RE: Administrative Case No. 381

Dear Ms. Stumbo:

Please find enclosed and accept for filing the original USF certifications for Windstream Kentucky East, LLC. and Windstream Kentucky West, LLC. and associated petitions for confidential treatment. Also filed are ten redacted copies of the certifications.

Please do not hesitate to contact me if you have any questions.

Sincerely yours,

STITES & HARBISON, PLLC

Mark R. Overstreet

COMMONWEALTH OF KENTUCKY

PUBLIC SERVICE
COMMISSION

In the Matter of:

A CERTIFICATION OF THE CARRIERS)
RECEIVING UNIVERSAL SERVICE) ADMINISTRATIVE
HIGH COST SUPPORT) CASE NO. 381

PETITION FOR CONFIDENTIAL TREATMENT

Windstream Kentucky East, LLC. ("WKE") and Windstream Kentucky West, LLC. ("WKW") move the Public Service Commission of Kentucky (the "Commission") pursuant to K.R.S. §61.878(1)(c)(1) and 807 KAR 5:001, Section 7 to accord confidential treatment to the USF Filings ("Filings") made herewith. By these USF Filings WKE and WKW seek certification for Federal Universal Service Funds usage. In support of this Petition for Confidential Treatment, WKE and WKW state:

1. On September 25, 2001, the Commission issued an order in Administrative Case No. 381 requiring all carriers to file their plans for the use of any high-cost federal support by September 1 of each calendar year. Included in this filing is to be a listing of specific projects and their costs to which the Federal High Cost support will be applied.

2. The USF Filings contain a detailed listing of the proposed Capital Budget projects for WKE and WKW for the year 2009, including project description and associated project costs. This information has not been made not public and WKE and WKW take all reasonable steps to prevent its public dissemination. Within Windstream the information is made known only on a need-to-know basis.

3. K.R.S. §61.878(1)(c)(1) excludes the following records from the requirements of the Open Records Act:

records confidentially disclosed to an agency or required by an agency to be disclosed to it, generally recognized as confidential or proprietary, which if openly disclosed would permit an unfair commercial advantage to competitors of the entity that disclosed the records.

4. The telecommunications market in which WKW and WKE participate as providers of local exchange services is highly competitive.

5. Public disclosure of the contents of the USF Filings could provide other entities an unfair competitive advantage by revealing proposed network upgrade and modernization plans, certain aspects of competitive pricing, and certain aspects of operational planning.

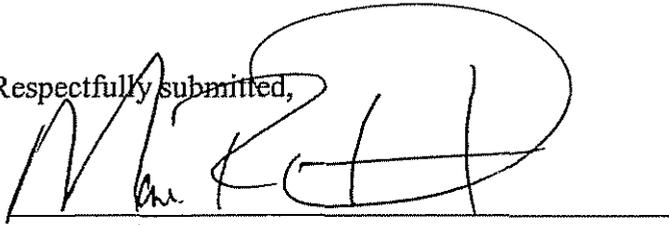

6. Because the USF Filings is confidential and proprietary, because it is protected from public disclosure by WKW and WKE and because its public disclosure would provide competitors of WKE and WKW an unfair competitive advantage, the Filing is exempted by K.R.S. §61.878(1)(c)(1) from disclosure under the Open Records Act. As a result, WKW and WKE are entitled under 807 KAR 5:001, Section 7 to confidential treatment by the Commission for the Filings.

7. Included with this Petition is one copy of the Filings that identifies by highlighting those portions of the Filings that are confidential. Also filed are ten copies of the Filing with the confidential information redacted.

WHEREFORE, Windstream Kentucky East, LLC. and Windstream Kentucky West, LLC. respectfully request that the highlighted information in the Filings be accorded confidential treatment and be placed in the confidential files of the Commission and that Windstream Kentucky East, LLC. and Windstream Kentucky West, LLC. be accorded all other relief to which they may be entitled.

This 28th day of August, 2008.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Mark R. Overstreet', written over a horizontal line. The signature is stylized and somewhat cursive.

COUNSEL FOR WINDSTREAM KENTUCKY
EAST, LLC. AND WINDSTREAM
KENTUCKY WEST, LLC.

**COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION**

In the Matter of:

| | | |
|---------------------------------|---|----------------|
| A CERTIFICATION OF THE CARRIERS |) | ADMINISTRATIVE |
| RECEIVING UNIVERSAL SERVICE |) | CASE NO. 381 |
| HIGH COST SUPPORT |) | |

On September 25, 2001, the Public Service Commission of Kentucky (the "Commission") issued an order in Administrative Case No. 381 requiring all carriers to file with the Commission their plans for the use of any high-cost federal support by September 1 of each calendar year.

