Re: Owen Electric Cooperative, Schedule XV – Commercial and Industrial Interruptible Service (Revised)

Dear Mr. Derouen:

Please find enclosed for filing with the Commission, via the electronic tariff filing system, the above-referenced tariff.

Owen Electric Cooperative “Owen Electric” currently administers a tariffed Interruptible Service program that provides a discount to participating end-use cooperative members (“end-use members”) who agree to reduce demand, when requested, for economic or reliability reasons.

Owen Electric’s current tariff provides for two notice periods of interruption - a 10-minute notice and a 60-minute notice - to participating end-use members. Due to East Kentucky Power Cooperative, Inc.’s (“EKPC”) participation in the PJM Interconnection, LLC (“PJM”) Demand Response Program, effective June 1, 2015, PJM requires a single, 30-minute notice period be used for all PJM required reliability interruptions. In order to accommodate this PJM requirement and for program simplicity, Owen Electric has revised its tariff to show only one, 30-minute notice period. Subsequently, the demand credits payable to participating end-use members for the contracted hours of interruption, which were calculated based on EKPC’s avoided capacity cost, have been revised by assigning the most accurate credits in the current tariff (those credits at the 10-minute notice period) to the new, 30-minute notice period. The numbers of contracted hours of interruption – 200, 300, and 400 – remain the same from the current tariff to the revised tariff. This tariff will keep Owen Electric’s Interruptible Service tariff consistent with that of EKPC’s recently amended Interruptible Service tariff.

Upon Commission approval of this tariff, Owen Electric will attempt to facilitate the execution of amended agreements with end-use members currently participating in the Interruptible Service program.

Pursuant to KRS 278.180 Owen Electric must give at least 30-days’ notice to the Commission. Therefore, the proposed effective date of this program will be November 5, 2015. Pursuant to 807 KAR 5:011, Owen Electric has posted the requisite notice at its office located at 8205 Hwy 127 N, Owenton, Kentucky and will post the requisite notice on its website, no later than five (5) business days from today’s date, which will include a hyperlink to the Commission’s website where the tariff can be found. Pursuant to 807 KAR 5:011 Section 8,

Mr. Jeff Derouen
October 5, 2015
