**Re: A REVIEW OF THE ADEQUACY OF KENTUCKY'S GENERATION  
CAPACITY AND TRANSMISSION SYSTEM - ADM. CASE NO. 387**

Dear Mr. Dorman:

On March 1, 2004, Louisville Gas and Electric Company filed its 2003 Annual Resource Assessment, pursuant to Appendix G of the Commission's Order dated December 20, 2001 in the above styled case.

It has come to my attention that the correct Page 1 of the Response to Item No. 3 was not provided in that filing. Therefore, please find enclosed an original and 5 copies of the correct Page 1 of the Response to Item No. 3. Page 2 of the Response to Item No. 3 remains unchanged.

Please contact me if you have any questions regarding this filing.

Very truly yours,

John Wolfram  
Manager, Regulatory Affairs

3. Actual and weather-normalized monthly coincident peak demands for the just completed calendar year. Demands should be disaggregated into (a) native load demand (firm and non-firm) and (b) off-system demand (firm and non-firm).

**Response:**

Please refer to attached Table LGE-3 which shows the actual and weather-normalized coincident peak native demands. The normalized native peak demands are available only on a seasonal (summer/winter) basis.
