COMMONWEALTH OF KENTUCKY

BEFORE THE PUBLIC SERVICE COMMISSION

In the matter of:

THE APPLICATION OF TELEDRAFT,   )
INCORPORATED FOR A CERTIFICATE OF   )
PUBLIC CONVENIENCE AND NECESSITY TO   )   CASE NO 93-168
PROVIDE INTRASTATE TELECOMMUNICATIONS   )
SERVICES   )

O R D E R

On April 30, 1993, Teledraft, Incorporated ("Teledraft") filed

its application with the Commission seeking a Certificate of Public

Convenience and Necessity to provide intrastate, long-distance

telecommunications services as a reseller within the Commonwealth

of Kentucky.

Teledraft is a Kentucky corporation proposing to resell the

services of carriers currently certified within the Commonwealth of

Kentucky in accordance with the terms and conditions set forth in

its tariff.   Teledraft also seeks the authority to provide

operator-assisted telecommunications services in accordance with

Administrative Case No. 330[1] and summarized in Appendix A.

Teledraft   employs   no   transmission   or   reception

telecommunications equipment or facilities in the performance of

its services, and all operating facilities, equipment, and

networking will be provided by the underlying carrier.   Teledraft

[1]   Administrative Case No. 330, Policy and Procedures in the
        Provision of Operator-Assisted Telecommunications Services,
        Orders dated March 27, 1991 and May 3, 1991.

will not construct any new facilities in the Commonwealth of Kentucky.

The information provided by Teledraft demonstrates its financial, managerial, and technical capability to provide intrastate, long-distance telecommunications service. The proposed rates should be approved as the fair, just, and reasonable rates to be charged, with the following revisions:

1. Refer to Original Sheet No. 28 filed on July 19, 1993. The correct cite is 807 KAR 5:011, Section 13.

2. Refer to Original Sheet 49, Section VI.B.1., Rates and Charges. The intraLATA operator service rates exceed those of South Central Bell.

3. Refer to Original Sheet No. 50, Section VI.B.2., Rates and Charges. The Customer Dialed Calling Card, Operator Handled Calling or Credit Card, and Collect Calls rates exceed those of South Central Bell.

The Commission, having considered the application, the information provided by Teledraft, and being otherwise sufficiently advised, HEREBY ORDERS that:

1. Teledraft be and it hereby is granted authority to provide intrastate, long-distance telecommunications services within the Commonwealth of Kentucky on and after the date of this Order.

2. Teledraft shall comply with the provisions of the Orders in Administrative Case No. 323.[2]
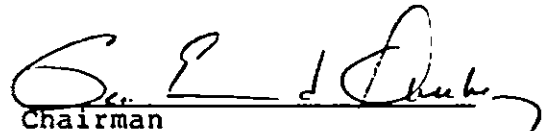

3. Teledraft's authority to provide service in this Commonwealth is strictly limited to those services described in this Order and Teledraft's application.

4. The rates and charges proposed by Teledraft are hereby denied, as filed on April 30, 1993 and revised on July 19, 1993.
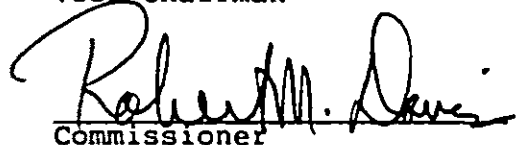

5. Within 30 days from the date of this Order, Teledraft shall file its revised tariff sheets, setting out rates no higher than South Central Bell's tariffed rates, in accordance with Administrative Case No. 330 and the restrictions and conditions of service contained herein.

Done at Frankfort, Kentucky, this 9th day of August, 1993.

[2] Administrative Case No. 323, An Inquiry Into IntraLATA Toll Competition, An Appropriate Compensation Scheme for Completion of IntraLATA Calls by Interexchange Carriers, and WATS Jurisdictionality, Phase I, Order dated May 6, 1991.

APPENDIX A

APPENDIX TO AN ORDER OF THE KENTUCKY PUBLIC SERVICE
COMMISSION IN CASE NO. 93-168   Dated August 9, 1993.

Conditions of Service for the Provision of Operator
Services Adopted from Commission Orders in
Administrative Case No. 330, Orders Dated March 27,
1991 and May 3, 1991.

(1)   Operator-assisted services shall be subject to rate
regulation and rates shall not exceed AT&T's maximum approved rates.
"Maximum approved rates" is defined to mean the rates approved by this
Commission in AT&T's most recent rate proceeding for measured toll
service applicable to operator-assisted calls, as well as the
additional charges for operator assistance.   Carriers are not
permitted to include any other surcharges or to bill for uncompleted
calls. Time-of-day discounts shall also be applicable. Carriers are
also required to rate calls using the same basis that AT&T uses to
rate calls, i.e., distance calculations based on points-of-call
origination and termination, definitions of chargeable times, billing
unit increments, rounding of fractional units, and minimum usages.
When there is any change in AT&T's maximum approved rates, carriers
shall file tariffs if necessary to comply with the requirements herein
within 30 days of the effective date of AT&T's rate change.

(2)   Except as otherwise indicated in this Order, non-dominant
carriers shall be subject to regulation as delineated in the May 25,
1984 Order in Administrative Case No. 273 as well as any subsequent
modifications to non-dominant carrier regulations.   In the event of
conflict, the terms of the instant Order shall take precedence, unless

a carrier is specifically relieved from compliance with any conditions contained herein. AT&T shall remain subject to regulatory oversight as a dominant carrier.

(3)   Operator service providers that provide service to traffic aggregators shall not allow access to the operator services of competing carriers to be blocked or intercepted. Blocking and interception prohibitions shall be included in tariffs and all contracts entered into with any traffic aggregator and shall state that violators will be subject to immediate termination of service after 20 days' notice to the owners of non-complying customer premises equipment.

(4)   Traffic aggregator is defined to mean any person that, in the ordinary course of its operations, makes telephones available to the public or to transient users of its premises for intrastate telephone calls using a provider of operator services. Aggregators include hotels and motels, hospitals, universities, airports, has stations, and non-local exchange carrier pay telephone owners. This definition includes the provision of all non-local exchange carrier pay telephones even if no compensation is paid to the owner of the pay telephone. The residential use of operator services is specifically excluded from this definition.

(5)   Access to the local exchange carriers' operators shall not be blocked or otherwise intercepted by traffic aggregators. Specifically, all "0-" calls, that is, when an end-user dials zero without any following digits, shall be directed to the local exchange carrier operators. In equal access areas, "0+" intraLATA calls, that is, when an end-user dials zero and then dials the digits of the

called telephone number, shall not be intercepted or blocked. In non-equal access areas, it is prohibited to block or intercept "0-" calls; however, it is permissible to intercept "0+" calls. Blocking and interception prohibitions shall be included in tariffs and all contracts entered into with any traffic aggregator and shall state that violators will be subject to immediate termination of service after 20 days' notice to the owners of non-complying customer premises equipment.

(6) Carriers shall not be required to provide access codes of competitors. Each carrier should advise its own customers as to the appropriate 10XXX access code.

(7) Carriers shall provide tent cards and stickers to traffic aggregators to be placed near or on telephone equipment used to access their services and shall include provisions in tariffs and contracts entered into with any traffic aggregator that subject violators to immediate termination of service after 20 days' notice to the owners of non-complying customer premises equipment.

(8) Operators shall identify the carrier at least once during every call before any charges are incurred.

(9) Operators shall provide an indication of the carrier's rates to any caller upon request.

(10) Carriers shall not accept calling cards for billing purposes if they are unable to validate the card.
