Additionally, KU and LG&E (the "Companies") are among several sponsoring companies under the Inter-Company Power Agreement ("Agreement") that became eligible for the power and energy released from OVEC's Kyger Creek plant in Cheshire, Ohio and IKEC's Clifty Creek plant at Madison, Indiana, effective August 31, 2001. Generating capacities are 1,075 MW and 1,290 MW for Kyger Creek and Clifty Creek, respectively. Under the Agreement, KU's contractual allocation is 2.5% and LG&E's contractual allocation is 7% of the power from the OVEC plants through March 12, 2006. The values below represent the maximum monthly capacity to be available to the Companies after taking into consideration the maintenance schedule of the eleven units operated by OVEC.

Utility	Companies' Amount	KU Portion	Duman
OVEC, Nov. 2003	~ 205 MW	~ 54 MW	Purpose

KENTUCKY UTILITIES RANKED 23TH LOWEST FOR THE 12-MONTH PERIOD

KU's ranking is among the highest of the companies in the comparison group primarily due to the cost of the compliance coal KU purchases.

Over eighty percent of KU's coal purchases is Eastern Compliance low sulfur coal. By contrast, several of the utilities in the comparison group are able to utilize greater amounts of lower cost compliance coal from the Powder River Basin (PRB) than is KU. KU's ability to utilize PRB coal is limited due to operational constraints at its generating facilities.

<u>ADDENDUM TO</u> <u>KENTUCKY UTILITIES COMPANY'S PROOF OF CLAIM</u> <u>IN THE BANKRUPTCY OF COOK & SONS MINING, INC.,</u> <u>CASE NUMBER 03-70789</u>

This Exhibit is a part of and is incorporated in the Proof of Claim filed on behalf of Kentucky Utilities Company ("KU") in the Bankruptcy Case of Cook and Sons, Inc. (the "Debtor") which is pending in the United States Bankruptcy Court for the Eastern District of Kentucky, Case Number 03-70789.

1. NATURE OF CLAIMS

KU is a provider of electricity in the Commonwealth of Kentucky. The Debtor delivered to KU a Producers Certificate pursuant a Coal Supply Agreement, dated December 30, 2002 (the "Contract"), a copy of which is attached hereto as <u>Exhibit B</u> and incorporated herein by this reference. The Contract required the Debtor to deliver coal to KU at a set price per ton with certain MMBTU guaranties. The Contract was rejected by the Debtor pursuant to Motion to Reject Certain Executory Contracts made on October 23, 2003, which was granted by Court Order dated November 17, 2003.

Below is a Calculation of the Damages sustained by KU arising from the rejection of the Contract.

2. CALCULATION OF COVER DAMAGES ARISING FROM REJECTED CONTRACT (ESTIMATED) FOR THE YEARS 2003 & 2004

Notes as to Calculation

1. Contract calls for 324,000 tons per year, for 2003 cook & Sons shipped 123,977 tons, balance due (324,000 - 123,977) = 200,023

Cook & Sons delivered price base on 13,000 btu coal
 2003 \$28.80 per ton fob railcar + \$6.89 rail = delivered per ton of \$35.69 or 137.27 cents/MMBTU
 2004 \$29.30 per ton fob railcar + \$6.89 rail = delivered per ton of \$36.19 or 139.19 cents/MMBTU

Unless otherwise specified in the Purchase Order, Buyer shall designate to Seller the scheduling, routing and method of Shipments of coal purchased under this Purchase Order. Seller shall cause coal sold hereunder to be properly loaded into the transport vehicle (i.e. railcars, barges, vessels, trucks, etc.) for delivery to Buyer, provided that Buyer has provided Seller with applicable loading instructions (including minimum and maximum weights) no less than 24 hours prior to the arrival of Buyer's transport vehicle and said instructions comply with industry standards. The delivery schedule specified in the Purchase Order or as designated by Buyer in absence of such in the Purchase Order is binding on both Buyer and Seller and may only be changed by mutual agreement followed by a mutual written agreement between the parties.

2. TITLE AND RISK OF LOSS; WARRANTY

Title to and risk of loss of coal conforming to this Purchase Order shall pass to Buyer as follows:

- a) For barge deliveries, as the loaded barges are pulled from the Delivery Point.
- b) For rail deliveries, upon completion of loading all railcars in each unit train and as such unit train is pulled from the Delivery Point.

