RE: Case No. 2002-00240, Case No. 2004-00393  
Duke Energy Kentucky Rider NM Annual Informational Report

Dear Ms. Stumbo:

In its order dated September 13, 2002 in Case No. 2002-00240, the Commission ordered Duke Energy Kentucky to file information on Rider NM (Net Metering Rider) for the preceding twelve months ending August 31. Following is information pertaining to Duke Energy Kentucky's Net Metering program as of August 31, 2008:

**One customer has received service under Rider NM as of August 31, 2008.**

- a) **The number of customers, separately identifying residential customers and school customers:**  
One residential customer is participating in net metering.
- b) **The amount of energy, in kilowatt-hours, delivered to and received from, each customer for the 12 months ended August 31:** The Company delivered the net amount of 2,112 kWh to the customer from September 2007 to August 2008. Each month, on a net basis, the Company delivered energy to the customer. Because the customer has a standard residential meter that is capable of spinning forward and backward, the Company does not know if the customer delivered energy to the Company during any specific hours.
- c) **A schedule which identifies, by customer, the period of time (on-peak or off-peak) during each month in which energy was received from the customer and the amount of energy received during each period :** Please see the response to item b.
- d) **A listing by month, by customer, that shows any credit balances resulting from the customer generating more electricity than was consumed during the month:** This customer had no credit balances.

Very truly yours,

James E. Ziolkowski
