		NOTES:										
	1	Market Rates will apply in those areas where BellSouth is not required to provide circuit switching pursuant to FCC rules.										
	2	In Georgia, rates will apply for Currently Combined as well as not Currently Combined loop/port combinations unless otherwise identified.										
	3	In the absence of ordered rates by a State Commission, the recurring rates for Currently Combined combinations of loop/port network elements will be the sum of the recurring rates for the UNEs which make up the combinations, and the nonrecurring rates shall be as set forth in this section.										
	4	End Office and Tandem Switching Usage and Common Transport Usage rates in the Port section of this rate exhibit shall apply to all combinations of loop/port network elements.										
	5	Deleted										
	6	Effective May 1, 2000 statewide rates will be replaced by Deaveraged Loop Rates by Zone where available. Until approximately December 31, 2000 or until such time that BellSouth billing systems have been developed to handle the new zone rate structure, BellSouth will bill at the Zone 1 Deaveraged Loop rate level only. After December 31, 2000 or such time that the billing systems have been developed to handle the new zone rate structure, BellSouth will begin billing pursuant to CLEC-1's interconnection agreement.										
	7	In the absence of ordered OSS rates by a state commission, BellSouth will offer regionwide rates										
	8	There is not a unique combination USOC. CLEC should submit the loop and port USOCs.										

- 4.1.3.2.1 Unbundled Local Switching, together with Common Transport and, if necessary, Tandem Switching, provides to Momentum Business Solutions local subscribers local calling and the ability to presubscribe to a primary carrier for intraLATA toll service and a primary carrier for interLATA toll service.
- 4.1.3.2.2 Provided that Momentum Business Solutions purchases unbundled local switching from BellSouth and uses the BellSouth CIC for its end users' LPIC or if a BellSouth local end user selects BellSouth as its LPIC, then the Parties will consider as local any calls originated by an Momentum Business Solutions local end user, or originated by a BellSouth local end user and terminated to an Momentum Business Solutions local end user, where such calls originate and terminate in the same LATA, except for those calls originated and terminated through switched access arrangements (i.e., calls that are transported by a party other than BellSouth). For such calls, BellSouth will charge Momentum Business Solutions the UNE elements for the BellSouth facilities utilized. Neither Party shall bill the other originating or terminating switched access charges for such calls. Intercarrier compensation for local calls between BellSouth and Momentum Business Solutions shall be as described in BellSouth's UNE Local Call Flows set forth on BellSouth's web site.
- 4.1.3.2.3 Where Momentum Business Solutions purchases unbundled local switching from BellSouth but does not use the BellSouth CIC for its end users' LPIC, BellSouth will consider as local those direct dialed telephone calls that originate from an Momentum Business Solutions end user and terminate within the basic local calling area or within the extended local calling areas and that are dialed using 7 or 10 digits as defined and specified in Section A3 of BellSouth's General Subscriber Services Tariffs. For such local calls, BellSouth will charge Momentum Business Solutions the UNE elements for the BellSouth facilities utilized. Intercarrier compensation for local calls between BellSouth and Momentum Business Solutions shall be as described in BellSouth's UNE Local Call Flows set forth on BellSouth's web site.
- 4.1.3.2.4 For any calls that originate and terminate through switched access arrangements (i.e., calls that are transported by a party other than BellSouth), BellSouth shall bill Momentum Business Solutions the UNE elements for the BellSouth facilities utilized.

Exhibit E

Each Party may bill the toll provider originating or terminating switched access charges, as appropriate.

- 4.1.3.2.5 Reverse billed toll calls, such as intraLATA 800 calls, calling card calls and third party billed calls, where BellSouth is the carrier shall also be considered as local calls and Momentum Business Solutions shall not bill BellSouth originating or terminating switched access for such calls.
- 4.1.3.2.6 BellSouth shall assess retroactive charges for UNE transport and switching associated with using the BellSouth LPIC if a CLEC has been able to previously select BellSouth as the end user LPIC prior to the option allowing the selection of a BellSouth provided LATA-wide local calling area being offered.
