RE: Application for Tariff Revision

This is an application to revise the 5/8 x 3/4 inch meter tap on fee for Warren County Water District. Attached is the non-recurring charge cost justifications and proposed tariff sheet.

The District has not changed the 5/8 x 3/4 inch meter tap on fee since 1989. The increased costs of material and labor for meter installations can no longer be absorbed by the District.

The additional revenue generated from the proposed tariff revision does not exceed by five (5) percent the total revenues provided by all miscellaneous and non-recurring charges for a recent twelve (12) month period.

The District has previously filed income statements and balance sheets with the Public Service Commission that are currently on file with the Commission.

The District will publish the attached public notice of the requested rate revisions in the local newspaper for three consecutive weeks. The first notice has already been published and the newspaper ad is attached. We will follow up with an affidavit from the newspaper verifying that the notice was published for three consecutive weeks.

A copy of this application and related filings has been sent to the Attorney General's Office of Rate Intervention, 1024 Capitol Center Drive, Suite 200, Frankfort, KY 40601-8204.

Sincerely,

John M. Dix, P.E.
