF SERVICE
Alternating current 60 hertz, single or three phase at Company's standard secondary voltage.

NET MONTHLY BILL
Computed in accordance with the following charges:

3.8960 per kWh.

Plus or minus an adjustment per kWh determined in accordance with the "FUEL COST ADJUSTMENT" set forth on Sheet No. 38 of this tariff.

In consideration of the low rate for municipal pumping, customer agrees to restrict service between the hours of 5:00 p.m. and 10:00 p.m. except in cases of emergency.

Plus the proportionate part of any present and/or new tax, or increased rate of tax, or governmental imposition (except state, county, city, and special district ad valorem taxes and any income taxes) levied or assessed against the Company or upon its electric business, as the result of any present and/or new or amended laws after January 1, 1940.

Minimum:

$1.35 per connected HP per month.

Connected HP: Total of manufacturer's nameplate rating of equipment which can be operated simultaneously.

PAYMENT
(7) Payment of the Net Monthly Bill must be received in the Company's office within twenty-one (21) days from the date the bill is mailed by the Company. When not so paid, the Gross Monthly Bill, which is the Net Monthly Bill plus 5%, is due and payable.

TERM OF SERVICE
One (1) year, terminable thereafter on ten (10) days written notice by either customer or Company.

SERVICE REGULATIONS

RIDER WHS
WATER HEATING SERVICE

AVAILABILITY
Available in all territory to which E.R.C. Ky. No. 3 applies where facilities of suitable voltage and adequate capacity are adjacent to the premises to be served. This rider is to be discontinued and is not available for service to any new or replacement water heater installation or succession in the case of an old installation after August 26, 1974.

APPLICABILITY
Applicable to electric service for the operation of a permanently connected and regularly used storage water heater conforming to the specifications set out below, when used in connection with other electric service supplied at standard rates. Electric service for water heaters not conforming to the specifications set out below is available at the standard "General Service" Rate.

TYPE OF SERVICE
Service will be in accordance with the specifications of the standard applicable rate to which this rider applies.

NET MONTHLY BILL
(I) Computed in accordance with the following charges:
For kWh up to the maximum shown in the tabulation below according to size of water heater, but only after the balance of energy used (but not less than 200 kWh) is billed at the applicable standard "General Service" Rate.

\[ 3.22 \text{¢ per kWh} \]
Plus or minus an adjustment per kWh determined in accordance with the "FUEL COST ADJUSTMENT" set forth on Sheet No. 38 of this tariff.

Minimum: $1.35 per month to be added to the minimum of the standard service rate.

When bills are rendered less frequently than monthly, the time related units such as energy blocks, minimum or other charges, will be billed in accordance with the number of billing months in the meter reading interval.

WATER HEATER SPECIFICATIONS
Company approved water heaters shall consist of an insulated tank of not less than 30 gallons capacity equipped with either: (a) two 240 volt (208 volt for underground network), thermostatically controlled, non-inductive heating elements, one of which is located near the bottom of the tank and the other of which is located approximately one quarter of the way down from the top of the tank, with interlocked thermostats connected so that both elements cannot be operated at the same time; or, (b) one 250 volt (208 volt for underground network), thermostatically controlled, non-inductive heating element located near the bottom of the tank, maximum ratings of which elements are set out in the following table:

<table>
<thead>
<tr>

SERVICE REGULATIONS

The supplying of, and billing for, service and all conditions applying thereto, are subject to the jurisdiction of the Energy Regulatory Commission of Kentucky, and to Company's Service Regulations currently in effect, as filed with the Energy Regulatory Commission of Kentucky, as provided by law.
RIDER WHS
WATER HEATING SERVICE

AVAILABILITY
Available in all territory to which E.R.C. Ky. No. 3 applies where facilities of suitable voltage and adequate capacity are adjacent to the premise to be served. This rider is to be discontinued and is not available for service to any new or replacement water heater installation or succession in the case of an old installation after August 26, 1974.

APPLICABILITY
Applicable to electric service for the operation of a permanently connected and regularly used storage water heater conforming to the specifications set out below, when used in connection with other electric service supplied at standard rates. Electric service for water heaters not conforming to the specifications set out below is available at the standard "General Service" Rate.

