PUBLIC SERVICE  
COMMISSION

Sir or Madam:

I received the Public Notice (2005-00284) stating Bluegrass Wireless LLC is applying to the Public Service Commission of Kentucky for a Certificate of Public Convenience and Necessity for construction and operation as a new cell facility to provide cellular radio service. It states the facility would include a 240 foot tower to be located at 1715 North Minton Road, Nancy, Kentucky, 42544.

My sister and I do own property that is located within a 500 foot radius of the proposed tower's location. The notice states that we have a right to intervene in this matter.

I do have some concerns and questions. I would like some more information as to how the existence of the tower would affect us as property owners and how it would affect the people who live in our rental house that is at the edge of the 500 foot radius.

We are concerned about a possible health risk. Is the radiation a danger if living within the 500 foot radius? How would the tower affect satellite television and radio, landline and cellular telephone, and computer service in this area? How is the tower to be anchored? Is there a greater risk of lightning strikes?

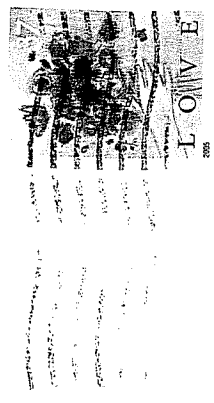

My address is 1525 New Hope Road, Nancy, KY 42544. My home phone number is (606) 871-9205. My phone number at work is (606) 679-4782 ext. 221. I would appreciate a response to my questions.

Thank You,

Teresa Pyles