Accordingly, Windstream Kentucky East, LLC., ("Windstream") submits the following and respectfully requests that the Commission file, with the Federal Communications Commission ("FCC") and the Universal Service Administrative Company ("USAC"), a certification that Windstream's proposed capital expenditures for 2009 comply with the FCC's criteria and, accordingly, is eligible to receive federal Universal Service Fund support.

Estimate of USF Support Amount

Windstream estimates its Federal Universal Service support for 2009 will be approximately

Intended Use of Support

All Federal USF support received, for Windstream properties in the Commonwealth of Kentucky, will only be used for the provision, maintenance and upgrading of facilities and services for which the support is intended, consistent with section 254(e) of the Telecommunications Act of 1996 (the Act).

Achieving Comparability of Rates and Services

In Section 254 of the Act, Congress articulated a national goal that consumers in all regions of the nation, including rural, insular and high cost areas, should have access to telecommunications and information services at rates that are reasonably comparable to rates charged for similar services in urban areas¹.

The actual cost to provide service in rural high cost areas is determined by many factors including the cost of the local loop and the costs associated with operating, maintaining, and upgrading facilities. Local loop costs and the costs of operating, maintaining, and upgrading facilities vary widely due to many factors, including subscriber density, terrain, local exchange size, accessibility, and labor costs². To this end, the Federal Universal Service support received by Windstream will offset some of the financial burden of owning, operating, maintaining, and upgrading facilities in rural areas and allows these services to be offered at rates that are comparable to rates for similar services in non-rural areas.

Listing of Specific Projects

Attachment "A" contains a listing of Windstream's specific Capital Budget projects and the estimated cost of each project currently budgeted for completion in 2009. Windstream anticipates that these projects will be completed and associated dollars expended in 2009, but this is subject to change as conditions warrant. Additionally, Windstream will use the Federal High Cost support funds and other funds generated from various sources to support not only the projects listed in Attachment "A", but also to maintain embedded plant and for various other purposes allowed by the Federal Communications Commission rules.

¹ See FCC's FOURTEENTH REPORT AND ORDER, TWENTY-SECOND ORDER ON RECONSIDERATION, AND FURTHER NOTICE OF PROPOSED RULEMAKING IN CC DOCKET NO. 96-45, AND REPORT AND ORDER IN CC DOCKET NO. 00-256, released May 23, 2001, paragraph 2.

² See Footnote #525, Page 116 of the FCC's Report and Order CC Docket No. 96-45.

**COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION**

In the Matter of:

| | | |
|---------------------------------|---|----------------|
| A CERTIFICATION OF THE CARRIERS |) | ADMINISTRATIVE |
| RECEIVING UNIVERSAL SERVICE |) | CASE NO. 381 |
| HIGH COST SUPPORT |) | |

On September 25, 2001, the Public Service Commission of Kentucky (the "Commission") issued an order in Administrative Case No. 381 requiring all carriers to file with the Commission their plans for the use of any high-cost federal support by September 1 of each calendar year.

Accordingly, Windstream Kentucky West, LLC., ("Windstream") submits the following and respectfully requests that the Commission file, with the Federal Communications Commission ("FCC") and the Universal Service Administrative Company ("USAC"), a certification that Windstream's proposed capital expenditures for 2009 comply with the FCC's criteria and, accordingly, is eligible to receive federal Universal Service Fund support.

Estimate of USF Support Amount

Windstream estimates its Federal Universal Service support for 2009 will be approximately

Intended Use of Support

All Federal USF support received, for Windstream properties in the Commonwealth of Kentucky, will only be used for the provision, maintenance and upgrading of facilities and services for which the support is intended, consistent with section 254(e) of the Telecommunications Act of 1996 (the Act).

Achieving Comparability of Rates and Services

In Section 254 of the Act, Congress articulated a national goal that consumers in all regions of the nation, including rural, insular and high cost areas, should have access to telecommunications and information services at rates that are reasonably comparable to rates charged for similar services in urban areas¹.

The actual cost to provide service in rural high cost areas is determined by many factors including the cost of the local loop and the costs associated with operating, maintaining, and upgrading facilities. Local loop costs and the costs of operating, maintaining, and upgrading facilities vary widely due to many factors, including subscriber density, terrain, local exchange size, accessibility, and labor costs². To this end, the Federal Universal Service support received by Windstream will offset some of the financial burden of owning, operating, maintaining, and upgrading facilities in rural areas and allows these services to be offered at rates that are comparable to rates for similar services in non-rural areas.

Listing of Specific Projects

Attachment "A" contains a listing of Windstream's specific Capital Budget projects and the estimated cost of each project currently budgeted for completion in 2009. Windstream anticipates that these projects will be completed and associated dollars expended in 2009, but this is subject to change as conditions warrant. Additionally, Windstream will use the Federal High Cost support funds and other funds generated from various sources to support not only the projects listed in Attachment "A", but also to maintain embedded plant and for various other purposes allowed by the Federal Communications Commission rules.
