PUBLIC SERVICE
COMMISSION

Dear Attorney Pike,

This is in regard to your letter concerning the construction of a wireless communication facility on a site owned by Mead Westvaco Corporation. Your map does not indicate a precise location but a general area. However, it appears that it is close to our Water Treatment Plant. If this is the case we have concerns that all steps be taken to insure that the communications systems that now exist, on our water tower, do not receive interference. Communication systems that may or may not be obstructed are police, New Commonwealth Gas Company, Wickliffe's Water Department tank control system, Grassy Lake phone system and our paging system.

In conclusion our concern may be unfounded but we would be remiss if we did not bring this to your attention.

Very Truly Yours,

Mayor S. L. Mayolo
