Public Service Commission

I am writing concerning a proposed rate increase by Kentucky utilities - that will be up to you - your decision will have a major effect on my household.

I plead with the Commission not to let this rate increase happen.

I remember years back KU started adding new charges in the name of up grading - DSM Charge - Environmental Surcharge - ESM Charge. I remember when we got the Environmental Surcharge it was just a short term surcharge we have been paying to it for many years. KU has passed on rate increases in the name of many surcharges, please stop this now - we can't afford this.

Sincerely,

Mrs. Felecia S. Faith
