## By and Between

BellSouth Telecommunications, Inc.

And

Southern Telecom, Inc.

#### **AGREEMENT**

This Agreement, which shall be deemed effective thirty business days following the date of the last signature by the Parties is entered into by and between Southern Telecom, Inc., ("Southern Telecom") a Delaware corporation on behalf of itself, and BellSouth Telecommunications, Inc., ("BellSouth"), a Georgia corporation, having an office at 675 W. Peachtree Street, Atlanta, Georgia, 30375, on behalf of itself and its successors and assigns.

**WHEREAS**, the Telecommunications Act of 1996 (the "Act") was signed into law on February 8, 1996; and

**WHEREAS**, section 252(i) of the Act requires BellSouth to make available any interconnection service, or network element provided under an agreement approved by the appropriate state regulatory body to any other requesting telecommunications carrier upon the same terms and conditions as those provided in the agreement in its entirety; and

**WHEREAS,** Southern Telecom has requested that BellSouth make available the interconnection agreement executed between BellSouth and AT&T Communications of the Southern States, Inc. ("AT&T Agreement") dated July 20, 2001 for the state of Kentucky.

**NOW, THEREFORE,** in consideration of the promises and mutual covenants of this Agreement, Southern Telecom and BellSouth hereby agree as follows:

1. Southern Telecom and BellSouth shall adopt, except for those modifications identified in Paragraphs 2 – 7 following, the AT&T Interconnection Agreement dated July 20, 2001 and any and all amendments to said agreement executed and approved by the appropriate state regulatory commission as of the date of the execution of this Agreement. With the exception of rates, BellSouth represents and warrants that any modifications described in Paragraphs 2 - 4 below are included as a result of and will only apply to the extent they incorporate the express language or intent of applicable FCC or Kentucky Public Service Commission Orders and the interrelated provisions of the AT&T agreement to these orders. The AT&T Interconnection Agreement and all amendments are attached hereto as Exhibit 1 and incorporated herein by this reference. The adoption of this agreement with amendment(s) consists of the following:

- 2. The Parties hereby agree to delete Section 5.3.1.1 of Attachment 3, as amended on April 18, 2002, and replace with new Sections 5.3.1.1 and 5.3.1.1.1 as follows:
  - 5.3.1.1 For reciprocal compensation between the Parties pursuant to this Attachment, Local Traffic is defined as any circuit switched call that is originated by an end user of one Party and terminated to an end user of the other Party within a given LATA on that other Party's network, except for those calls that are originated or terminated through switched access arrangements (i.e., traffic that is exchanged over switched access trunk groups). Additionally, Local Traffic includes any cross boundary, voice-to-voice intrastate, interLATA or interstate, interLATA calls established as a local call by the ruling regulatory body. ISP-bound Traffic is defined as calls to an information service provider or Internet service provider ("ISP") that are dialed by using a local dialing pattern (7 or 10 digits) by a calling party in one LATA to an ISP server or modem in the same LATA. ISP-bound Traffic is not Local Traffic subject to reciprocal compensation, but instead is information access traffic subject to the FCC's jurisdiction.
  - 5.3.1.1.1 Notwithstanding the definitions of Local Traffic and ISP-bound traffic above, and pursuant to the FCC's Order on Remand and Report and Order in CC Docket 99-68 released April 27, 2001 ("ISP Order on Remand"), BellSouth and Southern Telecom agree to the rebuttable presumption that all combined circuit switched Local and ISP-bound Traffic delivered to BellSouth or Southern Telecom that exceeds a 3:1 ratio of terminating to originating traffic on a statewide basis shall be considered ISP-bound traffic for compensation purposes. BellSouth and Southern Telecom further agree to the rebuttable presumption that all combined circuit switched Local and ISP-bound Traffic delivered to BellSouth or Southern Telecom that does not exceed a 3:1 ratio of terminating to

originating traffic on a statewide basis shall be considered Local Traffic for compensation purposes.

