

Dear Ms. O'Donnell, # 2005-00207

I am a landowner and I am opposed to the EKPC transmission line. I feel that existing lines should be used.

Ann Stephens

Dear Ms. O'Donnell, M7 2005-00207

Concerning the above case filed by EKPC: My husband & I are very opposed ~~to~~ to this application. Power lines already exist for serving this area. We do not understand why there is a need for more lines. We have already decimated the environment for too much. In addition, we are destroying family farms, (which have already been greatly diminished), farms that have been in families for several generations. Please deny EKPC this application.

Sincerely, Linda & Ray Fox
