RE: Gas Service Rates

Case # 2005-00401

Gas Supply Clause No. 2005-00XXX Dated September 29, 2005 35 Page Submittal from LG&E – Robert M. Conroy – Mgr. Rates

Dear Ms. O'Donnell:

I am reading over the cover letter submitted by LG&E - Robert M. Conroy - Mgr. Rates. I am sure you have heard from many, many individuals concerning this outrageous increase for not only the poverty level, but for those who make \$30,000.00 or less (gross) who cannot withstand this increase.

Help me out here, what did Mr. Conroy mean when he states in his letter his furthermore, "we are filing a petition to seek confidentiality with respect to the names of natural gas suppliers" shown Exhibit B-1, pages 5 of 6 and 6 of 6. Why would this be held confidential if what they state on paper is in fact "the true facts"?

I have talked to a lot of people with LG&E and Public Service Commission concerning the increase of 64% and they really don't care. I foresee a lot of people freezing to death or becoming deathly ill because of this increase. LG&E offered to extend my payments out (they do not hear me, I cannot pay the extension amount).

On Wave3 coverage today, there was a write-up by Maurcen Kyle investigates. Quoting from this investigation it states LG&E officials know its extremely unlikely that customers facing a 64% increase in their own bills will have any extra money to help other customers and that is why the utility has announced a \$200,000 boost to its own "winter donation program". LG&E spokeswoman, Laura Douglass said, "this year, for the period of November 1 through March 31, 2006, we're going to match our customers donations \$2 for every \$1 they contribute to the fund". Nothing they say makes any sense. Also who is in charge of knowing who donated what to the funds????

I'm sure what we are feeling right now is not important to any of you. You just get tired of everything swinging in the "wrong" direction. There's not much left for the normal working people.

For whatever it is worth, I said my thoughts.

Patricia Borchers
