To - Public Service Commission

The Interstate Natural Gas Co
has proposed an increase for
Natural Gas, from \$5.50/mcf to
\$9.50/mcf which is a \$4.00 increase,

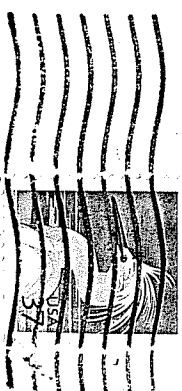

I don't think Interstate Natural Gas Co.
should get an increase, because
my gas is not transported.
My gas comes from a well
about 200 yard from my home,

I am elderly and don't know
how I can afford an increase.
Please consider my request
to not change my rates

Thank you
Leahdane Ray
