**Subject:** RE: Big Sandy Water District Water Rate Increase

Brent,

As we discussed earlier on the phone, the City of Ashland is withdrawing its request to increase water rates for Big Sandy Water District. We are in the process of having a rate study performed and our Commission has chosen to not pursue the yearly rate increase at this time. Please contact me if you have any questions. Thank you.

**Subject:** Big Sandy Water District Water Rate Increase

Brent,

I have attached the necessary PSC documents for our January 2016 water rate increase for Big Sandy Water District. I am also copying Mr. Jimmy Blanton from Big Sandy Water District on this as well. Please let me know what additional information / documents you need in order to approve the tariff increase. Thank you.

Jimmy,

Please call me if you have any questions about this rate increase. Please send back the acknowledgement as soon as possible. Thank you.