TYPE OF SERVICE
Service will be in accordance with the specifications of the standard applicable rate to which this rider applies.

NET MONTHLY BILL
(I) Computed in accordance with the following charges:

For kWh up to the maximum shown in the tabulation below according to size of water heater, but only after the balance of energy used (but not less than 200 kWh) is billed at the applicable standard "General Service" Rate.

2.9544 per kWh

Plus or minus an adjustment per kWh determined in accordance with the "FUEL COST ADJUSTMENT" set forth on Sheet No. 38 of this tariff.

Minimum: $1.25 per month to be added to the minimum of the standard service rate.

When bills are rendered less frequently than monthly, the time related units such as energy blocks, minimum or other charges, will be billed in accordance with the number of billing months in the meter reading interval.

WATER HEATER SPECIFICATIONS
Company approved water heaters shall consist of an insulated tank of not less than 30 gallons capacity equipped with either: (a) two 240 volt (208 volt for underground network), thermostatically controlled, non-inductive heating elements, one of which is located near the bottom of the tank and the other of which is located approximately one quarter of the way down from the top of the tank, with interlocked thermostats connected so that both elements cannot be operated at the same time; or, (b) one 250 volt (208 volt for underground network), thermostatically controlled, non-inductive heating element located near the bottom of the tank, maximum ratings of which elements are set out in the following table;

<table>
<thead>
<tr>
<th>Nominal Tank Size</th>

PRIVATE OUTDOOR LIGHTING SERVICE

AVAILABILITY

Available in all territory to which E.R.C. Ky. No. 3 applies where facilities of suitable voltage and adequate capacity are adjacent to the premises to be served.

APPLICABILITY

Applicable to service for outdoor lighting on private property with Company-owned overhead lighting fixtures. Not applicable to service for lighting of dedicated or undedicated public thoroughfares.

TYPE OF SERVICE

All equipment will be installed, owned and maintained by the Company on rights-of-way provided by the customer. The Company will endeavor to replace burned-out lamps within 48 hours after notification by the customer. The Company does not guarantee continuous lighting and shall not be liable to the customer or anyone else for damage, loss or injury resulting from any interruption in such lighting due to any cause. All lamps will burn from dusk to dawn, approximately 4160 hours per annum (345 hours per month).

NET MONTHLY BILL

The following monthly charge for each lamp with luminaire, controlled automatically, mounted on a utility pole, as specified by the Company, with a span of wire not to exceed 120 feet, will be assessed:

<table>
<thead>
<tr>
<th>kW/Luminaire</th>
<th>kWh</th>

SEASONAL SPORTS SERVICE

AVAILABILITY

Available in all territory to which E.R.C. Ky No. 3 applies where facilities of suitable voltage and adequate capacity are adjacent to the premise to be served.

APPLICABILITY

Applicable to electric service required for sports installations, such as football and baseball fields, swimming pools, tennis courts, and recreational areas, promoted, operated and maintained by non-profit organizations, such as schools, churches, civic clubs, service clubs, community groups, and municipalities, where such service is separately metered and supplied at one point of delivery, except not applicable to private sports installations which are not open to the general public.

TYPE OF SERVICE

Service will be in accordance with the specifications of the standard applicable rate.

NET MONTHLY BILL

(1) Computed in accordance with the provisions of the applicable rate provided that the net monthly bill will not exceed the equivalent of 6.6390 per kilowatt hour, plus the applicable fuel adjustment.

Minimum: The minimum charge shall be a sum equal to 1-1/2% of Company's installed cost of transformers and metering equipment required to supply and measure service, but not less than $4.35, whether service is on or disconnected.

RECONNECTION CHARGE

A charge of $5.00 is applicable to each season to cover in part the cost of reconnection of service.

TERM OF SERVICE

One (1) year, terminable thereafter on ten (10) days written notice by either customer or Company.

SERVICE REGULATIONS

The supplying of, and billing for, service and all conditions applying thereto, are subject to the jurisdiction of the Energy Regulatory Commission of Kentucky, and to Company's Service Regulations currently in effect, as filed with the Energy Regulatory Commission of Kentucky, as provided by law.