- d) For all Non-Conforming Shipments (as hereinafter defined) title to and risk of loss of coal shall revert back to Seller immediately upon any rejection or non-acceptance by Buyer as provided elsewhere in this Purchase Order.

Seller and Buyer shall each indemnify, defend, and save harmless the other party, its affiliates and their respective officers, directors, agents, representatives and employees from and against any liabilities, losses, claim, damages, penaltics, causes of action, or suits (collectively "Claims") arising out of, in connection with or related to the ownership, operation, storage, processing, handling and transportation of the coal by the indemnifying party during the Applicable Period. For purposes of this parsgraph, "Applicable Period" shall mean (i) with respect to the Seller, the period of time prior to title to and risk of loss of passing to Buyer hercunder, and (ii) with respect to the Buyer, the period of time from and after title to and risk of loss of the coal passing to Buyer hercunder.

Seller represents and warrants that it has title to, and the right to sell, all coal sold hercunder and the same is shipped free and clear of all liens, encumbrances, and claims of all third parties.

3. WEIGHTS

Weights of coal delivered by rail shall be determined by Seller on a per Shipment basis by use of a scale system located at the Delivery Point and certified no less frequently than every six months by an appropriate testing agency in accordance with the guidelines established by NIST. If there is no certified scale system at the Delivery Point, railway weights shall govern all settlements hereunder with respect to rail deliveries.

4. SAMPLING AND ANALYSIS

Buyer shall perform all sampling and analysis at its expense and the results of Buyer's testing shall be accepted and used for the quality and characteristics of the coal delivered under this Purchase Order. Seller may observe the unloading, sampling, sample preparation and analysis hereunder. Buyer's sampling and analysis practices for coal delivered under this Purchase Order shall be performed in substantial compliance with ASTM standards where applicable or mutually agreed methods.

Each coal sample collected by the Buyer shall be properly divided into at least four sub-samples. One part shall be used by Buyer as a check sample, if Buyer in its sole judgment determines it is necessary; one part shall be retained by Buyer until thirty (30) days ("Disposal Date") after the sample is taken, and shall be delivered to Seller for analysis if Seller so requests before the Disposal Date. One part ("Referee Sample") shall be retained by Buyer until the Disposal Date. Seller shall be given copies of all analyses made by Buyer by the 12th business day of the month following the month of unloading. In addition, Buyer will send weekly analyses of coal shipments to Seller. Unless Seller requests a Referee Sample analysis before the Disposal Date, Buyer's analysis shall be used to determine the quality of the coal delivered hereunder. The Monthly Weighted Averages shall be determined by utilizing the individual shipment analyses,

If any dispute arises before the Disposal Date, the Referee Sample retained by Buyer shall be submitted for analysis to an independent commercial testing laboratory ("Independent Lab") mutually chosen by Buyer and Seller. All testing of any such sample by the Independent Lab shall be at requestor's expense unless the results differ by more than the applicable ASTM reproducibility standards. If the Independent Lab results differ from Buyer's analysis by more than the applicable ASTM reproducibility standards, the Independent Lab results will govern.

5. QUALITY PRICE DISCOUNT

(A) The Base Price is based on the coal delivered hercunder meeting or exceeding (i.e. greater than or equal to any minimums and less than or equal to any maximums) the Guaranteed Monthly Quality Specifications. If, during any particular calendar month, the Actual Monthly Quality (as defined below) does not meet or exceed one or more of the Guaranteed Monthly Quality Specifications, then, to the extent provided in the Purchase Order, the Base Price shall be reduced with respect to each such non-conforming specification. The amount of the Base Price discount for each non-conforming specification, if any, is determined by using the corresponding Monthly Discount Value or Individual Shiptment Discount Value with respect to each such non-conforming specification, and is calculated in the manner set forth on Exhibit A attached hereto and made a part hereof. For purposes of this Purchase Order, the Wonthly Quality' shall mean the weighted average quality of all coal (on an as received basis during any particular calendar month) delivered and accepted by Buyer hereunder (but not including any coal rejected pursuant to Paragraph (B) below) determined in accordance with the terms and conditions hereof.

