Re: Case Number 2005-00445

I am Mrs. Lafayette Shelton (Lottie) and I own the property contiguous to the property site of the proposed construction of this 260 foot tower. Also, my son's home is less than 400 feet from the site. He has lived there for 19 years and it was not included on the map.

I highly object to this tower being constructed. I can not believe that someone would want to put a huge tower so close to several homes. I counted 44 homes, 2 companies, 1 business and 1 Church close to this site.

The tower would pose several problems such as scenic pollution, health problems to humans plus cattle and sheep, and it would depress property value. Also, it is too close to the electrical lines for the homes nearby.

I am a widow and my land is my investment for the future as my husband was a farmer, he did not have a company pension or large 401-K to leave me and my family.

The owners of the land of the proposed site do not live close. One lives in the state of Texas and

the other lives 2 miles away. Therefore their  
homes would not lose their value.

Thank you  
Lottie Shelton