RATE EHSC
OPTIONAL RATE FOR ELECTRICALLY HEATED SCHOOLS AND CHURCHES

AVAILABILITY
Available in all territory to which E.R.C. Ky. No. 3 applies where facilities of suitable voltage and adequate capacity are adjacent to the premise to be served.

APPLICABILITY
Applicable to electric service for any public school, parochial school, private school, or church when supplied at one point of delivery, provided permanently connected and regularly used electrical equipment is installed in compliance with Company specifications as the primary source of heating or heating and cooling the atmosphere to temperatures of human comfort; and provided all other electrical energy requirements are purchased from the Company. No single water heating unit shall be wired that the demand established by it can exceed 5.5 kilowatts unless approved by the Company. Rider WHS is not applicable.

TYPE OF SERVICE
Alternating current 60 Hz, single or three phase at Company's standard secondary voltage.

NET MONTHLY BILL
Computed in accordance with the following charges:

A. For electricity used during the five month period beginning with customer's initial monthly meter reading taken on or after April 15 of any year:
   All kilowatt hours at 3.983¢ per kilowatt hour.

B. For electricity used during the remaining seven months of the year:
   The first kilowatt hours equal to fifty percent of the kilowatt hours used during the peak month of the preceding five month period described in Section A above.
   at 3.980¢ per kilowatt hour;
   The next kilowatt hours equal to twenty percent of the kilowatt hours used during the peak month of the preceding five month period described in Section A above.
   at 3.173¢ per kilowatt hour.
   All additional kilowatt hours
   at 2.923¢ per kilowatt hour.
   Should operation begin without the full five month period described in Section A above, a representative peak month for such period shall be mutually agreed upon between the Company and the customer for billing purposes.

C. Plus or minus an adjustment per kwh determined in accordance with the "FUEL COST ADJUSTMENT" set forth on Sheet No. 38 of this tariff.

Minimum: $13.60

PAYMENT
(T) Payment of the Net Monthly Bill must be received in the Company's office within twenty-one (21) days from the date the bill is mailed by the Company. When not so paid, the gross monthly bill, which is the Net Monthly Bill plus 5%, is due and payable.

Available in all territory to which E.R.C. Ky. No. 3 applies where facilities of suitable voltage and adequate capacity are adjacent to the premise to be served.

APPLICABILITY
Applicable to electric service for heating, except not applicable for residences having single phase service only when customer's wiring is so arranged that heating service can be furnished at one point of delivery and can be metered separately from all other types of service; provided permanently connected and regularly used electric heating equipment is installed in compliance with Company specifications as the primary source of heating or heating and cooling the atmosphere to temperatures of human comfort; and provided all other other electrical energy requirements are purchased from the Company at standard rates.

Not applicable for cooling only, or for resale or redistribution.

TYPE OF SERVICE
Alternating current 60 Hz, single or three phase at Company's standard voltage.

NET MONTHLY BILL
Computed in accordance with the following charges:

A. For electricity used for space heating, during "heating period," $3.55 per month plus .035¢ per kilowatt hour for all kilowatt hours used.

Plus or minus an adjustment per kWh determined in accordance with the "FUEL COST ADJUSTMENT" set forth on Sheet No. 38 of this tariff.

B. For electricity used during periods other than the "heating period," the demand and kilowatt hours for this service shall be arithmetically combined for billing purposes with other electric service supplies, and billed at the applicable General Service-rate.

Minimum: $3.55 per month during "heating period".

DEMAND
Customer's Demand will be the kilowatts as determined from Company's meter for the fifteen-minute period of customer's greatest use during the month or as calculated by the Company, but not less than 5 kilowatts.

HEATING PERIOD
"Heating period" is that period extending from the customer's first normally scheduled monthly meter reading date following September 15 to the customer's first normally schedule monthly meter reading date following May 15 of the next calendar year. The length and date limitations of the "heating period" are subject to change by the Company as load conditions on its system make such changes advisable.