Notwithstanding the foregoing, for each specification, there shall be no discount if the Actual Monthly Quality meets or triggers the applicable Discount Point set forth in the Quality Specifications section above. However, if the Actual Monthly Quality fails to meet such applicable Discount Point, then the discount shall apply to and shall be calculated as provided in the immediately preceding paragraph.

- (B) If any Shipment of coal triggers any of the Rejection Limits specified herein (a "Non-Conforming Shipment"), Buyer shall have the option, exercisable by notice to Seller of either (i) rejecting such Non-Conforming Shipment at the Delivery Point or en-route, but prior to unloading from Transporter's equipment of (ii) accepting any Non-Conforming Shipment with a mutually agreeable price reduction. Should Buyer exercise such right of rejection, it shall notify Seller by E-mail or verbally upon discovery of the Non-Conforming Shipment, such notification to be promptly confirmed in writing. If Buyer fails timely to exercise its rejection rights hereunder as to a Non-Conforming Shipment, Buyer shall be deemed to have waived such rights with respect to that Non-Conforming Shipment only. If Buyer timely rejects the Non-Conforming Shipment, Seller shall be responsible for promptly transporting the rejected coal to an alternative destination determined by Seller and, if applicable, promptly unloading such coal, and shall reimburse Buyer for all reasonable costs and expenses associated with the transportation, storage, handling and removal of the Non-Conforming Shipment. Seller shall, at Buyer's request replace the rejected coal as soon as possible, provided that Buyer gives written notice to Seller of Buyer's desire for replacement coal within 10 days after rejection of the Non-Conforming Shipment.
- (C) If there are three Non-Conforming Shipments, whether rejected or not, under this Purchase Order in any three-month period or if two out of four consecutive Shipments under this Purchase Order are Non-Conforming Shipments, then an Event of Default has occurred, and Buyer may upon notice to Seller suspend the receipt of future Shipments (except Shipments already loaded or in transit to Buyer) under this Purchase Order. A waiver by Buyer of the suspension right for any one period shall not constitute a waiver for subsequent periods.

6. INVOICING AND PAYMENT

- (A) Exhibit A strached hereto shows the methodology for calculating the cosl payment and quality price adjustments for the month Seller's coal is unloaded by Buyer.
- (B) Seller shall invoice Buyer at the Base Price, minus any quality price adjustments if applicable, for all coal unloaded by Buyer in a calendar month within 10 days of delivery of the final Shipment of the month.
- (C) For all coal delivered pursuant to this Purchase Order, Buyer shall make a preliminary payment of ninety percent (90%) of the amount owed for the coal (based on the assumption that the coal will meet all guaranteed monthly quality parameters) 10 days after receipt of Shipment by Buyer. The amount due for all coal (based on the Base Price minus any Quality Price Discounts) delivered and unloaded and accepted by Buyer during any calendar month shall be calculated and compared to the sum of the preliminary payments made for coal delivered and unloaded and accepted during such month. The difference shall be paid by Seller or paid to Seller, as applicable, 15 days after receipt of the final Shipment during the month of the sum of the su

be made on the next regular work day. All preliminary payments shall be calculated based on the thencurrent price on a dollar per ton basis as calculated based on the guaranteed monthly weighted average BTU/lb, and the then-current Base Price in cents per MMBTU.

(D) A reconciliation of amounts paid and amounts owed shall occur 5 days following the delivery of the last Shipment during the month (For example, the preliminary payment for a Shipment delivered to Buyer on October 5, 2003 will be made on October 15, 2003. If the final Shipment for the month is delivered to Buyer on October 25, 2003, Buyer will make a preliminary payment to Seller on November 4, 2003. Final payment for all deliveries made during October will be made on November 9, 2003.) The reconciliation shall be made as follows: Seller shall invoice Buyer within 10 days following the delivery of the last Shipment of the month. The amount due for all coal (based on the Base Price minus any Quality Price Discounts) delivered and unloaded and accepted by Buyer during any calendar month shall be calculated and compared to the sum of the preliminary payments made for coal delivered and unloaded and accepted during such month. Buyer shall electronically transfer funds as requested by Seller to Seller's account at:

UNITED COAL COMPANY Bank Name: Citizens Bank – Elizabethton, TN ABA #: 064207946 Account #: 700000083

This order is not subject to Kentucky Sales Tax.

