AMENDMENT NO. 1

to the

INTERCONNECTION AGREEMENT

between

ALEC, Inc.

and

Kentucky Alltel, Inc. as successor to Verizon South, Inc. (GTE of the SOUTH, Inc.)

This Amendment No. 1 (the "Amendment") is made this 27th day of May 2005 (the "Amendment Effective Date"), by and between ALEC, Inc. ("CLEC"), a Kentucky corporation with its principal place of business at 250 West Main Street, Suite 1920, Lexington, Kentucky and Kentucky Alltel Inc., a Delaware corporation ("Alltel") with its principal place of business at One Allied Drive, Little Rock, AR 72202. (ALEC and Alltel may be hereinafter referred to, each individually, as a "Party" and, collectively, as the "Parties"). This Amendment covers services in the Commonwealth of Kentucky.

WITNESSETH:

WHEREAS, CLEC and Alltel (as successor to Verizon South, Inc./GTE of the South, Inc.) are Parties to an Interconnection Agreement under Sections 251 and 252 of the Telecommunications Act of 1996, a copy of which is attached hereto as Exhibit 1 (the "Interconnection Agreement"); and

WHEREAS, on February 4, 2005, the FCC released an Order on Remand in WC Docket No. 04-313 and CC Docket No. 01-338 (the "TRRO") setting forth rules that supplanted, effective March 11, 2005, the temporary rules set forth by an FCC Order on August 20, 2004 in the above referenced dockets; and

WHEREAS, in light of these developments, the Parties, pursuant to Section 252(a) of the Communications Act of 1934, as amended, (the "Act") and Section 41 of the Agreement, wish to amend the Agreement in order to give contractual effect to the provisions set forth herein.

NOW, THEREFORE, in consideration of the mutual promises, provisions and covenants herein contained, the sufficiency of which is hereby acknowledged, the Parties agree as follows:

1. Amendment to the Agreement.

The Interconnection Agreement is amended to include, remove or modify the following provisions:

Article VII Unbundled Network Elements is amended to include the following provisions

5.2.5.1 DS1 Loop Caps. Alltel is not obligated to provide CLEC more than ten (10) DS1 unbundled loops to any single building (the "DS1 Cap"). CLEC will cease ordering DS1 unbundled loops with respect to a building once CLEC has already obtained ten (10) DS1 unbundled loops at the same building. If, notwithstanding this Section, CLEC submits such an order, at Alltel's option it may accept the order and fulfill a request for DS1 unbundled loop(s) in excess of the DS1 Cap as a Special Access circuit in accordance with Alltel's Intrastate Special Access tariff and applicable Special Access charges will apply to CLEC for such DS1 loop(s) as of the date of provisioning.

- 5.2.5.2 Alltel will provide written notice to CLEC in the event CLEC has more than ten (10) DS1 unbundled loops to any single building as of the effective date of this amendment. Within thirty (30) calendar days following the date of such notice, CLEC will submit requests to disconnect or convert the unbundled loops exceeding the DS1 Cap to Special Access circuits. All unbundled loops converted to Special Access will be billed applicable Special Access charges as listed in and be subject to the provisions of the Alltel Intrastate Special Access tariff.
- 5.2.6.1 DS3 Loop Caps. Alltel is not obligated to provide CLEC more than one (1) DS3 unbundled loop to any single building (the "DS3 Cap"). CLEC will cease ordering DS3 unbundled loops with respect to a building once CLEC has obtained one (1) DS3 unbundled loop at the same building. If, notwithstanding this Section, CLEC submits such an order, at Alltel's option, it may accept the order, but fulfill the requested DS3 unbundled loop(s) in excess of the DS3 Cap as a Special Access circuit in accordance with Alltel's Intrastate Special Access tariff and applicable Special Access charges and the provisions of the applicable tariff will apply to CLEC for such DS3 loop(s) as of the date of provisioning.
- 5.2.6.2 Alltel will provide written notice to CLEC in the event CLEC has more than one (1) DS3 unbundled loop to any single building as of the effective date of this Amendment. Within thirty (30) calendar days following the date of such notice, CLEC will submit requests to disconnect or convert to Special Access the unbundled loops exceeding the DS3 Cap. All unbundled loops converted to Special Access will be billed applicable Special Access charges and be subject to the provisions of the Alltel Intrastate Special Access tariff.

Article VII Unbundled Network Elements is amended to repeal and replace the following provision:

- 7.2.9 Wire Center "Tiers" -- wire centers are classified into three "tiers," as follows:
- (i) Tier 1 Wire Centers are those Alltel wire centers that contain at least four fiber-based collocators, at least 38,000 business lines, or both. Tier 1 Wire Centers also are those Alltel tandem switching locations that have no line-side switching facilities, but nevertheless serve as a point of traffic aggregation accessible by CLEC. Once a wire center is determined to be a Tier 1 Wire Center, that wire center is not subject to later reclassification as a Tier 2 or Tier 3 Wire Center.
- (ii) Tier 2 Wire Centers are those Alltel wire centers that are not Tier 1 Wire Centers, but contain at least 3 fiber-based collocators, at least 24,000 business lines, or both. Once a wire center is determined to be a Tier 2 Wire Center, that Wire Center is not subject to later reclassification as a Tier 3 Wire Center.
- (iii) Tier 3 Wire Centers are those Alltel wire centers that do not meet the criteria for Tier 1 or Tier 2 Wire Centers.
- 7.2.9.1 Alltel shall provide CLEC with access to UNE DS1 Dedicated Transport on routes, except routes where both wire centers defining the route are Tier 1 Wire Centers. As such Alltel must provide UNE DS1 Dedicated Transport under this Amendment only if a wire center at either end of a requested route is not a Tier 1 Wire Center, or if neither is a Tier 1 Wire Center. DS1 Dedicated Transport circuits on routes between Tier 1 Wire Centers are no longer available as Lawful UNEs under this Amendment. Accordingly, CLEC may not order or otherwise obtain, and CLEC will cease ordering DS1 UNE Dedicated Transport on such route(s).
- 7.2.9.2 Alltel shall provide CLEC with access to UNE DS3 Dedicated Transport, except on routes where both wire centers defining the route are either Tier 1 or Tier 2 Wire Centers. As such Alltel must provide UNE DS3 Dedicated Transport under this Amendment only if a wire center on either end of the requested route is a Tier 3 Wire Center. If both wire

centers defining a requested route are either Tier 1 or Tier 2 Wire Centers, then DS3 Dedicated Transport circuits on such routes are no longer available as UNEs under this Amendment. Accordingly, CLEC may not order or otherwise obtain, and CLEC will cease ordering DS3 UNE Dedicated Transport on such route(s).

Article IV General Rules is amended to repeal and replace the following provision:

- 6.0 With respect to GTE resold measured rate local service(s), chargeable time begins when a connection is established between the calling station and the called station. Chargeable time ends when the calling station "hangs up," thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released by automatic timing equipment in the network.

The following Articles and Appendices are amended to remove Unbundled Local Switching and Common Transport Elements:

Article VII Unbundled Network Elements : 2.1(c), 2.2.4, 2.2.5, 6.0, 6.1, 6.2, 6.3, 6.4, 7.1, 11.2, 11.3