PAYMENT
(2) Payment of the Net Monthly Bill must be received in the Company's office within twenty-one (21) days from the date the bill is mailed by the Company. When not so paid, the Gross Monthly Bill, which is the Net Monthly Bill plus 5%, is due and payable.

TERM OF SERVICE
One (1) year, terminable thereafter on ten (10) days written notice by either customer or Company.

SERVICE REGULATIONS
The supplying of, and billing for, service and all conditions applying thereto are subject to the jurisdiction of the Energy Regulatory Commission of Kentucky, and to Company's Service Regulations currently in effect, as filed with the Energy Regulatory Commission of Kentucky, as provided by law.

UNDERGROUND STREET LIGHTING

AVAILABILITY

Available in all territory to which E.R.C. Ky. No. 3 applies where facilities of suitable voltage and adequate capacity are adjacent to the premises to be served.

APPLICABILITY

Applicable to service for outdoor lighting in underground residential distribution areas.

TYPE OF SERVICE

All equipment will be installed, owned and maintained by the Company on rights-of-way provided by the customer. The Company will perform maintenance only during regularly scheduled working hours and will endeavor to replace burned out lamps within 48 hours after notification by the customer. The Company does not guarantee continuous lighting and shall not be liable to the customer or anyone else for any damage, loss or injury resulting from any interruption in such lighting due to any cause. All lamps will burn from dusk to dawn, approximately 4160 hours per annum (345 hours per month).

NET MONTHLY BILL

The following monthly charge for each lamp with luminaire, controlled automatically, with an underground service wire not to exceed 35 feet from the service point, will be assessed:

<table>
<thead>
<tr>
<th>kW/Luminaire</th>
<th>kWh</th>
<th>Rate/kWh</th>

Issued: October 30, 1978

Effective: October 31, 1978

Issued by W. H. Dickhoner, President
RATE UDP-R
UNDERGROUND RESIDENTIAL DISTRIBUTION POLICY

AVAILABILITY
Available throughout the service area of the Company in those situations where the Company extends its distribution lines using pad-mounted transformers to serve new developments.

APPLICABILITY
Applicable to the electric service of: 1. single family houses in increments of ten (10) or more contiguous lots with a maximum lot width of one hundred twenty (120) feet; or 2. multi-family dwellings in buildings containing five (5) or more individually metered family units.

CHARGES
The following charges will be assessed:
   A. $1.40 per front foot for all primary extensions. Primary extensions on private property will be charged $1.40 per linear trench foot; and
   B. An additional $2.00 per linear trench foot shall be charged where extremely rocky conditions are encountered, such conditions being defined as limestone or other hard stratified material in a continuous volume of at least one cubic yard or more which cannot be removed using ordinary excavation equipment.

2. Multi-Family Units.
   There shall be no charge except where extremely rocky conditions are encountered, then the $2.00 per linear trench foot, as stated and defined above, shall be charged.

GENERAL CONDITIONS
1. Others shall, in accordance with the specifications of the Company and local inspection authority, furnish, install, own and maintain the customer services. The Company shall connect the customer service cable to its distribution system and provide and install pull-boxes, if necessary.
2. The Developer shall furnish and install all conduit and crossovers required by the Company, including all areas where paving is installed prior to the installation of the Company's distribution facilities, and be responsible for installing and maintaining these crossovers in accordance with the Company's specifications and location plans until the underground electric line is completed. A Company inspector must approve all crossovers before the trenches are backfilled; and the Developer shall stake each end of every crossover with a stake marked "ELEC.". The Company shall determine where conduit and crossovers are required.
3. The Developer shall complete and be responsible for maintaining final grade within the right-of-way and the street until the street has been dedicated and accepted by the local government.
4. The Company shall determine the route of all Company-owned underground electric line extensions. Such facilities must be located so as to be accessible at all times for switching and maintenance.
5. The point at which the underground distribution system begins shall be determined by the Company and the overhead primary extension to this point may be installed as open-wire conductors.

Issued pursuant to an Order of the Public Service Commission of Kentucky dated February 1, 1973 in Administrative Case No. 146.
The Company shall determine equipment locations and such facilities must be accessible from adequate driveways, protected from mechanical hazards and placed so as to maintain proper clearance from building openings.

