RE: Notification of Additional Underlying Carrier Network

Dear Sir or Madam:

Please accept this letter as notification that Touch 1 Communications, Inc. (Touch 1), a non-facilities based reseller of long distance, will add another carrier, Williams Communications, as an underlying carrier of Touch 1's traffic. We expect them to begin to carry a portion of Touch 1's traffic in conjunction with Global Crossing.

Touch 1 is taking the extraordinary step of notifying all of its customers via direct mail of this development, assuring them that it should be transparent, that it will not affect their long distance service nor does it require any action on their part. Touch 1's toll-free number is also being included should customers have any questions.

Please call should you need further clarification or have any questions.

Sincerely,

A handwritten signature in cursive script that reads "Suzette C. Walker".
