Ms. DeWitt,

Commission Staff has reviewed the tariff filing submitted by Shelby Energy on December 1 to add LED Outdoor Lighting Facilities to its tariff. Staff's comments are below:

- On Exhibit A, page 2 of 4, Box A, please provide support for the cost of the lamp, installation costs, and the annual KWh.
- On Exhibit A, page 2 of 4, Box B, the amounts do not reconcile with the Distribution Plant numbers in the 2014 annual report.
- On Exhibit A, page 3 of 4, Box D, explain how the 2014 debt number was calculated and how the 2013 and 2014 Equity numbers were calculated. They do not reconcile to the 2014 annual report.

- On Exhibit A, page 3 of 4, Box D, explain the use of 6.25% for the rate of return. In Case No. 2009-00410, a rate of return of 6.41% was approved and was based on rate of return on rate base.
- On proposed tariff page 322, it states that Shelby is furnishing electricity for the lights controlled by a photocell to energize the unit from dusk to dawn. If that is the case, explain why energy costs are included in the cost of the lighting.
- On proposed tariff page 322.2, under Minimum Charge, it refers to rates “listed below”. It should be “listed above”.
- Why is Shelby requiring the first year payment in advance?

The responses to Staff’s comments above can be e-mailed to us at [psc.tariffs@ky.gov](mailto:psc.tariffs@ky.gov).

If you have any questions, please give us a call at (502) 564-3940 or respond to this e-mail.

Thanks.

Daniel