The Company shall determine the number of customers to be served from each transformer or pull box, where meters shall be located and how they shall be grouped.

The Developer, at the Company's option, may be required to pay to the Company a deposit on the contracted charges when the agreement is executed. Upon completion of construction of the underground electric facilities, the Developer shall pay to the Company the balance due under said agreement.

The Developer shall furnish to the Company the required number of plat drawings approved by governmental authorities having jurisdiction, and any revisions of such plats, which shall indicate the location of all proposed driveways, parking areas, building openings and sewer, water, gas and telephone facilities.

The Developer shall stake all required lot corners or control points along the cable route as specified by the Company.

The Developer shall complete final grade of distribution line route before construction work is started and be responsible for maintaining same during construction. The Company shall permit a maximum cut of six inches for sidewalk and driveways after their facilities have been installed. No fill will be permitted after the Company's facilities have been installed except by written permission from the Company. If it is necessary to change the grade of the Company's facilities due to changes by the Developer, all costs of the change shall be borne by the Developer.

The underground construction area shall be clear of all other construction forces and, after the underground construction has begun, it shall not be interrupted by other construction forces.

The Developer shall enter into a written agreement with the Company. This agreement and an attached plat shall constitute written notice when Developer has signed said agreement and the ENDORSEMENT attached to said plat, accepting the location of underground electric facilities as shown thereon. Any additional engineering required or extra construction costs required by the Company shall be borne by the Developer.

The Developer shall grant to the Company, on its applicable forms, all rights-of-way which in the opinion of the Company are necessary or desirable for such extensions.

Should the Developer request additional facilities, different routing or termination points, or changes in the facilities planned or installed, the Developer shall pay the total estimated cost to the Company for such additional facilities or changes.

The Developer shall also pay the cost of any repairs or replacement to the distribution system resulting from the negligent act or acts of the Developer, his agents, workmen, contractors or tenants.

Issued pursuant to an Order of The Public Service Commission of Kentucky dated February 2, 1973 in Administrative Case No. 146.
RATCU
OPTIONAL RATE FOR COMMON USE IN APARTMENT BUILDINGS

AVAILABILITY
Available in all territory to which E.R.C. Ky. No. 3 applies where facilities of suitable voltage and adequate capacity are adjacent to the premises to be served.

APPLICABILITY
Applicable to electric service required for the purposes of heating water, drying clothes, space heating and lighting in areas of common use in apartment buildings. The water heater size and element size must meet with the approval of the Company. Not applicable for air conditioning usage; i.e. kilowatt hour usage during June-July or July-August cannot exceed the kilowatt hour usage during January-February or February-March.

TYPE OF SERVICE
Alternating current 60 Hz single or three phase at Company's standard voltage.

NET MONTHLY BILL
Computed in accordance with the following charges:

First 400 kilowatt hours at 7.9420 per kilowatt hour
Next 300 kilowatt hours at 5.8900 per kilowatt hour
Additional kilowatt hours at 3.5450 per kilowatt hour

Plus or minus an adjustment per kWh determined in accordance with the "FUEL COST ADJUSTMENT" set forth on Sheet No. 38 of this tariff.

Minimum: $3.25. A three phase customer will be charged an additional surcharge of $4.90 per month for the three phase service.

PAYMENT
(T) Payment of the Net Monthly Bill must be received in the Company's office within twenty-one (21) days from the date the bill is mailed by the Company. When not so paid, the Gross Monthly Bill, which is the Net Monthly Bill plus 5%, is due and payable.

TERM OF SERVICE
One (1) year, terminable thereafter on ten (10) days written notice by either customer or Company.

SERVICE REGULATIONS
The supplying of, and billing for, service and all conditions applying thereto, are subject to the jurisdiction of the Energy Regulatory Commission of Kentucky, and to Company's Service Regulations currently in effect, as filed with the Energy Regulatory Commission of Kentucky, as provided by law.

