RE: Formal Application for a Purchased Water Adjustment

Dear Mr. Dorman:

Enclosed is an original and 10 copies of an application for a purchased water rate adjustment for Pendleton County Water District. The adjustment was necessary to recover an increase in the cost of water attributable to our suppliers' new wholesale rates. A copy of the suppliers' notice of the changed rate showing the effective date of the increase is attached. Please make our effective date August 15, 2004.

The district will publish the enclosed public notice of these requested rate revisions in the local newspapers. In accordance with PSC rules and regulations, the notice will be published before the new bills are issued and will be published one time. A copy of the newspaper notice and an affidavit verifying publication will be forwarded to you upon publication.

Sincerely,

H.T. Ammerman  
Secretary

- 1.a. Name of all wholesale suppliers and the base (current) rate and changed rate of each. In the event the water purchased is billed by the supplier on a rate that is not a flat rate schedule, the entire rate shedule must be shown. Attach additional sheets if necessary.

<u>Supplier(s)</u>	<u>Base Rate</u>	<u>Changed Rate</u>
<u>Northern Kentucky Water</u>	<u>\$2.30</u>	<u>\$2.40</u>
<u>City of Falmouth</u>	<u>\$1.85</u>	<u>\$1.98</u>
<u> </u>	<u> </u>	<u> </u>

The increased water cost is the cost difference between purchases at base (current rate) and purchases at new rate.

6. Purchased water adjustment factor 0.12.

The purchased water adjustment factor is obtained by dividing the increased cost of water by the total gallons sold.

Note: The purchased water adjustment factor is added to each thousand gallons sold. If the minimum usage is 2,000 gallons then the purchased water adjustment factor would be added to the minimum bill twice. Revised tariff sheets must be attached showing the rate to be charged by the utility and the effective date of the increased rates.

7. Proposed effective date August 15, 2004.
