RE: Case No. 2004-00130

Dear Ms. Talley:

In response to your request of January 12, 2006, please be advised that this project which consisted of the purchase of a remote meter reading system and the purchase and replacement of 14,000 meters has been completed as of December 31, 2005. The system is functioning as intended.

It should be noted that the system has greatly reduced meter reading costs in both labor and associated expenses as well reducing meter reading mistakes.

Sincerely,

A handwritten signature in black ink that reads 'Will Brown'. The signature is written in a cursive, flowing style.

Will Brown  
Manager

## **Status of PSC Case NO. 2004-00130**

This project involved the purchase of 14,000 radio read meters along with associated equipment for reading and software for processing the data.

As of this time all of the equipment and software has been purchased. Approximately 14,000 meters have been installed and are in use. Everything seems to be working as planned and has substantially reduced meter reading costs, both in labor and associated expenses. It also greatly reduces meter reading mistakes.

All installations were completed by December 31, 2005.