Subject to Refund
RATE CU

OPTIONAL RATE FOR COMMON USE IN APARTMENT BUILDINGS

AVAILABILITY

Available in all territory to which E.R.C. Ky. No. 3 applies where facilities of suitable voltage and adequate capacity are adjacent to the premises to be served.

APPLICABILITY

Applicable to electric service required for the purposes of heating water, drying clothes, space heating and lighting in areas of common use in apartment buildings. The water heater size and element size must meet with the approval of the Company. Not applicable for air conditioning usage; i.e., kilowatt hour usage during June-July or July-August cannot exceed the kilowatt hour usage during January-February or February-March.

TYPE OF SERVICE

Alternating current 50 Hz single or three phase at Company's standard voltage.

NET MONTHLY BILL

Computed in accordance with the following charges:

First 400 kilowatt hours at 7.6740 per kilowatt hour
Next 300 kilowatt hours at 5.6220 per kilowatt hour
Additional kilowatt hours at 3.2770 per kilowatt hour

Plus or minus an adjustment per kWh determined in accordance with the "FUEL COST ADJUSTMENT" set forth on Sheet No. 38 of this tariff.

Minimum: $3.00. A three phase customer will be charged an additional surcharge of $4.50 per month for the three phase service.

PAYMENT

Payment of the Net Monthly Bill must be received in the Company's office within twenty-one (21) days from the date the bill is mailed by the Company. When not so paid, the Gross Monthly Bill, which is the Net Monthly Bill plus 5%, is due and payable.

BILL NO. A1

RIDER A
OPTIONAL RIDER FOR ELECTRICALLY HEATED APARTMENTS

AVAILABILITY
Available in all territory to which E.R.C. Ky. No. 3 applies where facilities of suitable voltage and adequate capacity are adjacent to the premise to be served.

APPLICABILITY
Applicable to electric service, other than three phase, for all domestic purposes in individually metered, single occupancy apartments where "qualified" electric heating is used as the only source of space heating. This Rider is not applicable where there is in use an electric water heater which may impose a demand greater than 5.5 kilowatts.

TYPE OF SERVICE
Alternating current 60 Hz, single phase at Company's standard secondary voltage.

NET MONTHLY BILL
(I) Computed in accordance with the charges and provisions of the applicable "RESIDENTIAL SERVICE-RS RATE," except for the following:

A. On accounts utilizing Company approved electric water heaters:
   all kilowatt hours in excess of five hundred (500) kilowatt hours, used during the "Heating Period," will be billed at 1.172c per kilowatt hour

B. On accounts not utilizing Company approved electric water heaters:
   all kilowatt hours in excess of three hundred fifty (350) kilowatt hours, used during the "Heating Period," will be billed at 1.172c per kilowatt hour

HEATING PERIOD DEFINED
The "Heating Period," is defined as that period extending from the customer’s first meter reading following September 15 to the customer’s first meter reading following May 15 of the next calendar year. The length and date limitations of the "Heating Period" are subject to change by the Company as load conditions on its system make such changes advisable.

WATER HEATING SERVICE
(I) Rider WHS-Water Heating Service is not applicable to this Rider.

When Company approved electric water heaters are installed and in use as the primary source of heating water and after a minimum of three hundred fifty (350) kilowatt hours are used and billed at the applicable RS rate, a maximum of one hundred fifty (150) kilowatt hours shall be billed at 3.22W per kilowatt hour. The remaining kilowatt hours shall be billed at the energy block(s) of the applicable RS Rate or as altered by Rider A during the "Heating Period".

SERVICE REGULATIONS
The supplying of, and billing for, service and all conditions applying thereto, are subject to the jurisdiction of the Energy Regulatory Commission of Kentucky, and to Company’s Service Regulations currently in effect, as filed with the Energy Regulatory Commission of Kentucky, as provided by law.

Issued by authority of an Order of the Energy Regulatory Commission of Kentucky, dated February 12, 1980 in Case No. 7675.

OPTIONAL RIDER FOR ELECTRICALLY HEATED APARTMENTS

AVAILABILITY

Available in all territory to which E.R.C. Ky. No. 3 applies where facilities of suitable voltage and adequate capacity are adjacent to the premise to be served.

