SHEET NO. 14

West Daviess Water District  
(Name of Utility)

CANCELLING P.S.C. KY. NO. \_\_\_\_\_

SHEET NO. \_\_\_\_\_

---

**RULES & REGULATIONS**

---

**24. UNMETERED PRIVATE FIRE PROTECTION SERVICES:**

The Customer shall install a double-acting backflow preventer and valve vault at each unmetered private fire protection line. The Customer shall install the backflow preventer assembly in accordance with the District's "Fire Protection Line Double Check Valve and Vault" Detail as set forth in this tariff. Normal assembly and vault installation shall be within ten (10) feet of the fire line connection point to the District's water main.

Customer shall test and service the backflow preventer at least once during calendar year. Testing and maintenance occurring within six (6) months of a prior test and maintenance event shall not be considered as a testing and maintenance event for purposes of this rule. Customer shall report to the District all tests and servicing on a "Test and Maintenance Form" as shown in this regulation. Reports shall be filed with the District within 21 days of the test. The Customer shall perform all repairs and maintenance deemed necessary as a result of the inspection within 14 days of the inspection.

Only qualified individuals shall perform inspections, testing and maintenance on a backflow preventer. For purposes of this regulation, a "qualified individual" is a licensed plumber or licensed fire protection sprinkler contractor.

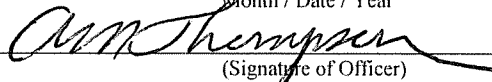

Customer shall provide to and ensure that authorized District personnel have access to the backflow preventer and vault at all reasonable times to inspect for compliance with the District's rules and regulations. Customer shall further provide access to backflow preventer and vault during any emergency.

The Customer is responsible for all costs related to the installation, operation, testing and maintenance of each of its backflow preventer assemblies.