If any party in good faith reasonably disputes an invoice, it shall provide a written explanation specifying in detail the basis for the dispute and pay any undisputed portion no later than the due date. Notwithstanding anything herein to the contrary, non-payment of disputed portions, so long as such amounts remain disputed in good faith, shall not constitute an Event of Default hereunder.

7. ASSIGNMENT/DELEGATION

This Purchase Order shall inure to the benefit of and be binding upon the parties and their respective successors and permitted assigns. However, no Party shall assign this Purchase Order or any of its rights or obligations hereunder without the prior written consent of the other party. Notwithstanding the foregoing, any party may, without the need for consent from the other party (and without relieving itself from liability hereunder), (a) transfer, sell, pledge, encumber or assign this Purchase Order or the accounts, revenues or proceeds hereof or thereof in connection with any financing or other financial arrangements or (b) bransfer or assign this Purchase Order to an affiliate of such party; provided, however, that no such assignment shall in any way relieve the assignor from liability for full performance under this Purchase Order. Any such assignee shall assume and agree to be bound by the terms and conditions of this Purchase Order.

Written consent to one or more assignments shall not be construed as waiving the necessity of obtaining written consent to other and/or additional assignments.

8. FORCE MAJEURE

No party shall be subject to liability to the other party for the failure to perform in conformity with this Purchase Order where such failure results from a Force Majeure. A party affected by Force Majeure shall notify the other party in writing within 24 hours of the existence of such Force Majeure condition, and shall provide to the other party a written confirmation of such Force Majeure condition, and its expected effect on deliveries and expected duration within 3 days following such initial notification. The party affected by the Force Majoure shall remedy the Force Majoure with all reasonable dispatch. In the event of a Force Majoure, delivery of the affected quantity of coal shall be made up in full or in part only at the discretion of the Party not claiming Force Majeure. If an event of Force Majeure persists for a continuous period of at least 60 days, then the party not claiming Force Majoure shall have the option, upon three days' prior written notice, to terminate this Purchase Order and the obligations of the parties hereunder shall terminate (other than obligations and liabilities for prior performance thereunder). If Seller claims Force Majoure and is unable to meet all of its sales obligations under this Purchase Order and any other of its coal sales agreements involving coal of a similar type and quality as the coal sold hereunder, or if Buyer claims Force Majeure and is unable to meet all of its purchase obligations under this Purchase Order and any other of its coal and/or coal purchase agreements involving coal and/or coal of a similar type and quality as the coal purchased hereunder for the same generating station, then my reductions in Seller's deliveries or Buyer's purchases (as applicable) shall be allocated by the party claiming Force Majeure on a pro rata basis among this Purchase Order and such other coal and/or coal purchase agreements involving coal of a similar type and quality as the coal to be sold and purchased hereunder to the extent contractually permitted by this Purchase Order and such other agreements. For purposes of this paragraph, the term "Force

Majuere" means an event or circumstance which prevents one party from performing its obligations under this Purchase Order, which is not within the reasonable control of, or the result of the negligence of, the party claiming Force Majeure, and which by the exercise of due diligence, the claiming party is unable to overcome or avoid or cause to be avoided or is unable in good faith to obtain a substitute therefore. Losses are considered part of off-system sales and are included in the AFB process to determine fuel expense for off-system sales. The volumes of losses generated for sales during Nov 03 through Apr 04 are:

Nov 2003	2,160 MWH
Dec 2003	2,681 MWH
Jan 2004	4,010 MWH
Feb 2004	3,069 MWH
Mar 2004	1,986 MWH
<u>Apr 2004</u>	<u>811 MWH</u>
Total	14,717 MWH

These volumes of losses are the daily sums of the required generation for transmission losses over systems outside of the LGE/KU control area. The line loss factors are dynamically calculated by MISO for each individual transaction. As such, there isn't a single loss factor that can be quoted.

The average loss factor for third-party off-system sales subject to transmission line losses in MISO is 1.36%.