APPLICABILITY

Applicable to electric service, other than three phase, for all domestic purposes in individually metered, single occupancy apartments where "qualified" electric heating is used as the only source of space heating. This Rider is not applicable where there is in use an electric water heater which may impose a demand greater than 5.5 kilowatts.

TYPE OF SERVICE

Alternating current 60 Hz, single phase at Company's standard secondary voltage.

NET MONTHLY BILL

(1) Computed in accordance with the charges and provisions of the applicable "RESIDENTIAL SERVICE-RES RATE," except for the following:

A. On accounts utilizing Company approved electric water heaters:
   All kilowatt hours in excess of five hundred (500) kilowatt hours, used during the "Heating Period," will be billed at 2.9040 per kilowatt hour

B. On accounts not utilizing Company approved electric water heaters:
   All kilowatt hours in excess of three hundred fifty (350) kilowatt hours, used during the "Heating Period," will be billed at 2.9040 per kilowatt hour

HEATING PERIOD DEFINED

The "Heating Period," is defined as that period extending from the customer's first meter reading following September 15 to the customer's first meter reading following May 15 of the next calendar year. The length and date limitations of the "Heating Period" are subject to change by the Company as load conditions on its system make such changes advisable.

WATER HEATING SERVICE

(1) Rider WAS-Water Heating Service is not applicable to this Rider.

When Company approved electric water heaters are installed and in use as the primary source of heating water and after a minimum of three hundred fifty (350) kilowatt hours are used and billed at the applicable RS Rate, a maximum of one hundred fifty (150) kilowatt hours shall be billed at 2.9540 per kilowatt hour. The remaining kilowatt hours shall be billed at the energy block(s) of the applicable RS Rate or as altered by Rider A during the "Heating Period".

SERVICE REGULATIONS

The supplying of, and billing for, service and all conditions applying thereto, are subject to the jurisdiction of the Energy Regulatory Commission of Kentucky, and to Company's Service Regulations currently in effect, as filed with the Energy Regulatory Commission of Kentucky, as provided by law.

PAYMENT

(T) Payment of the Net Monthly Bill must be received in the Company's office within twenty-one (21) days from the date the bill is mailed by the Company. When not so paid, the Gross Monthly Bill, which is the Net Monthly Bill plus 5%, is due and payable.

TERM OF SERVICE

Three (3) years, terminable thereafter on one hundred twenty (120) days written notice by either customer or Company.

GENERAL CONDITIONS

(1) If the customer requires the installation of a unit at a location which requires the extension, relocation, or rearrangement of the Company's distribution system, the customer shall, in addition to the monthly charge, pay the Company on a time and material basis, plus overhead charges, the cost of such extension, relocation, or rearrangement, unless in the judgment of the Company no charges should be made.

(2) Installation of street lighting units will be predicated on the ability of the Company to obtain, without cost to itself or the payment or consideration, all easements and rights-of-way which, in the opinion of the Company, are necessary for the construction, maintenance and operation of the street lights, standards, anchors and/or service wires. If such easements and right-of-way cannot be so obtained, the Company shall have no obligation hereunder to install such units.

(3) The Company shall not be required to relocate, replace or remove any installed street lighting unit with the same or less rated lamp wattage.

(4) In cases of vandalism, the Company will repair the damaged property and the customer shall pay for such repair on a time and material basis, plus overhead charges, unless in the judgment of the Company no charges should be made.

SERVICE REGULATIONS

(1) Payment of the Net Monthly Bill must be received in the Company's office within twenty-one (21) days from the date the bill is mailed by the Company. When not so paid, the Gross Monthly Bill, which is the Net Monthly Bill plus 5%, is due and payable.

TERM OF SERVICE

Three (3) years, terminable thereafter on one hundred twenty (120) days written notice by either customer or Company.

GENERAL CONDITIONS

(1) If the customer requires the installation of a unit at a location which requires the extension, relocation, or rearrangement of the Company's distribution system, the customer shall, in addition to the monthly charge, pay the Company on a time and material basis, plus overhead charges, the cost of such extension, relocation, or rearrangement, unless in the judgment of the Company no charges should be made.

