

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

THE APPLICATION OF NEW PAR, A)
DELAWARE PARTNERSHIP, D/B/A) CASE NO. 97-331
AIRTOUCH CELLULAR, FOR A)
CERTIFICATE OF PUBLIC CONVENIENCE)
AND NECESSITY)

O R D E R

On September 12, 1997, Kevin T. Wall, Director of Zoning Services, filed on behalf of the Boone County Planning Commission a letter, which the Commission will treat as a motion, requesting full intervention in this matter. It appears to the Commission that the Boone County Planning Commission has a special interest which is not otherwise adequately represented, and that its intervention is likely to present issues and develop facts that will assist the Commission in fully considering the matter without unduly complicating or disrupting the proceedings. Accordingly, the motion of the Boone County Planning Commission to intervene should be granted.

The Boone County Planning Commission also requests a public hearing. The Commission finds that a hearing will assist it in exploring the issues relevant to the application, and that a hearing should therefore be scheduled.

IT IS THEREFORE ORDERED that:

1. The motion of Boone County Planning Commission to intervene is granted.
2. Boone County Planning Commission is entitled to the full rights of a party and shall be served with the Commission's Orders and with filed testimony, exhibits,

pleadings, correspondence, and all other documents submitted by parties after the date of this Order.

3. Should Boone County Planning Commission file documents of any kind with the Commission in the course of these proceedings, it shall also serve a copy of said documents on all other parties of record.

4. A hearing on the proposed cell site is scheduled for November 10, 1997, at 10:00 a.m., Eastern Standard Time, in Hearing Room 1 of the Commission's offices at 730 Schenkel Lane, Frankfort, Kentucky.

5. New Par d/b/a Airtouch Cellular ("New Par") shall appear at the hearing and be prepared to present testimony on the engineering design, location, and construction of the proposed cell site, the safety issues relating to the operation of the cell site, and all other issues raised by the intervenor.

6. Any interested person shall have the opportunity to present testimony or comment on any aspect of the proposed cell site.

Done at Frankfort, Kentucky, this 22nd day of September, 1997.

PUBLIC SERVICE COMMISSION

For the Commission

ATTEST:

Executive Director
