Dear Sir:

We are opposed to the construction of a cellular telephose tower right off Ky. Old Loop # 3, Monticello, Ky. Case no. 2005-00445 because we live very close to the proposed site. Our reasons were listed in the previous letter which we sent prior to the company making application and which you have on file. Please refer to that letter for reasons we are opposed to the tower being built so close to our home and farm.

Sincerely,
General John
Casper