(2) Installation of street lighting units will be predicated on the ability of the Company to obtain, without cost to itself or the payment or consideration, all easements and rights-of-way which, in the opinion of the Company, are necessary for the construction, maintenance and operation of the street lights, standards, anchors and/or service wires. If such easements and right-of-way cannot be so obtained, the Company shall have no obligation hereunder to install such units.

(3) The Company shall not be required to relocate, replace or remove any installed street lighting unit with the same or less rated lamp wattage.

(4) In cases of vandalism, the Company will repair the damaged property and the customer shall pay for such repair on a time and material basis, plus overhead charges, unless in the judgment of the Company no charges should be made.

SERVICE REGULATIONS

The supplying of, and billing for, service and all conditions applying thereto, are subject to the jurisdiction of the Energy Regulatory Commission of Kentucky, and to Company's Service Regulations currently in effect, as filed with the Energy Regulatory Commission of Kentucky, as provided by law.

STREET LIGHTING SERVICE

AVAILABILITY
Available in all territory to which tariff P.S.C. Ky. No. 3 applies.

APPLICABILITY
Applicable to municipal, county, state and Federal governments, including divisions thereof, for the lighting of public streets and roads with Company owned lighting fixtures.

TYPE OF SERVICE
All equipment will be installed, owned and maintained by the Company. All lamps will burn from dusk to dawn, approximately 4160 hours per annum. The Company will endeavor to replace burned-out lamps within 48 hours after notification by the customer. The Company does not guarantee continuous lighting and shall not be liable to the customer or anyone else for any damage, loss or injury due to any cause.

NET MONTHLY BILL
The following monthly charge for each lamp with luminaire, controlled automatically, will be assessed:

(a) Where a street lighting unit is to be installed on a non-Company owned pole on which the Company does not have an existing contract, an additional charge of $3.00 per pole will be applicable. (b) New or replacement units are not offered by the Company. (c) Mounted on 40' wood pole. (d) Fixture mounted on 17' wood laminated pole. (e) Future mounted on 17' fiberglass pole.

Additional facilities, other than specified above, if required, will be billed at the time of installation.

The monthly kilowatt hour usage shall be subject to plus or minus an adjustment per kwh determined in accordance with the "Fuel Cost Adjustment" set forth on Sheet No. 38 of this tariff.

Issued by authority of an Order of the Public Service Commission of Kentucky, dated October 27, 1978, in Case No. 7206.

TRAFFIC LIGHTING SERVICE

AVAILABILITY
Available in all territory to which tariff E.R.C. Ky. No. 3 applies.

APPLICABILITY
Applicable to the supplying of energy to municipal, county, state and Federal governments, including divisions thereof, for traffic signals or other traffic control lighting. In the application of this tariff, each point of delivery shall be considered as a separate customer.

TYPE OF SERVICE
Alternating current 60 Hz, single phase at the Company's standard secondary voltage.

NET MONTHLY BILL
Computed in accordance with the following charges:

(1) All kilowatt hours at 3.2590¢ per kilowatt hour.

The monthly kilowatt hour usage shall be subject to plus or minus an adjustment per kWh determined in accordance with the "Fuel Cost Adjustment" set forth on Sheet No. 38 of this tariff.

Minimum: $1.10 per month for each point of delivery.

PAYMENT
Payment of the Net Monthly Bill must be received in the Company's office within twenty-one (21) days from the date the bill is mailed by the Company. When not so paid, the Gross Monthly Bill, which is the Net Monthly Bill plus 5%, is due and payable.

TERM OF SERVICE
One year, terminable thereafter on thirty (30) days written notice by either customer or Company.

GENERAL CONDITIONS
(1) Billing will be based on the calculated kilowatt hour consumption taking into consideration the size and characteristics of the load.

(2) The location of each point of delivery shall be mutually agreed upon by the Company and the customer.

SERVICE REGULATIONS
The supplying of, and billing for, service and all conditions applying thereto, are subject to the jurisdiction of the Energy Regulatory Commission of Kentucky, and to Company's Service Regulations currently in effect, as filed with the Energy Regulatory Commission of Kentucky, as provided by law.
