

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

PADUCAH AIRPORT CORPORATION)	
COMPLAINANT)	
VS.)	
JACKSON PURCHASE ELECTRIC)	CASE NO. 92-345
COOPERATIVE CORPORATION)	
DEFENDANT)	

O R D E R

IT IS ORDERED that Jackson Purchase Electric Cooperative Corporation ("Jackson Purchase") shall file an original and 10 copies of the following information with the Commission, with a copy to all parties of record. Each item of the data requested should be tabbed and each page of each response appropriately indexed, for example, Item 1(a), Sheet 2 of 6. Include with each response the name of the person responsible for responding to questions relating to the information provided. Careful attention should be given to copied material to ensure that it is legible. The information requested herein is due no later than September 30, 1992. If the information cannot be provided by this date, Jackson Purchase should submit a motion for an extension of time stating the reason a delay is necessary and include a date by which the information will be furnished. Such motion will be considered by the Commission.

1. Paragraph No. 4 of Jackson Purchase's answer to the complaint states in part "[s]hould the Public Service Commission believe the complainant has met its burden of proof and be permitted master metering. . . ." Describe and/or explain the term master metering as used in the context of this response.

2. In its complaint, Paducah Airport Corporation ("PAC") refers to sixteen different meters through which it receives electric service and indicates it receives service under three tariffs, Schedules C, D, and ND. Provide the following information related to PAC's electric usage:

a. By tariff schedule provide PAC's monthly KWH usage for the twelve months ended July 31, 1992 and identify the number of meters served on each schedule.

b. By tariff schedule provide PAC's monthly KW demand for the twelve months ended July 31, 1992.

3. The filings by Jackson Purchase and PAC indicate that Jackson Purchase is agreeable to PAC's proposal as a civic undertaking.

a. To date, has Jackson Purchase performed any cost analysis which would show whether Jackson Purchase would recover its cost to serve PAC under PAC's proposal to consolidate its meter readings?

b. Provide an analysis of Jackson Purchase's cost to serve PAC for the twelve months ended July 31, 1992.

c. Explain in detail how Jackson Purchase would bill PAC under PAC's proposal, including the selection of rate schedule given that Schedule D includes a demand charge while Schedules C and ND do not.

d. Provide both Jackson Purchase's total actual revenue from service to PAC and the total revenue that would have been produced under PAC's metering proposal for the twelve months ended July 31, 1992.

e. Provide Jackson Purchase's estimate of the demand, energy, and revenue impacts that PAC's new fixed base operations facility will have on a monthly basis.

4. Is PAC a unique customer in regard to the number of meters from which it receives service or are there other similar customers which take service from multiple meters at the same site? For all similar customers, provide the number of meters from which service is taken and the customer's annual KWH consumption.

5. Have Jackson Purchase's discussions with PAC addressed the issue of possibly installing a master meter to provide service to PAC? Provide a summary account of any such discussions and Jackson Purchase's estimate of the cost to install a master meter to serve PAC.

6. Provide copies of all documents including correspondence, internal memoranda, and minutes of board of directors' meetings in which service to PAC was discussed.

Done at Frankfort, Kentucky, this 21st day of September, 1992.

PUBLIC SERVICE COMMISSION