- 3. The Parties hereby agree to delete Sections 5.3.2, 5.3.3, 5.3.3.1, 5.3.3.2, 5.3.3.3, 5.3.3.4, 5.3.4 and 5.3.5 of Attachment 3, as amended on April 18, 2002 and replaced with new Sections 5.3.2, 5.3.3, 5.3.3.1, 5.3.3.2, 5.3.3.3, 5.3.3.4, 5.3.4 as follows:
  - 5.3.2 The Parties shall provide for the mutual and reciprocal recovery of the costs for the network facilities utilized in transporting and terminating Local Traffic on each other's network.
  - 5.3.3 The Parties agree that charges for transport and termination of Local Traffic on their respective networks are as set forth in Exhibit A to this Attachment
  - 5.3.4 Neither Party shall pay compensation to the other Party for per minute of use rate elements associated with the Call Transport and Termination of ISP-bound Traffic.
  - 5.3.5 The appropriate elemental rates set forth in Exhibit A of this Attachment shall apply for Transit Traffic as described in Section 5.3.20 below.
- 4. The Parties hereby agree to delete Sections 5.3.10 and 5.3.11, as amended on April 18, 2002, of Attachment 3 and replaced with new Sections 5.3.10 and 5.3.11 as follows:
  - 5.3.10 Switched Access Traffic. Switched Access Traffic is described as telephone calls requiring local transmission or switching services for the purpose of the origination or termination of Telephone Toll Service. Switched Access Traffic includes, but is not limited to, the following types of traffic: Feature Group A, Feature Group B, Feature Group C, Feature Group D, toll free access (e.g., 8XX), 900 access and their successors. Additionally, any Public Switched Telephone Network interexchange telecommunications traffic, regardless of transport protocol method, where the originating and terminating points, end-to-end points, are in different LATAs, or are in the same LATA and the Parties' Switched Access services are used for the origination or termination of the call, shall be considered Switched Access Traffic. Irrespective of transport protocol method used, a call which originates in one LATA and terminates in another LATA (i.e., the end-to-end points of the call) or in which the Parties'

Switched Access Services are used for the origination or termination of the call, shall not be considered Local Traffic or ISP-bound Traffic. If the BellSouth end user chooses Southern Telecom as their presubscribed interexchange carrier, or if the BellSouth end user uses Southern Telecom as an interexchange carrier on a 101XXXX basis, BellSouth will charge Southern Telecom the appropriate BellSouth tariff charges for originating switched access services. Neither Party shall represent Switched Access Traffic as Local Traffic or ISP-bound Traffic for purposes of determining compensation for the call.

- 5.3.11 If Southern Telecom assigns NPA/NXXs to specific BellSouth rate centers within the LATA and assigns numbers from those NPA/NXXs to Southern Telecom end users physically located outside of that LATA, BellSouth traffic originating from within the LATA where the NPA/NXXs are assigned and delivered to a Southern Telecom customer physically located outside of such LATA, shall not be deemed Local Traffic. Further, Southern Telecom agrees to identify such interLATA traffic to BellSouth and to compensate BellSouth for originating and transporting such interLATA traffic to Southern Telecom at BellSouth's switched access tariff rates.
- 5.3.11.1 If Southern Telecom does not identify such interLATA traffic to BellSouth, to the best of BellSouth's ability BellSouth will determine which whole Southern Telecom NPA/NXXs on which to charge the applicable rates for originating network access service as reflected in BellSouth's Access Service Tariff. BellSouth shall make appropriate billing adjustments if Southern Telecom can provide sufficient information for BellSouth to determine whether or not said traffic is Local Traffic.
- 5. Attachment 8 will be deleted in its entirety and replaced with a new Attachment 8 attached hereto as Exhibit 2.
- 6. The Parties hereby agree to delete in entirety Attachment 13.
- 7. The Kentucky rates contained in Exhibit A of Attachment 1, Exhibit A of Attachment 2, Exhibit A of Attachment 3 and Exhibit E of Attachment 6 of the AT&T Agreement are hereby deleted in entirety and replaced by the rates contained in Exhibit 3 of this Agreement.

- 8. The term of this Agreement shall be from the effective date as set forth above and shall expire as set forth in Section 2.1 of the AT&T Interconnection Agreement. For the purposes of determining the expiration date of this Agreement pursuant to Section 2.1 of the AT&T Interconnection Agreement, the effective date shall be July 20, 2001.
- 9. Southern Telecom shall accept and incorporate any amendments to the AT&T Interconnection Agreement executed as a result of any final judicial, regulatory, or legislative action.
- 10. Every notice, consent, approval, or other communications required or contemplated by this Agreement shall be in writing and shall be delivered in person or given by postage prepaid mail, address to:
